Youth Identities, Localities, and Visual Material Culture Kristen Ali Eglinton, 2012-10-05 This invaluable addition to Springer's Explorations of Educational Purpose series is a revelatory ethnographic account of the visual material culture of contemporary youths in North America The author's detailed study follows apparently dissimilar groups black and Latino in a New York City after school club and white and Indigenous in a small Canadian community as they inflect their nascent identities with a sophisticated sense of visual material culture in today's globalized world It provides detailed proof of how much ethnography can add to what we know about young people's development in addition to its potential as a model to explore new and significant avenues in pedagogy Supported by a wealth of ethnographic evidence the analysis tracks its subjects' responses to strikingly diverse material ranging from autobiographical accounts by rap artists

to the built environment It shows how young people from the world s cultural epicenter just like their counterparts in the sub Arctic construct racial geographic and gender identities in ways that are subtly responsive to what they see around them blending localized characteristics with more widely shared visual references that are now universally accessible through the Web The work makes a persuasive case that youthful engagement with visual material culture is a relational and productive activity that is simultaneously local and global at once constrained and enhanced by geography and possesses a potent and life affirming authenticity Densely interwoven with young people s perspectives the author s account sets out an innovative and interdisciplinary conceptual framework affording fresh insights into how today s youth assimilate what they perceive to be significant Supported by a wealth of ethnographic evidence the analysis tracks its subjects responses to strikingly diverse material ranging from autobiographical accounts by rap artists to the built environment It shows how young people from the world s cultural epicenter just like their counterparts in the sub Arctic construct racial geographic and gender identities in ways that are subtly responsive to what they see around them blending localized characteristics with more widely shared visual references that are now universally accessible through the Web The work makes a persuasive case that youthful engagement with visual material culture is a relational and productive activity that is simultaneously local and global at once constrained and enhanced by geography and possesses a potent and life affirming authenticity Densely interwoven with young people s perspectives the author s account sets out an innovative and interdisciplinary conceptual framework affording fresh insights into how today s youth assimilate what they perceive to be significant Supported by a wealth of ethnographic evidence the analysis tracks its subjects responses to strikingly diverse material ranging from autobiographical accounts by rap artists to the built environment It shows how young people from the world s cultural epicenter just like their counterparts in the sub Arctic construct racial geographic and gender identities in ways that are subtly responsive to what they see around them blending localized characteristics with more widely shared visual references that are now universally accessible through the Web The work makes a persuasive case that youthful engagement with visual material culture is a relational and productive activity that is simultaneously local and global at once constrained and enhanced by geography and possesses a potent and life affirming authenticity Densely interwoven with young people s perspectives the author s account sets out an innovative and interdisciplinary conceptual framework affording fresh insights into how today s youth assimilate what they perceive to be significant

Writers of the Winter Republic Youngju Ryu, 2015-11-30 In 1975 a young high school teacher took the stage at a prayer meeting in a southwestern Korean city to recite a poem called The Winter Republic The poem became an anthem against the military dictatorship of Park Chung Hee and his successors the poet however soon found himself in court and then in prison for saddling the authoritarian state with such a memorable moniker This unique book weaves together literary works biographical accounts institutional histories trial transcripts and personal interviews to tell the powerful story of how literature became a fierce battleground against authoritarian rule during one of the darkest

periods in South Korea's history Park Chung Hee's military dictatorship was a time of unparalleled political oppression. It was also a time of rapid and unprecedented economic development. Against this backdrop Youngju Ryu charts the growing activism of Korean writers who interpreted literature's traditional autonomy as a clarion call to action, an imperative to intervene politically in the name of art. Each of the book's four chapters is devoted to a single writer and organized around a trope central to his work: Kim Chi-ha's bandits satirizing Park's dictatorship; Yi Mun-gu's neighbor evoking old nostalgia and new anxieties; Cho Se-hi's dwarf representing the plight of the urban poor; and Hwang Sok-yong's labor fiction, the supposed herald of the proletarian revolution. Ending nearly two decades of an implicit ban on socially engaged writing, literature of the period became politicized not merely in content and form but also as an institution. Writers of the Winter Republic emerged as the conscience of their troubled yet formative times. A question of politics lies at the heart of this book, which seeks to understand how and why a time of political oppression and censorship simultaneously expanded the practice and everyday relevance of literature. By animating the lives and works of the men who shaped this period, the book offers readers an illuminating literary, cultural, and political history of the era. *Fundamental Education in an Amerindian Community* Pedro

Tamesis Orata, 1953 **Jesse James and the First Missouri Train Robbery** Beights, Ronald H., 2002-04-30 The train robbery by the James Younger gang in 1874 at Gads Hill, Missouri, was a big news item of the day. American newspapers from as far away as New York and Boston carried the story, and journalists in St. Louis, Chicago, and even European cities wrote scathing editorials about the crime. In time, the excitement subsided, but the raid at Gads Hill had a lasting effect on the lives of the James and Younger brothers. Dramatic events that occurred during the robbery, retreat, and pursuit brought the bandits world-wide attention and became the source for much of the Jesse James legend we know today. Here, told largely by trainmen, passengers, farmers, detectives, outlaws, news reporters, and others who were directly or indirectly involved with the crime, is a true, documented account of Frank and Jesse James, the Younger brothers, and Missouri's first train robbery. Many of the photographs included have never been published. **The Congregationalist**, 1921 **A Prairie Girl's Life: The Story of**
