The Present Crisis A Critical Analysis Of The Human Mind:

The Present Crisis Gopi Krishna,1981-01-01 The Present Crisis Gopi Krishna,1981-10-01 **The Quantum Conspiracy** , M.N. Roy M. N. Roy,2010-10-04 When humanism was first receiving widespread public attention in the West through such publications as *The Humanist Manifesto* in 1933 unbeknownst to most Westerners humanism was proceeding on a parallel track in India largely due to the efforts of philosopher and political activist M N Roy 1887 1954 Sadly it wasn't until the early fifties at the end of Roy's life that European humanists began to notice his work To rectify the unfortunate neglect in the West of one of India's premier intellectuals philosopher Innaiah Narisetti has compiled this new collection of Roy's most significant works Roy conceived of humanism as a scientific integral and radically new worldview Among many interesting selections in this volume Roy's *Principles of Radical Democracy* 22 Theses is especially representative of his thinking Here he emphasized ethics and eschewed supernatural interpretations as antithetical to his scientifically oriented conception of new humanism He also underscored the importance of universal education to make average people scientifically literate and to teach them critical thinking Roy was not only a thinker but a doer as well He spent six years in an Indian prison during the 1930s for opposing the British rule of India For humanists philosophers political scientists and others M N Roy's unique and still very relevant view of humanism will have great appeal and broad application beyond its original Indian context *New Realities* ,1981 The fabric(ation) of consciousness Pieter F. Craffert ,2024-05-28 Consciousness is central to the quest for being human and for what the world is made of While there is widespread agreement on the significance of consciousness for clarifying the human condition there is no agreement on the phenomenon in search of theorising Although there is no shortage of theories and concepts of consciousness in current consciousness research the dominant critical analysis of consciousness research in this study although based on existing analyses is as far as I can see new and unique in arguing for a crisis in consciousness research This book touches on most aspects of consciousness research the hard problem of consciousness neural correlates of consciousness brain models and consciousness consciousness and dualistic thinking etc but is a critical analysis of consciousness research It is not an insider but a third person perspective on current consciousness research In this regard it differs from most introductions and overviews where these topics are presented from a first person perspective the insiders claim about their research Representing the broad spectrum of consciousness research in terms of the theoretical framework of a neuro ecological perspective is a new and innovative move *Documents on Political Thought in Modern India* ,1976 On political developments in India 1857 1964 comprises extracts from newspaper articles speeches letters biographies books etc Phenomenology and the Human Sciences J.N. Mohanty,2012-12-06 Understanding the Current Global Socio-economic and Ecological Crises V. Ratna Reddy,Bhagirath Behera,2025-07-28 Why has global economic growth failed to deliver equity sustainability and well being for all Despite decades of growth centric and free market policies poverty and

inequality persist and the unchecked exploitation of natural resources threatens the planet's future. This thought-provoking book critically examines the limitations of current economic models and highlights how growth has often been achieved at the cost of environmental and social health. Drawing from ancient Indian philosophical traditions, historical and cultural practices while steering clear of religious dogma, the authors challenge the modern obsession with profit maximization, consumerism, and self-interest. They advocate for a behavioral and ethical transformation in economic thinking, one rooted in community sustainability and intergenerational equity. This work is the product of years of dialogue with scholars, thinkers, and practitioners and offers a powerful alternative vision: an economy that not only thrives but also uplifts all.
