Coffman presents countless trivial facts and dozens of interesting back stories from rock and roll's colorful past. In one somber chapter he examines the air crash death of some of the music industry's most beloved members. It's like reliving the final hours of the lives of dear friends. IMAGE LARRY COFFMAN Rock Song Index Bruce Pollock, 2014-03-18 The Rock Song Index Second Edition is a new version of a well received index to the classic songs of the rock canon from the late 40s through the end of the 20th century. The study of the history of rock music has exploded over the last decade; all college music departments offer a basic rock history course covering the classic artists and their songs. **Operas in English: A Dictionary** Margaret Ross Griffel, 2012-12-21 In this revised and expanded edition of *Operas in English: A Dictionary* Margaret Ross Griffel updates her work on operas written specifically to an English text including not only works originally in English but also those set to new English librettos. Since the book's initial publication in 1999 Griffel has added nearly 900 new items bringing the total number of entries in this new edition to 4,400 covering the world of opera in English from 1634 through 2011. The front matter includes a brief history of English opera to set the stage for the dictionary entries that follow. Listed alphabetically, each opera entry includes alternative titles, a full descriptive title, the number of acts, composer's name, librettist's name with original language of the libretto, the source of the text, date, place, and cast of the first performance, date of composition if it occurred substantially earlier than the premiere, similar information for the first U.S. including colonial and British, England, Scotland, Wales performances, brief plot summary, main characters' names and vocal ranges where known, names of noteworthy numbers, comments on special musical problems and techniques, other settings of the text including non-English ones, other operas if any involving the same story or characters, cross references are indicated by asterisks. Entries include such information as first and critical editions of the score and libretto, a bibliography ranging from scholarly studies to more informal journal articles and reviews, a discography and information on video recordings. *Operas in English* features four appendixes: a selective bibliography and two indexes. The first appendix lists composers, their places and years of birth and death, and their operas included in the text as entries; the second does the same for librettists; the third records authors whose works inspired or were adapted for the librettos; and the fourth comprises a chronological listing of the A-Z entries including the date of first performance, the city of the premiere, or composition date if unperformed or performed much later, the short title of the opera, and the composer. There is a main character index and an index of singers, conductors, producers, composers of other settings, and other key figures. Dance of Life Craig Lockard, 1998-04-01 The rock era is over, according to one pop music expert. Another laments that rock music is metamorphosed into the musical wallpaper of ten thousand lifts, hotel foyers, shopping centers, airport lounges, and television advertisements that await us in the 1990s. Whatever its current role and significance in Anglo-American society, popular music has been and remains a tremendous social and cultural force in many parts of the world. This book explores the connections between popular music genres and politics in Southeast Asia, with particular emphasis on Indonesia, the Philippines, Thailand, Malaysia, and Singapore. **Lunacy** John Kruth, 2023-03-01
