Poetic Community Stephen Joyce, 2013-01-01 Poetic Community examines the relationship between poetry and community formation in the decades after the Second World War In four detailed case studies of Black Mountain College in North Carolina the Caribbean Artists Movement in London the Women's Liberation Movement at sites throughout the US and the Toronto Research Group in Canada the book documents and compares a diverse group of social models small press networks and cultural coalitions informing literary practice during the Cold War era Drawing on a wealth of unpublished archival materials Stephen Joyce offers new and insightful comparative analysis of poets such as John Cage Charles Olson Adrienne Rich Kamau Brathwaite and bpNichol In contrast with prevailing critical tendencies that read mid century poetry in terms of expressive modes of individualism Poetic Community demonstrates that the most important literary innovations of the post war period were the results of intensive collaboration and social action opposing the Cold War's ideological enclosures

New England Beyond Criticism Elisa New, 2014-03-18 NEW ENGLAND BEYOND CRITICISM Elisa New's book is a remarkable achievement It is very rare that a critic manages to ask what seem exactly the right questions then to answer them in a lively brilliant evocative and supremely intelligent prose Charles F Altieri University of California Elisa New is a refreshing voice among critics and historians of literature She has a keen sense of the nature of New England and its deep spiritual resources reaching back to the Puritans moving through the great nineteenth century expressions of interior landscapes and visions This is a book I welcome and celebrate Jay Parini Middlebury College Literary criticism of the past thirty years has undercut what the canonizers of the nineteenth and early twentieth centuries saw as the fundamental role of early New England in the development of American literary culture And yet a determination in literary circles to topple perceived Ivy League elitism and Protestant cultural creationism overlooks the continuing value beauty and even practical utility of a canon still cherished by lay readers around the world This Manifesto raises questions about how academic specialization and the academic study of New England have affected enthusiasm for reading Using a range of interpretive practices including those most often deployed by contemporary academic critics Elisa New cuts across firmly established subfields mixing literary exegesis with autobiographical reflection close reading with cultural history archival and antiquarian inquiry with experiments in style and lays bare editorial orthodoxies raising to question the whole hierarchy of values now governing the study of American and other literatures Taking New England as a test case for a wider more accessible set of critical practices New England Beyond Criticism demands that the domain of literary study be opened further to the tastes of the general reader

the most potent elements of language those that venture beyond the realm of prose and invoke the power of cadence lyricism and drama to recount all aspects of the human condition **A Companion to Twentieth-Century Poetry** Neil

Roberts,2008-06-09 In the twentieth century more people spoke English and more people wrote poetry than in the whole of previous history and this Companion strives to make sense of this crowded poetical era The original contributions by leading international scholars and practising poets were written as the contributors adjusted to the idea that the possibilities of twentieth century poetry were exhausted and finite However the volume also looks forward to the poetry and readings that the new century will bring The Companion embraces the extraordinary development of poetry over the century in twenty English speaking countries a century which began with a bipolar transatlantic connection in modernism and ended with the decentred heterogeneity of post colonialism Representation of the canonical and the marginal is therefore balanced including the full integration of women poets and feminist approaches and the in depth treatment of post colonial poets from various national traditions Discussion of context intertextualities and formal approaches illustrates the increasing self consciousness and self reflexivity of the period whilst a Readings section offers new readings of key selected texts The volume as a whole offers critical and contextual coverage of the full range of English language poetry in the last century **The Bloomsbury**

James Merrill Knowing Innocence reevaluates the achievement of this important poet by showing how he takes up an old

paradigm innocence and reinvents it in response to new historical scientific and cultural developments including the bomb contemporary cosmology and the question of agency The book covers Merrill s full career emphasizing the late poetry on which there remains little commentary Illuminating both Merrill s relation to a tradition of literary innocence from Milton to Blake and Wordsworth to Emerson and Stevens and his relevance to contemporary cultural debates the rubric of knowing innocence helps us to understand his achievement Merrill undertakes a career long effort to know innocence and develops a thematic and stylistic attitude that is both innocent and knowing combining attitudes of wonder and hope with reflexive wit intellectual breadth and an unflinching gaze at mortality He ultimately imagines innocence as creative agency a capacity for imagination invention and ethical responsibility The book demonstrates how addressing questions of sexual identity childhood and memory atomic science the big bang and black holes environmental degradation AIDS and the notion of the death of history while honoring poetry s essential qualities of freedom and play his poems perform cultural work crucial to his time and ours

Knowing One's Place in Contemporary Irish and Polish Poetry Magdalena Kay, 2012-02-23 Are we allowed to choose where we belong What pressures make us feel that we should belong somewhere This book brings together four major poets Heaney Mahon Zagajewski and Hartwig who ask themselves these questions throughout their lives They start by assuming that we can choose not to belong but know this is easier said than done Something in them is awry leading them to travel emigrate and return dissatisfied with all forms of belonging Writer after writer has suggested that Polish and Irish literature bear some uncanny similarities particularly in the 20th century but few have explored these similarities in depth Ireland and Poland with their tangled histories of colonization place a large premium upon knowing one s place What happens though when a poet makes a career out of refusing to know her place in the way her culture expects This book explores the consequences of this refusal allowing these poets to answer such questions through their own poems leading to surprising conclusions about the connection of knowledge and belonging roots and identity

Invisible Terrain Stephen Joseph Ross, 2017 Stephen J

Ross examines the concept of nature in the work of John Ashbery Through close readings of Ashbery's poetry and critical prose he reveals Ashbery's work to be a case study of the dramatic transformation of nature in art and literature since World War II *Humanities* ,2002 *John Ashbery and You* John Emil Vincent,2007 John Ashbery and You approaches Ashbery's critically neglected recent poetry with an ear to his use of the supremely elastic pronoun you and an eye toward his construction of his books as books Together these devices produce effects new to Ashbery's oeuvre and offer readers new ways in to his work John Ashbery and You argues that starting with April Galleons 1987 and reaching an apex in Your Name Here 2000 the poet has been paying increasingly keen and affectionate attention to his readers Vincent tracks these techniques but above all offers his readers tools to reapproach a dauntingly difficult body of work Some critics have suggested that Ashbery is producing books too quickly for criticism to keep up or that the later books represent as Vincent summarizes it a kind of logorrhea and therefore don't really register as separate events as much as episodic eruptions of one big volcano which is the Later Ashbery Vincent contends that critics are not keeping up with Ashbery not so much because it is all of a piece but rather because his work varies so much from volume to volume Each of the volumes from the latter part of Ashbery's career represents an individual and different poetic project depending precisely on the unit of the book to produce its effects By showing us that the entry point to Ashbery is not any given individual poem within a volume but the entire volume Vincent gives us a new and productive approach to reading the recent work of one of our most challenging poets **The Transatlantic Eco-Romanticism of Gary Snyder** Paige Tovey,2013-12-18 Tracing connections between Gary Snyder and his Romantic and Transcendentalist predecessors Wordsworth Blake Emerson Whitman and Thoreau this study explores the tension between urbanization and overindustrialization The dialectical relationship between Snyder and his predecessors reminds readers that nature is never a simple concept
