Home Town Tracy Kidder, 2012-09-05 In this splendid book one of America's masters of nonfiction takes us home into Hometown U S A the town of Northampton Massachusetts and into the extraordinary and the ordinary lives that people live there As Tracy Kidder reveals how beneath its amiable surface a small town is a place of startling complexity he also explores what it takes to make a modern small city a success story Weaving together compelling stories of individual lives delving into a rich and varied past moving among all the levels of Northampton's social hierarchy Kidder reveals the sheer abundance of life contained within a town's narrow boundaries Does the kind of small town that many Americans came from and long for still exist Kidder says yes although not quite in the form we may imagine A book about civilization in microcosm Home Town makes us marvel afresh at the wonder of individuality creativity and civic order how a disparate group of individuals can find common cause and a code of values that transforms a place into a home And this book makes you feel you live there

Smith College Margaret Birney Vickery, 2007 The newest title in the Princeton Architectural Press Campus Guide series takes readers on a tour of Smith College Founded in 1871 as one of the first full fledged colleges for women Smith is known for its beautiful campus set in an idyllic New England landscape A walk around its grounds is like a comprehensive tour through American architecture from the eighteenth century to the present The campus includes such diverse buildings as Peabody the neo Georgian Quadrangle by Ames Dodge and Putnam Skidmore Owings as well as the postmodern Bass Science Center and Young Science Library by Shepley Bullfinch Richardson and Abbott The university's most recent additions include the Brown Fine Arts Center designed by the Polshek Partnership the Olin Fitness Center by Leers Weinzapfel Associates and the Campus Center by Weiss Manfredi

Sophia Smith and the Beginnings of Smith College, by Elizabeth Deering Hanscom and Helen French Greene, Based Upon the Narrative of John Morton Greene... Elizabeth Deering Hanscom, Helen French Greene, John Morton Greene, 1926 **The Early History of Smith College, 1871-1910** Laurenus Clark Seelye, 1923 **Laurenus Clark Seelye, First President of Smith College** Harriet Chapin Seelye Rhees, 1929 *Sophia Smith and the Beginnings of Smith College. By Elizabeth Deering Hanscom and Helen French Greene. Based Upon the Narrative of John Morton Greene, Etc* Smith College (NORTHAMPTON, Massachusetts), 1925 *A History of the Birth Control Movement in America* Peter C. Engelman, 2011-04-19 This narrative

history of one of the most far reaching social movements in the 20th century shows how it defied the law and made the use of contraception an acceptable social practice and a necessary component of modern healthcare A History of the Birth Control Movement in America tells the extraordinary story of a group of reformers dedicated to making contraception legal accessible and acceptable The engrossing tale details how Margaret Sanger s campaign beginning in 1914 to challenge anti obscenity laws criminalizing the distribution of contraceptive information grew into one of the most far reaching social reform movements in American history The book opens with a discussion of the history of birth control methods and the criminalization of contraception and abortion in the 19th century Its core however is an exciting narrative of the campaign in the 20th century vividly recalling the arrests and indictments banned publications imprisonments confiscations clinic raids mass meetings and courtroom dramas that publicized the cause across the nation Attention is paid to the movement s thorny alliances with medicine and eugenics and especially to its success in precipitating a profound shift in sexual attitudes that turned the use of contraception into an acceptable social and medical practice Finally the birth control movement is linked to court won privacy protections and the present day movement for reproductive rights

Controversies in Tax Law Anthony C. Infanti,2016-03-03 This volume presents a new approach to today s tax controversies reflecting that debates about taxation often turn on the differing worldviews of the debate participants For instance a central tension in academic tax literature which is filtering into everyday discussions of tax law exists between mainstream and critical tax theorists This tension results from a clash of perspectives Is taxation primarily a matter of social science or of social justice Should tax policy debates be grounded in economics or in critical race feminist queer and other outsider perspectives To capture and interrogate what often seems like a chasm between the different sides of tax debates this collection comprises a series of pairs of essays Each pair approaches a single area of controversy from two different perspectives with one essay usually taking a mainstream perspective and the other a critical perspective In writing their contributions the authors read and incorporated reactions to each other s essays and paid specific attention to the influence of perspective on both the area of controversy and their contribution to the debate With contributions from leading mainstream and critical tax scholars this volume takes the first step toward bridging the gap between these differing perspectives on tax law and policy

