The Trash Phenomenon Stacey Michele Olster,2003 The Trash Phenomenon looks at how writers of the late twentieth century not only have integrated the events artifacts and theories of popular culture into their works but also have used those works as windows into popular culture's role in the process of nation building Taking her cue from Donald Barthelme's 1967 portrayal of popular culture as trash and Don DeLillo's 1997 description of it as a subversive people's history Stacey Olster explores how literature recycles American popular culture so as to change the nationalistic imperative behind its inception The Trash Phenomenon begins with a look at the mass media's role in the United States emergence as the twentieth century's dominant power Olster discusses the works of three authors who collectively span the century bounded by the Spanish American War 1898 and the Persian Gulf War

1991 Gore Vidal's American Chronicle series John Updike's Rabbit tetralogy and Larry Beinhart's American Hero Olster then turns her attention to three non American writers whose works explore the imperial sway of American popular culture on their nation's value systems hierarchical class structure in Dennis Potter's England Peronism in Manuel Puig's Argentina and Nihonjinron consensus in Haruki Murakami's Japan Finally Olster returns to American literature to look at the contemporary media spectacle and the representative figure as potential sources of national consolidation after November 1963 Olster first focuses on autobiographical historical and fictional accounts of three spectacles in which the formulae of popular culture are shown to bypass differences of class gender and race the John F Kennedy assassination the Scarsdale Diet Doctor murder and the O J Simpson trial She concludes with some thoughts about the nature of American consolidation after 9 11
