Short Stories Library of Congress. National Library Service for the Blind and Physically Handicapped,1989 Snapshot Memories: The Life and Times of a Miner's Kid Lee Haynes, TV Snapshots Lynn Spigel,2022-04-08 In TV Snapshots Lynn

Spigel explores snapshots of people posing in front of their television sets in the 1950s through the early 1970s. Like today's selfies, TV snapshots were a popular photographic practice through which people visualized their lives in an increasingly mediated culture. Drawing on her collection of over 5,000 TV snapshots, Spigel shows that people did not just watch TV; women used the TV set as a backdrop for fashion and glamour poses, people dressed in drag in front of the screen, and in pinup poses, people even turned the TV setting into a space for erotic display. While the television industry promoted on-screen images of white nuclear families in suburban homes, the snapshots depict a broad range of people across racial, ethnic, and class backgrounds that do not always conform to the reigning middle-class nuclear family ideal. Showing how the television set became a central presence in the home that exceeded its mass entertainment function, Spigel highlights how TV snapshots complicate understandings of the significance of television in everyday life.

Global Youth in Digital Trajectories
Michalis Kontopodis, Christos Varvantakis, Christoph Wulf, 2017-03-27

Global Youth in Digital Trajectories explores the most recent developments regarding youth and media in a global perspective. Representing an innovative contribution to virtual research methods, this book presents research carried out in areas as diverse as Greece, the Netherlands, Germany, Brazil, Russia, and India. The volume examines which new anthropological and cultural historical conditions and changes arise in connection with the widespread presence of digital media in the lives of the networked teens. Indeed, it is highlighted that the differentiation between an offline world and an online world is inapplicable to the lives of most young people. Exploring youth's imaginary productions, personal sense-making processes, and cross-media dialogues in today's multimedia worlds, *Global Youth in Digital Trajectories* will be of particular interest to undergraduates and postgraduates in the fields of sociology, anthropology, education studies, media research, and cultural studies. It may also appeal to practitioners in social work and schools.
