Here are some of the book's special features: Eight units covering life, physical Earth and space science from Drip Drop Detectives Exposing the Water Cycle to Classroom Curling Exploring Forces and Motion to Beaks and Biomes Understanding Adaptation in Migrating Organisms. Two additional units cover the nature of science. All units have been classroom tested for effectiveness and align with the National Science Education Standards and the Common Core State Standards for English Language Arts. Detailed scientific background, common misconceptions associated with the content, an annotated list of the texts in the text set, safety considerations, reproducible student pages and suggested assessments. Authentic inquiry-based contexts for reading, writing and discussion through read-alouds, collaborative activities, graphic organizers and writing prompts. Inquiring Scientists Inquiring Readers will change the way you think about engaging your students. The authors show that it's possible to integrate literacy into elementary level science instruction without sacrificing quality in either area.

Properties of Matter for Grades 3-5 Jennifer E. Lawson, 2021-10-14. Properties of Matter for Grades 3-5 from Hands On Science for British Columbia. An Inquiry Approach completely aligns with BC's New Curriculum for science. Grounded in the Know-Do-Understand model, First Peoples knowledge and perspectives and student-driven scientific inquiry, this custom-written resource emphasizes Core Competencies so students engage in deeper and lifelong learning. Develops Curricular Competencies as students explore science through hands-on activities, fosters a deep understanding of the Big Ideas in science. Using proven Hands On features, Properties of Matter for Grades 3-5 contains information and materials for both teachers and students, including Curricular Competencies, correlation charts, background information on the science topics, complete easy-to-follow lesson plans, digital reproducible student materials and materials lists. Innovative new elements have been developed specifically for the new curriculum: a multi-age approach, a five-part instructional process (Engage, Explore, Expand, Embed, Enhance), an emphasis on technology, sustainability and personalized learning, a fully developed assessment plan for summative, formative and student self-assessment, a focus on real-life Applied Design Skills and Technologies, learning centres that focus on multiple intelligences and universal design for learning (UDL), place-based learning activities, Makerspaces and Loose Parts. In Properties of Matter for Grades 3-5, students investigate matter. Core Competencies and Curricular Competencies will be addressed while students explore the following Big Ideas: Humans interact with matter every day through familiar materials. Materials can be changed through physical and chemical processes. Matter is useful because of its properties.