Cesarean Section Jacqueline H. Wolf,2020-03-31 Why have cesarean sections become so commonplace in the United States Between 1965 and 1987 the cesarean section rate in the United States rose precipitously from 4.5 percent to 25 percent of births By 2009 one in three births was by cesarean a far higher number than the 5-10% rate that the World Health Organization suggests is optimal While physicians largely avoided cesareans through the mid twentieth century by the early twenty first century cesarean section was the most commonly performed surgery in the country Although the procedure can be lifesaving how and why did it become so ubiquitous Cesarean Section is the first book to chronicle this history In exploring the creation of the complex social cultural economic and medical factors leading to the surgery s increase Jacqueline H Wolf describes

obstetricians reliance on assorted medical technologies that weakened the skills they had traditionally employed to foster vaginal birth She also reflects on an unsettling malpractice climate prompted in part by a raft of dubious diagnoses that helped to legitimize defensive medicine and a health care system that ensured cesarean birth would be more lucrative than vaginal birth In exaggerating the risks of vaginal birth doctors and patients alike came to view cesareans as normal and increasingly as essential Sweeping change in women s lives beginning in the 1970s cemented this markedly different approach to childbirth Wolf examines the public health effects of a high cesarean rate and explains how the language of reproductive choice has been used to discourage debate about cesareans and the risks associated with the surgery Drawing on data from nineteenth and early twentieth century obstetric logs to better represent the experience of cesarean surgery for women of all classes and races as well as interviews with obstetricians who have performed cesareans and women who have given birth by cesarean Cesarean Section is the definitive history of the use of this surgical procedure and its effects on women s and children s health in the United States

The Legacy of Second-Wave Feminism in American Politics

Angie Maxwell,Todd Shields,2017-12-05 This book chronicles the influence of second wave feminism on everything from electoral politics to LGBTQ rights The original descriptions of second wave feminism focused on elite white voices obscuring the accomplishments of many activists as third wave feminists rightly criticized Those limited narratives also prematurely marked the end of the movement imposing an imaginary timeline on what is a continuous struggle for women s rights Within the chapters of this volume scholars provide a more complex description of second wave feminism in which the sustained efforts of women from many races classes sexual orientations and religious traditions in the fight for equality have had a long term impact on American politics These authors argue that even the Second Wave metaphor is incomplete and should be replaced by a broader more inclusive metaphor that accurately depicts the overlapping and extended battle waged by women activists With the gift of hindsight and the awareness of the limitations of and backlash to this Second Wave the time is right to reflect on the feminist cause in America and to chart its path forward

Celebration of the Quarter-century of Smith College Smith College,1900 *"Keep the Damned Women Out"*

Nancy Weiss Malkiel,2018-05-29 A groundbreaking history of how elite colleges and universities in America and Britain finally went coed As the tumultuous decade of the 1960s ended a number of very traditional very conservative highly prestigious colleges and universities in the United States and the United Kingdom decided to go coed seemingly all at once in a remarkably brief span of time Coeducation met with fierce resistance As one alumnus put it in a letter to his alma mater Keep the damned women out Focusing on the complexities of institutional decision making this book tells the story of this momentous era in higher education revealing how coeducation was achieved not by organized efforts of women activists but through strategic decisions made by powerful men In America Ivy League schools like Harvard Yale Princeton and Dartmouth

began to admit women in Britain several of the men's colleges at Cambridge and Oxford did the same What prompted such fundamental change How was coeducation accomplished in the face of such strong opposition How well was it implemented Nancy Weiss Malkiel explains that elite institutions embarked on coeducation not as a moral imperative but as a self-interested means of maintaining a first rate applicant pool She explores the challenges of planning for the academic and non-academic lives of newly admitted women and shows how with the exception of Mary Ingraham Bunting at Radcliffe every decision maker leading the charge for coeducation was male Drawing on unprecedented archival research *Keep the Damned Women Out* is a breathtaking work of scholarship that is certain to be the definitive book on the subject *Infectious Ideas* Jennifer Brier, 2009 In *Infectious Ideas* Jennifer Brier argues that the AIDS epidemic had a profound effect on the American political landscape Viewing contemporary history from the perspective of the AIDS crisis she provides rich new understandings of the complex social and political trends of the post 1960s era *Infectious Ideas* places recent social cultural and political events in a new light making an important contribution to our understanding of the United States at the end of the twentieth century
