Enterprise M. Max Hamon, 2020-01-09 Shining a spotlight on the life vision and cultivation of one of Canada's most influential historical figures When the Other is Me Emma LaRocque, 2011-03-10 In this long awaited book from one of the most recognized and respected scholars in Native Studies today Emma LaRocque presents a powerful interdisciplinary study of the Native literary response to racist writing in the Canadian historical and literary record from 1850 to 1990 In *When the Other is Me* LaRocque brings a metacritical approach to Native writing situating it as resistance literature within and outside the postcolonial intellectual context She outlines the overwhelming evidence of dehumanization in Canadian historical and literary writing its effects on both popular culture and Canadian intellectual development and Native and non Native intellectual responses to it in light of the interlayered mix of romanticism exaggeration of Native difference and the continuing problem of internalization that challenges our understanding of the colonizer colonized relationship

Aboriginal People and Colonizers of Western Canada to 1900 Sarah Carter, 1999-01-01 A comprehensive survey of relations between Aboriginal peoples and colonizers of Western Canada with a strong emphasis on the multiplicity of current perspectives on the issues Reporting the Resistance J.M. Bumsted, 2003-12-19 *Reporting the Resistance* brings together two first person accounts to give a view from the ground of the developments that shocked Canada and created the province of Manitoba In 1869 and 1870 Begg and Hargrave were regular correspondents for respectively the *Toronto Globe* and the *Montreal Herald* While neither man was a committed supporter of the Métis or Louis Riel each gives a more complex and

more sympathetic view of the resistance that is commonly expected from the Anglophone community of Red River. They describe often from very different perspectives the events of the resistance as well as give insider accounts of the social and political background. Largely unreprinted until now, this correspondence remains a relatively untapped resource for contemporary views of the resistance. These are the Red River's own accounts and are often quite different from the perspective of eastern observers.

Law, Life, and Government at Red River, Volume 1 Dale Gibson, 2015-06-01. Inhabited by a diverse population of First Nations peoples, Métis, Scots, Upper and Lower Canadians, and Americans, and dominated by the commercial and governmental activities of the Hudson's Bay Company, Red River (now Winnipeg) was a challenging settlement to oversee. This illuminating account presents the story of the unique legal and governmental system that attempted to do so and the mixed success it encountered, culminating in the 1869-70 Red River Rebellion and confederation with Canada in 1870. In *Law, Life, and Government at Red River*, Dale Gibson provides rich, revealing glimpses into the community and its complex relations with the Hudson's Bay Company, the colony's owner and primary employer. Volume 1 details the history of the settlement's establishment, development, and ambivalent relationship with the legal and undemocratic but gradually grudgingly slightly more representative governmental institutions forming in the area and the legal system's evolving engagement with the Aboriginal population. A vivid look into early settler life, *Law, Life, and Government at Red River* offers insights into the political, commercial, and legal circumstances that unfolded during western expansion.

Métis Politics and Governance in Canada Kelly Saunders, Janique Dubois, 2019-06-10. At a time when the Métis are becoming increasingly visible in Canadian politics, this unique book offers a practical guide for understanding who they are, how they govern themselves, and the challenges they face on the path to self-government. The Métis have always been a political people. Kelly Saunders and Janique Dubois draw on interviews with elders, leaders, and community members to reveal how the Métis are giving life to Louis Riel's vision of a self-governing Métis Nation within Canada. They look to the Métis language, Michif, to identify Métis principles of governance that emerged during the fur trade and that continue to shape Métis governing structures. Both then and now, the Métis have engaged in political action to negotiate their place alongside federal and provincial partners in Confederation. As Canada engages in nation-to-nation relationships to advance reconciliation, this book provides timely insight into the Métis Nation's ongoing struggle to remain a free and self-governing Indigenous people.

Walking a Tightrope David T. McNab, Ute Lischke, 2005-03-15. The most we can hope for is that we are paraphrased correctly. In this statement, Lenore Keeshig Tobias underscores one of the main issues in the representation of Aboriginal peoples by non-Aboriginals. Non-Aboriginal people often fail to understand the sheer diversity, multiplicity, and shifting identities of Aboriginal people. As a result, Aboriginal people are often taken out of their own contexts. *Walking a Tightrope* plays an important role in the dynamic historical process of ongoing change in the representation of Aboriginal peoples. It locates and examines the multiplicity and distinctiveness of Aboriginal voices and their representations both as they portray themselves and as others have

characterized them In addition to exploring perspectives and approaches to the representation of Aboriginal peoples it also looks at Native notions of time history land cultures identities and literacies Until these are understood by non Aboriginals Aboriginal people will continue to be misrepresented both as individuals and as groups By acknowledging the complex and unique legal and historical status of Aboriginal peoples we can begin to understand the culture of Native peoples in North America Until then given the strength of stereotypes Native people have come to expect no better representation than a paraphrase

Defining Métis Timothy P. Foran, 2017-05-10 Defining M tis examines categories used in the latter half of the nineteenth century by Catholic missionaries to describe Indigenous people in what is now northwestern Saskatchewan It argues that the construction and evolution of these categories reflected missionaries changing interests and agendas Defining M tis sheds light on the earliest phases of Catholic missionary work among Indigenous peoples in western and northern Canada It examines various interrelated aspects of this work including the beginnings of residential schooling transportation and communications and relations between the Church the Hudson s Bay Company and the federal government While focusing on the Oblates of Mary Immaculate and their central mission at le la Crosse this study illuminates broad processes that informed Catholic missionary perceptions and impelled their evolution over a fifty three year period In particular this study illuminates processes that shaped Oblate conceptions of sauvage and m tis It does this through a qualitative analysis of documents that were produced within the Oblates institutional apparatus official correspondence mission journals registers and published reports Foran challenges the orthodox notion that Oblate commentators simply discovered and described a singular empirically existing and readily identifiable M tis population Rather he contends that Oblates played an important role in the conceptual production of les m tis
