Master's Death Touch Hei Long, 1990-01-01 Master's Death Touch gets down to the devastating fundamentals of the deadlier side of self defense Master Hei Long describes the primary targets of an opponent's body and points out how to recognize various physical characteristics that would limit the lethal effectiveness of certain techniques He then outlines the merciless use of the hands feet elbows and knees to overcome any assailant bent on doing mortal harm *The Seven Strategies of Hand to Hand Combat* Ernest Emerson, 2015-04-08 This is not a book about techniques Black Belt Hall of Famer and Tier One tactical instructor Ernest Emerson opens the doors to the previously hidden Strategies Tactics and Mentality of the world's deadliest warriors giving you the tools to upgrade your training in any system into a truly effective program of combat ready skills Emerson's genius is in being able to break down human conflict combat into its most basic component parts and then explain them in terms that make perfect sense Then in turn he gives you the ability to train and supercharge those components individually so that when they are reassembled the result is an Abrams tank powered by jet engines But if you're looking for a book on how to block a punch you won't find it here This is about giving you the means to create a supercharged capability to take what you already know to the elite level ready for actual combat The difference between tier one operators and the rest of us is not that they know more techniques or possess secret skills They know the same things as we do They just know how to do them much better Emerson takes you into his classroom to teach you the real secrets the forbidden knowledge of the warrior elite America's Special Operations and Black Ops Units The problem with training for real world hand to hand combat skills is that almost all martial arts are over 200 years removed from actual combat and have been softened up or sporterized to be palatable to the general public The difference between conventional training and combatives training is defined by two simple words intent and intensity Each needs the other to be maximally effective and conventional martial arts lack both Without truly knowing if something will actually work in live combat how can an instructor teach combat skills to someone whose life may depend on those skills If you are ever in a situation where you're face to face with pure evil and you're not both physically and mentally prepared for violent deadly combat then that is the day you will likely die The author shows that you must be able to bring violence of action against the bad guy to such a degree that it doesn't just counter his attack but destroys him for attempting to do you harm You will learn how to evaluate your current training against the criteria of the perfect technique to judge everything you do as to whether it will work in real combat or not and avoid wasting your valuable time doing things that are of no value Learning and applying principles and concepts outlined in this book will give you the confidence you need to never again wonder Will this really work or Can I do this You will learn that the true mastery of fighting skills is not just based on confidence in the techniques but ultimately in the confidence you have in yourself Some of the subjects covered in detail include 1 The principles strategies and tactics of combat 2 The physical physiological and psychological effects of combat on the human body and how to use them to your

advantage3 The 3 Laws of Combat and the 6 Instinctual Triggers4 The high art of preemptive self defense5 The importance of being able to distinguish between capability and capacity Combative fighting skills is not a martial art It is hard intense painful training along with the development of the Warrior Mindset Without that mindset and the iron will to win you are only using half of your power The other half is in the mind You will learn how important it is to never neglect one for the other Ernest Emerson has worked with members of the Naval Special Warfare Community Navy SEALs for over 25 years He carried a DOD top secret clearance for 15 years He is the owner of Emerson Knives Inc and the Black Shamrock Combat Academy in Los Angeles California     Advanced Dragon's Touch Hei Long,1995-11-01 In this long awaited sequel to the best selling Dragon s Touch Master Hei Long focuses on 20 pressure points that are crippling or even lethal when used as counterstrikes in hard core hand to hand combat Provides more than 50 practical applications For academic study only
