The Silver Mask Olga Yu Soboleva, 2008 A highly significant movement within the Silver Age harlequinade did not surface in Russian high culture until the turn of the twentieth century when it suddenly began to attract the close attention of symbolist authors In the present work an attempt is made to show that the proliferation of the new cultural idiom was indicative of the fundamental concerns of the time and intimately related to the development of artistic thought Although the theme is considered in its cultural totality visual arts literature and drama the work is focused on symbolist poetry It provides a close analysis of the harlequinade verse of Blok and Belyi two leading figures of the movement in whose writings the symbolist theory found its maturity and perfection The poems in question are conceptually centred on the dialectical unity of self and other one of the key notes in the new symbolist outlook This is traced at various levels of poetic representation in the imagery system and the principles of text construction in linguistic features and poetic devices employed by the authors Special attention is given to the sound organization of the poems which heightens considerably the semantic potential of the text

The Lied at the Crossroads of Performance and Musicology Benjamin Binder, Jennifer Ronyak, 2024-02-15 There seems to be an essential relationship between the performance and the scholarship of the German Lied Yet the process by which scholarly inquiry and performative practices mutually benefit one another can appear mysterious and undefined in part because any dialogue between the two invariably unfolds in relatively informal environments such as the rehearsal studio seminar room or conference workshop Contributions from leading musicologists and prominent Lied performers here build on and deepen these interactions to reconsider topics including Werktreue aesthetics and concert practices the authority of the composer versus the performer the value of lesser known incomplete or compositionally modified songs and the traditions habits and prejudices of song recitalists regarding issues like transposition programming and dramatic modes of presentation The book as a whole reveals the reciprocal relevance of Lied musicology and Lied performance thereby opening doors to fresh and exciting modes of interpretative artistry and intellectual discovery Hateful Contraries W.K.

Wimsatt,2021-10-21 These ten essays written over a period from 1950 to 1962 are bound together by their common concern with questions of the meaning of criticism and the larger meaning of literature itself These difficult questions W K Wimsatt treats with characteristic wit and penetration ranging easily from a broad consideration of principles to incisive comment on individual writers and works The first part of the book is devoted to a discussion of literary theory Wimsatt reviews the development of critical dialectic from the German romanticism of Schelling and the Schlegels to the mythopoetic bravura of Northrop Frye Himself a classical ironist he nevertheless exposes here some of the extravagances of the ironic principle as flourished by the systematic Prometheans The second and third parts contain essays on more particular topics the meaning of symbolism Aristotle s doctrines of the tragic plot and catharsis the theory of comic laughter and the objective reading of English meters Here too are extended comment on particular writers a study of the imagination of James Boswell an analysis of the comedy of T S Eliot in *The Cocktail Party* and a contrast in the handling of similar themes by Tennyson and Eliot The fourth part is a comprehensive statement of the demands and opportunities confronting the critic in his or her role as teacher
