## Songs For Gaia:

Songs for Gaia Brian Lee, 2005-01-01      *Gary Snyder's Sense of Place* Sharon Paquin-Staple, 1982      *Songs for Gaia* Steven Klett, 2017      **Songs of Gaia** Julie Tara, 2015-05-05 In our world today there is a yearning to connect to beauty a rising tide of sensitivity and awareness of the immense difficulties we are facing a need to find a sense of redemption Poetry offers this It opens the window to paradox giving voice to both the souls grief and its longing for the ecstatic Julie Taras poetry falls in the tradition of the mystical poets who through the magic of words open the eye and the soul to the awareness of the infinite of timelessness of presence To enter into Songs of Gaia is to enter into a world where the desert wind becomes a wild woman's breath where the rivers you've drunk deeply from become the blood of the Mother's veins and where the sound of your beating heart becomes the rhythm of the very universe in which you live      **Songs for Gaia** Gary Snyder, 1979

*Literature, Nature, and Other* Patrick D. Murphy, 1995-02-01 The book first establishes a theoretical framework for conceptualizing environmental analysis It then develops a conception of environmental literature with an emphasis on works by women arguing for the need to reconceptualize woman nature and nature culture associations and critiquing the problems of male poetic sex typing of the planet Murphy also elaborates on specific works and authors with an emphasis on literary texts by Hampl Harjo Snyder and Le Guin Additionally he treats issues of canon and pedagogy as well as the possibility of agency in a postmodern era Ranging across diverse fields and incorporating cultural studies post structuralist literary theory and ecofeminist philosophy *Literature Nature and Other* both defines and critiques the current terrains of literary ecocriticism and nature writing environmental literature Literary examples are drawn from fiction poetry and prose including postmodern metanarratives and works by Native Americans and Chicanas      Gaia's Web Karen Bakker, 2024-04-16 A riveting exploration of one of the most important dilemmas of our time will digital technology accelerate environmental degradation or could it play a role in ecological regeneration At the uncanny edge of the scientific frontier Gaia's Web explores the promise and pitfalls the Digital Age holds for the future of our planet Instead of the Internet of Things environmental scientist and tech entrepreneur Karen Bakker asks why not consider the Internet of Living Things At the surprising and inspiring confluence of our digital and ecological futures Bakker explores how the tools of the Digital Age could be mobilized to address our most pressing environmental challenges from climate change to biodiversity loss Interspersed with ten elegiac enigmatic parables each of which is based on an existing technology Gaia's Web evokes the conundrums we face as the World Wide Web intertwines with the Web of Life A new generation of innovators is deploying digital technology to come to the aid of the planet using spy satellites to track down environmental criminals inviting animals to the Metaverse and biohacking Frankenstein like biobots as environmental sentinels But will they end up doing more harm than good In an engaging take on conservation technology Bakker looks at the digital tech applications to environmental issues from predatory harvesting of environmental data to human bycatch and eco surveillance capitalism If we address

these issues and mobilize digitally mediated forms of citizen science she argues digital tech could help reverse environmental harms and advance environmental sustainability And in the process Big Tech might be transformed for the better With its uniquely broad scope combining insights from computer science ecology engineering environmental science and environmental law Gaia's Web introduces profoundly novel ways of addressing our most pressing environmental challenges mitigating climate change protecting endangered species and creating new possibilities for ecological justice by empowering nonhumans to participate in environmental regulation

Starlight Starbright: Are Stars Conscious? Second Edition Greg Matloff, C Bangs, 2020-05-07 The only thing we can be absolutely sure of is our own consciousness But what is consciousness Is it a property that is unique to humans or do we share it with other lifeforms Or is the philosophical doctrine of panpsychism correct are stars and the entire universe conscious in some sense Early chapters in this book examine the prehistory mythology and history of this topic Arguments are presented from the viewpoints of shamans philosophers poets quantum physicists and novelists A simple toy model of panpsychism is then presented in which a universal field of proto consciousness interacts with molecular bonds via the vacuum fluctuation pressure of the Casimir Effect It is shown how this model is in congruence with an anomaly in stellar motions called Parenago's Discontinuity Cooler redder less massive stars such as the Sun apparently circle the center of the galaxy faster than their hotter bluer more massive sisters This discontinuity occurs at the point in the stellar distribution where molecules begin to appear in stellar spectra As described in the first edition of this book observations of main sequence stars out to 260 light years and giant stars out to 1 000 light years using the ESA Hipparcos space observatory

