Revolusi Perancis 1789-1799 Azmi Arifin, 2020 On the French Revolution 18th century

The Making of the Citizen-Worker Federico Tomasello, 2023-07-31 Over the course of the 19th century European societies started thinking of themselves as civilisations of work In the wake of the political and industrial revolutions labour as a human activity and condition gradually came to embody a general principle of order progress and governance How did work become so central to our systems of citizenship and social recognition The book addresses this question by considering the French context in the long transition between the 1789 and 1848 revolutions and focusing on a specific fragment of history in the early 1830s marked by a pandemic crisis and the first consequences of industrialisation It combines the analysis of both political institutions and social movements to retrace the rise of a labour based social contract revolving around the citizen worker as the quintessential subject of rights The first part of the book highlights the role played by the genesis of the modern social sciences and analyses it as a political process that established work as an object of governance and scientific investigation thus fostering pioneering measures of welfare centred on work conditions The second part focuses on the emergence of the concept of working class and the modern labour movement which structured the world of work as a collective political subject Chapter 2 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

Citizen Marx Bruno Leipold, 2024-11-19 A compelling and comprehensive analysis of Marx's social and political thought primarily as it relates to

his underappreciated republicanism Constitutional Ratification Without Reason Jeffrey A. Lenowitz, 2022 This volume analyses constitutional ratification procedures examines their nature origins history and especially the potential justifications for their use The author offers a comprehensive demonstration of how constitution making recommendations can be evaluated and tested from a normative and theoretical perspective **DEMOCRACY ON TRIAL** Dr. Ricardo Lasso, 2010-03-29 The great wartime leader Winston Churchill once remarked Democracy is the worst form of government except for all those other forms that have been tried from time to time Democracy on Trial recounts the history of this progressive form of governance while comparing it to a competing form absolutism Today we see the results of this conflict flourishing civilization on one hand and crushing despotism on the other Dr Lasso from his own bitter experiences with the despotism of Panama's dictator shows us how today's democracy was won and how it must be vigilantly earned Dr Lloyd Muller Historian *Intellectual Origins of the Republic: Ahmet Ağaoğlu and the Genealogy of Liberalism in Turkey* Hilmi Ozan Özavcı, 2015-07-28 Few studies tracing the history of liberalism have taken into account that its reception in non Western or westernising countries in the form of the denial or acceptance of its core values and institutions is an important aspect of the liberal tradition In *Intellectual Origins of the Republic Ahmet Ağaoğlu and the Genealogy of Liberalism in Turkey* Özavcı investigates the histories of liberalism and nationalism in the late Russian and Ottoman Empires and early Republican Turkey through the prism of the life ideas and times of the revolutionary writer Ahmet Ağaoğlu This is the first in depth study in the English language that places under scrutiny the Turkish idea of liberty and its endless yet destructive flirt with nationalism **Insurgent Universality** Massimiliano Tomba, 2019-05-16 Scholars commonly take the Declaration of the Rights of Man and Citizen of 1789 written during the French Revolution as the starting point for the modern conception of human rights According to the Declaration the rights of man are held to be universal at all times and all places But as recent crises around migrants and refugees have made obvious this idea sacred as it might be among human rights advocates is exhausted It's long past time to reconsider the principles on which Western economic and political norms rest This book advocates for a tradition of political universality as an alternative to the juridical universalism of the Declaration Insurgent universality isn't based on the idea that we all share some common humanity but rather on the democratic excess by which people disrupt and reject an existing political and economic order Going beyond the constitutional armor of the representative state it brings into play a plurality of powers to which citizens have access not through the funnel of national citizenship but in daily political practice We can look to recent history to see various experiments in cooperative and insurgent democracy the Indignados in Spain the Arab Spring Occupy the Zapatistas in Mexico and going further back the Paris Commune the 1917 peasant revolts during the Russian Revolution and the Haitian Revolution This book argues that these movements belong to the common legacy of insurgent universality which is characterized by alternative trajectories of modernity that have been repressed hindered and forgotten Massimiliano Tomba examines these events to show what they

could have been and what they can still be As such he explores how their common legacy can be reactivated Insurgent Universality analyzes the manifestos and declarations that came out of these experiments considering them as collective works of an alternative canon of political theory that challenges the great names of the Western pantheon of political thought and builds bridges between European and non European political and social experiments **Thomas Paine:Soc & Pol**

Fighting for the Essence Pierre Krebs,2012 Dr Krebs offers a devastating critique of multiculturalism showing that although it claims to be the watchman of racial and cultural diversity it is actually destructive to both as it denies the significance of racial differences altogether He traces its origins to the legacy of the Judaeo Christian tradition and shows how this has developed into many of the most powerful tools of liberalism of our times These are serving the interests of the global marketplace by turning all of humanity into compliant consumers Those who endorse multiculturalism are in fact the enemies of all traditional culture Dr Krebs also takes issue with the use of the term West to describe our culture which he sees as an effort to deprive the various European cultures which comprise it of their unique characters and histories This will lead to their replacement by a grey conformity divorced from any authentic roots as well as a value system that is frequently used as a weapon against those nations which refuse to share them This assault is not limited to Europe but is something that is going on in every corner of the globe Dr Krebs says that it is time for all those who believe in the worthiness of their heritage and unique ethnic identity to return to the wellsprings of their peoples and defend what is rightfully theirs With a deeper trench between the camps of multiculturalism and traditional culture being dug all the time this is the conflict that will define the 21st century Drawing examples from many of the most notable contributors to science philosophy and religion Dr Krebs illustrates a truth that is difficult to deny Anyone who heeds his warning will find it impossible not to accept his challenge to take sides in the ongoing struggle against universal conformity Dr Pierre Krebs b 1948 is a major figure in Neue Kultur the German branch of the European New Right and is also the leader of the Thule Seminar He holds degrees in law journalism sociology and political science This is his first work to be translated into English
