Sound Locators Fire Control Systems And Searchlights Of The German Heavy Flak Units:

Sound Locators, Fire Control Systems and Searchlights of the German Heavy Flak Units 1939-1945 Werner Müller, 1998

This book presents the sound locators fire control systems and searchlights used by Germany in conjunction with anti aircraft fire

Defense of the Third Reich 1941-45 Steven J. Zaloga, 2012-10-20 Starting in 1940 Germany was subjected to a growing threat of Allied bomber attack The RAF night bombing offensive built up in a slow but unrelenting crescendo through the Ruhr campaign in the summer of 1944 and culminating in the attacks on Berlin in the autumn and early winter of 1943 44 They were joined by US daylight raids which first began to have a serious impact on German industry in the autumn of 1943 This book focuses on the land based infrastructure of Germany's defense against the air onslaught Besides active defense against air attack Germany also invested heavily in passive defense such as air raid shelters While much of this defense was conventional such as underground shelters and the dual use of subways and other structures Germany faced some unique dilemmas in protecting cities against night fire bomb raids As a result German architects designed massive above ground defense shelters which were amongst the most massive defensive structures built in World War II

Flying against Fate S. P. MacKenzie, 2017-08-04 During World War II Allied casualty rates in the air were high Of the roughly 125 000 who served as aircrew with Bomber Command 59 423 were killed or missing and presumed killed a fatality rate of 45 5% With odds like that it would be no surprise if there were as few atheists in cockpits as there were in foxholes and indeed many airmen faced their dangerous missions with beliefs and rituals ranging from the traditional to the outlandish Military historian S P MacKenzie considers this phenomenon in *Flying against Fate* a pioneering study of the important role that superstition played in combat flier morale among the Allies in World War II Mining a wealth of documents as well as a trove of published and unpublished memoirs and diaries MacKenzie examines the myriad forms combat fliers' superstitions assumed from jinxes to premonitions Most commonly airmen carried amulets or talismans lucky boots or a stuffed toy a coin whose year numbers added up to thirteen counterintuitively a boomerang Some performed rituals or avoided other acts e g having a photo taken before a flight Whatever seemed to work was worth sticking with and a heightened risk often meant an upsurge in superstitious thought and behavior MacKenzie delves into behavior analysis studies to help explain the psychology behind much of the behavior he documents not slighting the large cohort of crew members and commanders who demurred He also looks into the ways in which superstitious behavior was tolerated or even encouraged by those in command who saw it as a means of buttressing morale The first in depth exploration of just how varied and deeply felt superstitious beliefs were to tens of thousands of combat fliers *Flying against Fate* expands our understanding of a major aspect of the psychology of war in the air and of World War II

New Images of Nazi Germany, 2012-10-15 With its battlefields paved over and its bunkers crumbled the Third Reich of Nazi Germany nevertheless lives on in countless photographs that record an era of extraordinary brutality This collection of more than 500 photographs taken by amateurs

and professional propagandists provides a panoramic overview of Nazi Germany offering intimate glimpses into living rooms and killing grounds kitchens and concentration camps movie theaters and battle fronts The explanatory text explores the context of the images Together these photographs most never before seen create a time capsule capturing the faces of Hitler's soldier s as well as those who suffered under the Nazi onslaught on humanity **Heldentod** Paul Garson,2021-01-29

Previously unpublished images dramatically illustrate the Third Reich's love affair with death From cradle to the grave the seductive indoctrination of a civilised nation The significant aid to Holocaust research and curriculum studies Shedding new light on the darkest of times Heldentod The Nazi Culture of Death graphically focuses on the Third Reich's conception and promotion of the Hero's Death as it fostered and then fuelled a cataclysm of apocalyptic carnage and destruction This underlying driving force ultimately self destructive is shown infusing both state sponsored propaganda and echoed by the personal battlefield images captured by its soldiers personal cameras In so doing it confronts the matter of subject vs observer and their intimate connection The original and often one of a kind and never seen before photos also serve as a searing documentation of man's inhumanity to man and a stark warning to future generations **Books In Print**

2004-2005 Ed Bowker Staff,Staff Bowker, Ed,2004 *Bomb Aimer Over Berlin* Les Bartlett,Peter Jacobs,2007-09-20 The English pharmacist turned RAF aircrew member recounts his missions fighting against the Third Reich during World War II Les Bartlett has become one of the great characters of World War II history He flew as bomb aimer with the then Flying Officer Michael Beetham who later became Marshal of the Royal Air Force At that time he was a sergeant but gained his commission in April 1944 and flew his tour including twenty seven raids over Germany and France between November 1943 and May 1944 On his second operation his aircraft was attacked by a Ju 88 leaving it with no flaps or brakes a crash landing at Wittering ensued At the end of his third mission they found the whole of Lincolnshire fogbound and eventually landed at RAF Melbourne in Yorkshire just before that airfield was closed also because of the fog His aircraft was hit in the wing by a 30lb incendiary bomb dropped by another Lancaster flying above them on his sixth operation but they survived On his twelfth operation to Leipzig he used the nose guns to destroy a Ju 88 night fighter for which he was awarded the DFM In February 1944 the port outer engine caught fire and the crew baled out Les was then posted as Assistant Adjutant to RAF Thornaby