support the reality and non locality of Parenago s Discontinuity Local more conventional explanations for this phenomenon are not supported by observations of other galaxies and the spiral arms of the Milky Way Since 2014 the new ESA Gaia space observatory has been obtaining kinematics and position data for 1 billion stars in our galaxy The first Gaia data release in 2016 has been used in 2018 by a Russian team to demonstrate Parenago s Discontinuity for a large stellar sample out to 500 light years from the Sun These observations support the hypothesis that anomalous stellar motion is due to stellar volition as described by philosopher author Olaf Stapledon in his classic novel *Star Maker* as previously discussed by the author in the peer reviewed *Journal of the British Interplanetary Society JBIS* In light of the new Gaia observations and work by other researchers it is not impossible that panpsychism is emerging from the realm of philosophy as a new subdivision of observational astronomy Simple models of universal proto consciousness may be subject to inductive tests using current and future space observatories A special feature of this book is the chapter frontispiece art by C Bangs *Hewing to Experience* Sherman Paul,1989-11 The celebration of a point of view that Paul is uniquely equipped to communicate It provides an excellent treatment of the development and practice of a powerful poetic force in modern poetry today showing the theoretic coherence of Emerson Whitman Pound Williams and particularly Olson as originators and practitioners of open forms Thomas Merrill This book is going to be of value to a number of different readers For teachers and writers it is a resource and a stimulus for participating in an open poetics On a utilitarian level it will help to respond to the recent *Refashioning Myth* David McInnis,Eric Parisot,Jessica Wilkinson,2020-05-15 Robert Graves tells us that the poet s first enrichment is a knowledge and understanding of myths Certainly as this collection of essays poems and visual images affirms mythology has been a field richly mined by poets and artists from antiquity through to the present day It is testament to both the enduring power of myth as well as the adaptability of its form that poets and writers continually turn to the mythic for both inspiration and guidance This volume presents a diverse collection of analytical and creative works by scholars poets and visual artists in response to their varied explorations of the prolific dialogue that exists between myth and poetry **Radicalism and Music** Jonathan Pieslak,2015-11-03 *Radicalism and Music* offers a convincing argument for music s transformational impact on the radicalization reinforcement and motivational techniques of violent political activists It makes a case for the careful examination of music s roles in radical cultures roles that have serious impacts as evidenced by the actions of the Frankfurt Airport shooter Arid Uka Sikh Temple murderer Wade Page white supremacist Matthew Hale and animal rights activist Walter Bond among others Such cases bring up difficult questions about how those involved in radical groups can be stirred to feel or act under the influence of music *Radicalism and Music* is based on interviews email correspondence concerts and videos As a sound strategy music is exploited to its fullest potential as a tool for recruiting and retaining members by members of al Qaeda the Hammerskin Nation Christian Identity Kids in Ministry International Earth First and Vegan Straight Edge But as the book points out the coercive use of music is not isolated to radical cultures but in political propaganda

sporting events and popular music as well Ultimately Radicalism and Music shows how music affects us through our emotions and how it triggers violence and enables hateful ideology *Seasons Within Box Set* Lele Iturrioz, 2018-03-05 First two books of the Seasons Within saga Book One SEASONS WITHIN Most teenage girls know their name where they came from who they are Not G a beautiful redhead with unusual markings on her wrist She gets her name from a silver locket she keeps around her neck unaware the engraved letter G on its front holds the secret to her past G's life before the age of six has been a mystery to her Each night for the last twelve years she's been haunted by the same nightmare a war Horrendous beasts warriors able to wield the four elements and a boy who saves her by means of blue fire taunt her memory But on her eighteenth birthday G's life begins to unravel When she meets her new Chemistry professor a man with an uncanny resemblance to the boy who saves her she knows there must be more to her dreams It's dangerous not knowing who you are what you're capable of and what future awaits you Especially when the darkness that slaughtered your entire world just found you Book Two SPRING Gaia finally knows who she is and what she's meant to do It's only been a few weeks since the earth element woke in her Now that she's embracing her role as Mother Nature she must journey with her group of power wielding friends in a race against time to get back home before Azazel reaches them After all even if Gaia doesn't know it war is closer than she thinks *The Wild and the Toxic* Jennifer Thomson, 2019-03-27 Health figures centrally in late twentieth century environmental activism There are many competing claims about the health of ecosystems the health of the planet and the health of humans yet there is little agreement among the likes of D.C. lobbyists grassroots organizers eco anarchist collectives and science based advocacy organizations about whose health matters most or what health even means In this book Jennifer Thomson untangles the complex web of political social and intellectual developments that gave rise to the multiplicity of claims and concerns about environmental health Thomson traces four strands of activism from the 1970s to the present the environmental lobby environmental justice groups radical environmentalism and bioregionalism and climate justice activism By focusing on health environmentalists were empowered to intervene in the rise of neoliberalism the erosion of the regulatory state and the decimation of mass based progressive politics Yet as this book reveals an individualist definition of health ultimately won out over more communal understandings Considering this turn from collective solidarity toward individual health helps explain the near paralysis of collective action in the face of planetary disaster **CMJ New Music Report**, 1999-06-07 CMJ New Music Report is the primary source for exclusive charts of non commercial and college radio airplay and independent and trend forward retail sales CMJ's trade publication compiles playlists for college and non commercial stations often a prelude to larger success **The Classical Journal**, 1921 *CMJ New Music Report*, 1999-06-14 CMJ New Music Report is the primary source for exclusive charts of non commercial and college radio airplay and independent and trend forward retail sales CMJ's trade publication compiles playlists for college and non commercial stations often a prelude to larger success **Fearless 3** Francine Pascal, 2014-02-04 The brilliant beautiful and dangerous
