The Prediction Of Communist Economic Performance:

The Prediction of Communist Economic Performance P. J. D. Wiles, 1971 This study represents attempts dating from 1967 by nine experts on Communist economics to forecast the performance of individual Communist countries These predictions provide a great deal of comparable information and make experimental use of elementary econometrical techniques which have rarely been applied to these countries before The book also contains as a unique feature criticism and self criticism of the predictions of 1967 here reproduced unchanged in the light of subsequent events A most valuable by product is the analytical comparison of planning procedures and of agricultural ownership country by country so that the differing progress of the reforms can be easily grasped The Prediction of Communist Economic Performance P. J. F. Wiles, 1971 **India's**

Economic Relations with the USSR and Eastern Europe 1953 to 1969 Asha L. Datar, 2010-06-10 The author traces the history of economic relations between India and the Soviet Union after they signed a treaty of mutual military protection in 1971 and draws conclusions on the advantages and disadvantages of the close ties of a developing country with the centrally planned economies The Struggle for Soviet Jewish Emigration, 1948-1967 Yaacov Ro'i, 2003-10-30 In this important 1991

study of Soviet Jewry Yaacov Ro i examines the cultural social political and international context of the movement for emigration from the establishment of the state of Israel to the outbreak of the Six Day War A discussion of the lives of Soviet Jews based upon oral testimony shows how Jewish self awareness arose as a product of the Holocaust of the founding of the State of Israel and of popular antisemitism and Soviet policy and how local groups developed in clandestine conditions to sustain Jewish cultural interests The author also analyses the campaign conducted in the West on behalf of Soviet Jewish rights as a whole and emigration in particular By 1967 Soviet Jewish efforts to maintain even a minimal Jewish existence seemed doomed to constant frustration and most nationalistically minded Jews accepted that the only way of fulfilling their aspirations was to emigrate to Israel The Origins of the Stalinist Political System Graeme Gill, Graeme J. Gill, 2002-07-18

New and challenging perspectives on Soviet political development from 1917 to 1941 **Latin America Through Soviet Eyes** Ilya Prizel, 1990-04-26 Latin America through Soviet Eyes provides an original and comprehensive assessment of changing Soviet perceptions of politics in Latin America during the Brezhnev years Dr Prizel surveys the views of Soviet academics and journalists as well as of politicians on three main areas **Advertising and socialism: The nature and**

extent of consumer advertising in the Soviet Union, Poland Philip Hanson, 2017-07-28 This study looks at the tiny but growing volume of consumer advertising even in countries such as the Soviet Union which had detailed central planning and substantially more in the recently decentralised Hungarian economy and pre invasion Czechoslovakia And of course outside the Soviet orbit there was the relatively market oriented and Westernised Yugoslav economy This suggested that there were after all some interesting questions to answer Why did an administrative economy like the Soviet one have any domestic consumer advertising at all and why was it apparently growing What did evidence from Hungary and Yugoslavia suggest

about the scale and functions of advertising in more decentralised socialist economies This title was first published in 1974

The United Front Daniel F. Calhoun, 2008-11-06 The book concerns the Soviet effort during the 1920s to make contact with and if possible revolutionize the European labour movement by first establishing a special relationship with the British Trades Union Congress The ultimate failure of that effort after the collapse of the general strike in 1926 inspired Trotsky to try one last time to oust Stalin a confrontation that led to utter collapse of the Trotskyite opposition in 1927-28 The author suggests the failure of this particular united front effort was a major factor in the sectarianism and isolationism of the Communist movement from 1928 to 1934 and thus had a significant affect on the rise of the Nazi party in Germany

Vlasov and the Russian Liberation Movement Catherine Andreyev, 1987 Vlasov and the Russian Liberation Movement deals with the attempt by Soviet citizens to create a Russian anti Stalinist liberation movement during the Second World War These Soviet citizens were mainly prisoners of war forced labourers or part of the population of the occupied territories of the USSR The Liberation Movement was encouraged by German officers who disagreed with Nazi policy towards the USSR as their experience showed that treating the population as subhumans Untermensch merely increased resistance to Nazi occupation Throughout the development of the Liberation Movement there existed a divergence of aims between the Russian members who wished to form an army and a political movement which would effect change within the USSR and its German supporters who merely wished to alter the type of propaganda directed towards the population of the USSR Catherine Andreyev provides an account of the evolution of the Russian Liberation Movement and examines the motivation of the titular leader of the movement Lieutenant General Andrey Andreyevich Vlasov The main focus of the book is the ideology of the Liberation Movement the importance of which lies in the fact that it represented the first grass roots opposition movement within the Soviet Union since the end of the Civil War in 1922 The programme of the Movement reflects issues which would have been raised by citizens in the 1930s had they been free to do so Catherine Andreyev examines influences on the programme and the ideas expressed are placed within the context of the pre war Soviet and Russian migr society

The Czechoslovak Economy 1948-1988 Martin Myant, 1989-09-29 Dr Myant presents a detailed account of the development and performance of the Czech economy over a period of forty years and reveals the problems and tensions created by the chosen system of centralised planning Dr Myant's conclusion is that any economic reform will have little substance unless accompanied by appropriate political change
