The Potency Miracle:

The Potency Miracle Uri P. Peles, 1996-10-01 **Reported Miracles** Joseph Houston, 1994-04-21 Suppose that one is presented with a report of a miracle as an exception to nature's usual course. Should one believe the report and so come to favour the idea that a god has acted miraculously? Hume argued that no reasonable person should do anything of the kind. Many religiously sceptical philosophers agree with him and have both defended and developed his reasoning. Some theologians concur or offer other reasons why those who are believers in God should also refuse to accept accounts of miracles as accurate reportage. This book argues to the contrary. For Houston, miracle stories may contribute towards the reasonableness of belief in God and appropriately attested may be accepted by believers in God. To bolster his case, he examines historically and intellectually significant writings about the miraculous. And having argued for the rejection of Hume, he explores the implications of this rejection for science, history and theology. **The Mystery of Miracles** Joseph William Reynolds, 1881 **Miracles in Said Nursi and Thomas Aquinas** Edmund Michael Lazzari, 2024-11-26 In order to preserve contemporary understandings of the sciences, many figures of the Divine Action Project (DAP) held that God could never violate or suspend a law of nature, causing the marginalization of miracles from scholarly theology/science dialogue. In the first substantive entry of interreligious dialogue on the topic, this book provides fresh contemporary accounts of Said Nursi and Thomas Aquinas on miracles and science, challenges contemporary noninterventionist presuppositions, and explores rich, untapped avenues in the theology, metaphysics, and epistemology of miracles and laws of science. Through an exploration of Nursi's Ash'arite Qur'anic interpretation of the sciences and St Thomas's neglected doctrine of obediential potency, this volume marshals powerful tools from the world's two largest religions to elucidate the foundations of God's interaction with creatures. As well as contributing to the contemporary debate, this volume provides Muslim and Christian readers alike substantive intellectual frameworks in which to think about the sciences from the heart of their own intellectual traditions, while at the same time giving them as alternatives to mainstream contemporary approaches for scientists and other readers engaged in theology/science dialogue. **Combating Frauds Against the Elderly** United States Congress, Senate, Special Committee on Aging, 1983 **The Orphanage of Miracles** Amy Neftzger, 2013-11-13 Perhaps everyone could use a miracle, but very few will find the one they truly need. Amid a war-torn land, hidden deep within an enchanted forest, hides an orphanage where miracles abound. It's a magical place built by a resolute king who is determined to defeat an evil sorcerer waging bitter war against his people. Victory just might take a miracle, and so the orphanage may very well hide the key to winning the war. A young girl named Kelsey also desperately needs a miracle. She embarks on a quest to find the mysterious and hidden orphanage. Along the way, she's joined by several traveling companions, including an oversized snow leopard and a boy who cannot speak. In a land enchanted, it's difficult to know the difference between what's real and what isn't, and what a true friend looks like. Join Kelsey and her companions as they embark on an extraordinary adventure, and a

quest unlike any other The Orphanage of Miracles is a work of fiction that examines the concept of miracles and what it takes to find or make the one you need **Animation between Magic, Miracles and Mechanics** Hans Henrik Lohfert

Jørgensen,Laura Katrine Skinnebach,Henning Laugerud,2023-08-18 When it comes to images we are all animists Deep down we all know that images can at least potentially be alive or come to life Nowadays we may tend to rationalize our ingrained animism and explain it away as a mere projection only happening in the space between image and viewer In the Middle Ages however imagery made enthusiastic use of magical miraculous and mechanical means of animation empowered and ensouled by both natural and supernatural principles of life This animist book investigates magic miracles and mechanics as motors of animation and seeks to understand the living image in solidarity with medieval experience rather than dismissive alienation of it Effigies did bleed weep or lactate either through divine intervention or through hydraulic machinery Statues did move or speak either as demonic oracles or as talking heads with implanted speaking tubes Marvels made by magic or by miracles were real as real as the wonders of physical mechanics moving bodily matter We just need to look and listen more carefully to comprehend these fluid realities even when especially when they challenge our received worldview Animation was by no means uncontested or uncontradicted but even its stiffest critics knew that gods and demons could intervene in inanimate matter to set it in motion to speak in tongues and exude the liquids of life *A Century of Miracles* H. A. Drake,2017-08-01

The fourth century of our common era began and ended with a miracle Traditionally in the year 312 the Roman emperor Constantine experienced a vision of the Cross that led him to convert to Christianity and to defeat his last rival to the imperial throne and in 394 a divine wind carried the emperor Theodosius to victory at the battle of the Frigidus River Other stories heralded the discovery of the True Cross by Constantine's mother Helena and the rise of a new kind of miracle maker in the deserts of Egypt and Syria These miracle stories helped Christians understand the dizzying changes they experienced in the fourth century Far more than the outdated narrative of a life and death struggle between Christians and pagans they help us understand the darker turn Christianity took in subsequent ages In *A Century of Miracles* historian H A Drake explores the role miracle stories played in helping Christians pagans and Jews think about themselves and each other These stories he concludes bolstered Christian belief that their god wanted the empire to be Christian Most importantly they help explain how after a century of trumpeting the power of their god Christians were able to deal with their failure to protect the city of Rome from a barbarian sack by the Gothic army of Alaric in 410 Augustine's magnificent *City of God* eventually established a new theoretical basis for success but in the meantime the popularity of miracle stories reassured the faithful even when the miracles came to an end Thoroughly researched within a wide range of faiths and belief systems *A Century of Miracles* provides an absorbing illumination of this complex polytheistic and decidedly mystical phenomenon **The Cult of St Katherine of Alexandria in Early Medieval Europe** Christine Walsh,2017-05-15 St Katherine of Alexandria was one of the most popular saints in both the Orthodox and Latin Churches in the later Middle Ages yet there has been little study of

how her cult developed before c 1200 This book redresses the balance providing a thorough examination of the way the cult spread from the Greek speaking lands of the Eastern Mediterranean and into Western Europe The author uses the full range of source material available including liturgical texts hagiographies chronicles and iconographical evidence bringing together these often disparate sources to map the way in which the cult of St Katherine grew from its early stages in the Byzantine Empire up to c 1100 its transmission to Italy and the introduction and development of the cult in Normandy and England up to c 1200 The book also includes appendices listing early manuscripts containing Katherine s Passio and including key original texts on St Katherine of the period This study will be welcomed by scholars of medieval history and the history of medieval art and as a case study for all those with an interest in the development of medieval saint s cults *Manipulating the Sun* ,2023-12-18 This volume puts two biblical miracles the Sun reversing its course in II Kings 20 8 11 Isaiah 38 8 Horologium Ahaz and the Sun standing still in Joshua 10 12 in the early modern period centre stage We pay special attention to the development of related imagery their role as anti Copernican arguments in text and image their reception their treatment in the mathematical sciences and their various cultural layers with a focus on the history of art and the history of science in the sixteenth and seventeenth centuries The material discussed spreads from rather prosaic mathematical reflections to highly appealing visual representations of the two miracles
