Fiction's Inexhaustible Voice Stephen M. Ross, 1989 William Faulkner recognized voice as one of the most distinctive and powerful elements in fiction when he delivered his Nobel Prize acceptance speech describing the last sound at the end of the world as man's puny inexhaustible voice still talking As a testimonial of an artist's faith in his art the speech raised the value of voice to its highest reach for man as one of the props the pillars to help him endure and prevail In *Fiction's Inexhaustible Voice* Stephen Ross explores the nature of voice in

William Faulkner's fiction by examining the various modes of speech and writing that his texts employ. Beginning with the proposition that voice is deeply involved in the experience of reading Faulkner, Ross uses theoretically grounded notions of voice to propose new ways of explaining how Faulkner's novels and stories express meaning, showing how Faulkner used the affective power of voice to induce the reader to forget the silent and originless nature of written fiction. Ross departs from previous Faulkner criticism by proceeding not text by text or chronologically but by construction a workable taxonomy which defines the types of voice in Faulkner's fiction: phenomenal voice, a depicted event or object within the represented fictional world; mimetic voice, the illusion that a person is speaking; psychic voice, one heard only in the mind and overheard only through fiction's omniscience; and oratorical voice, an overtly intertextual voice which derives from a discursive practice. Southern oratory is recognizable outside the boundaries of any Faulkner text and identifiable as part of Faulkner's biographical and regional heritage. In Faulkner's own experience, listening was important. As he once confided to Malcolm Cowley, "I listen to the voices and when I put down what the voices say it's right." In *Fiction's Inexhaustible Voice*, Ross conducts a careful analysis of this fundamental source of power in Faulkner's fiction, concluding that the preponderance of voice imagery represented talking, verbalized thought, and oratorical rhetoric and posturing makes the novels and stories fundamentally vocal. They derive their energy from the play of voices on the imaginative field of written language.

The Summer Snow Rebecca Pawel, 2007-02-01 Pawel's splendid historical series takes an inspired turn in *The Summer Snow*. The New York Times Book Review: In the city of Granada, Spain, bastion of the conservative Catholic aristocracy, fear of the red menace remains strong in 1945. One rich elderly lady summons the police to her home almost once a week, sure Communists are plotting against her. She changes her will almost as often. When she is found dead, the long-suffering police can't believe that she really may have been murdered. But as her latest will has vanished, the death must be investigated. Influence is exerted to have Lieutenant Carlos Tejada Alonso y L. transferred temporarily from Potes in the northern mountains to take charge, because the old lady is his grandaunt. And one of the chief suspects is his father. The family expects Tejada to exonerate its members, but Tejada is a man who puts duty first.
