Massachusetts when Penelope the daughter of an evil archangel and the first woman ever embarks on a vengeful mission to destroy overbearing men As she unleashes her special powers onto a crowd of onlookers awaiting the lynching of another

witch she focuses a red beam of light from her eyes leaving chaos and destruction in her wake Surveying the damage she smiles and vanishes As the only daughter of Lilith and Samael Penelope has been there and seen it all By the time she is twelve she has traveled the universe through portals and witnessed the lack of equality and even the debasement of women everywhere From the Garden of Eden to the dark ages and from the French Revolution to the Salem witch trials she has finally freed herself from the four portals where she has been trapped for thousand of years Now in present day California she is using her special powers with Gods blessing to further her cause In this tale of biblical proportions Penelope leads an innocent family into her dark world as she decides whether to use her powers for good or evil **High-Tech Campaigns**

Gary W. Selnow, 1994 Selnow examines how emerging computer technologies advance the gathering and dissemination of political information and how the recent developments in hardware and software help technicians manage and manipulate complex voter databases Gary W Selnow considers the refinements of polling techniques that yield raw data for elaborate voter analyses and targeted information strategies and discusses how the new technologies contribute to the effective construction of political messages Selnow begins with a discussion of targeted communication and demonstrates the universal trend toward ever narrower audience contacts explaining how media deliver small audiences and how computers help communicators understand these audiences in order to craft messages with individual appeal Against this theoretical backdrop he looks at public surveying techniques that provide audience surveillance data databases that contain the political genetic material for each voter and analytic methods that unfold an audience into its constituent parts Finally he examines the effects of these technologies on American voters the press and the political system Leading journalists and media scholars offer their views on the subject describing the problems and discussing their concerns about safeguards for privacy maintenance of the American political system and continuing press access to campaign information
