Social Construction Of Europe:

The Social Construction of Europe Thomas Christiansen, Knud Erik Jørgensen, Antje Wiener, 2001-06-01 This book is the first to systematically introduce and apply a social constructivist perspective to the study of European integration Social constructivism is carefully located in terms of its philosophical and methodological origins The wider debates and contribution of constructivist approaches to international relations are reviewed and the insights that might then be afforded to European studies fully explored Highlights include new theoretical contributions to the debate by Ernst B Haas Andrew Moravcsik and Steve Smith research on key aspects of European integration and EU governance applying a variety of constructivist approaches The Social Construction of Europe provides new and important in The Social Construction of Europe Jeremy John Richardson, 1999 *The Social Construction of Corruption in Europe* Dirk Tänzler, Konstadinos Maras, 2016-02-24 The volume demonstrates the suitability of the theory of social constructivism in portraying and analyzing the diversity of the phenomenon of corruption The approach of social constructivism taken in this volume is able to reconstruct the construction of corruption both from a societal perspective by assessing it as generally accepted or tolerated behaviour in more or less standardized rule governed social situations and from the perspective of actors who perceive corrupt behaviour as problem solving in everyday life The volume proves the usefulness of a social construction perspective for empirical research It contains case studies of social definitions of corruption in eleven European countries that contribute in different ways to establishing a grounded theory of the phenomenon of corruption Rethinking Europe Gerard Delanty, Chris Rumford, 2005 The book examines major social transformations in Europe from the perspective of social theory It offers an intriguing alternative to studies of the EU which emphasise the replacement of the nation state by a supra national authority **The social construction of Swedish neutrality** Christine Agius, 2013-07-19 The end of the Cold War and the War on Terror has signalled a shift in the security policies of all states It has also led to the reconsideration of the policy of neutrality and what being neutral means in the present age This book examines the conceptualisation of neutrality from the Peloponnesian War to today uncovering how neutrality has been a neglected and misunderstood subject in International Relations IR theory and politics By rethinking neutrality through constructivism this book argues that neutrality is intrinsically linked to identity Using Sweden as a case study it links identity sovereignty internationalism and solidarity to the debates about Swedish neutrality today and how neutrality has been central to Swedish identity and its worldview It also examines the challenges to Swedish neutrality and neutrality broadly in terms of European integration globalisation the decline of the state and sovereignty and new threats to security such as international terrorism arguing that the norms and values of neutrality can be reworked to contribute to a more cosmopolitan international order *Constitutionalising Europe* Michael Longo, 2017-03-02 The European Union is in a state of transformation with its constitutional future the subject of much heated debate This book provides a durable authoritative and comprehensive account of constitutional development

examining the pivotal roles of law and judicial politics in establishing the EU constitutional edifice Michael Longo demonstrates and substantiates the arguments for and against constitutionalization through the development of a theoretical framework drawing on theories and empirical research in both law and political science to understand this new process of European integration

Special Issue The Social Construction of Europe Thomas Christiansen, 1999 EU enlargement, the clash of capitalisms and the European social dimension Paul Copeland, 2015-11-01 At the heart of the European integration process is the political economy debate over whether the EU should be a market making project or if it should combine this with integration in employment and social policy What has been the impact of the 2004 and 2007 rounds of enlargement upon the political economy of European integration EU enlargement the clash of capitalisms and the European social dimension analyses the impact of the 2004 and 2007 enlargements upon the politics of European integration within EU employment and social policy This book analyses the main policy negotiations in the field and analyses the political positions and contributions of the Central and Eastern European Member States Through analyses of the negotiations of the Services Directive the revision of the Working Time Directive and the Europe 2020 poverty target the book argues that the addition of the Central and Eastern European states has strengthened liberal forces at the EU level and undermined integration with EU employment and social policy

Supranational Citizenship and the Challenge of Diversity Francesca Strumia, 2013-09-05 In *Supranational Citizenship and the Challenge of Diversity* Francesca Strumia explores the potential of European citizenship as a legal construct and as a marker of group boundaries for filtering internal and external diversities in the European Union Adopting comparative federalism methodology and drawing on insights from the international relations literature on the diffusion of norms the author questions the impact of European citizenship on insider outsider divides in the EU as experienced by immigrants set by member states and perceived by native citizens The book proposes a novel argument about supranational citizenship as mutual recognition of belonging This argument has important implications for the constitution of insider outsider divides and for the reconciliation of multiple levels of diversity in the EU

Democracy, social resources and political power in the European Union Niilo Kauppi, 2018-02-28 In this book Kauppi develops a structural constructivist theory of the European Union and critically analyses through French and Finnish empirical cases the political practices that maintain the Union's democratic deficit Kauppi conceptualises the European Union as both an arena for political contention and a nascent political order In this evolving multi levelled European political field individuals and groups construct material and symbolic structures of political power grounded in a variety of social resources such as nationality culture and gender The author shows how the dominance of both executive political resources and domestic political cultures has prevented the development of European democracy Supranational executive networks have become more autonomous reinforcing the dominance of the resources they control At the same time national political cultures condition the political status of elected institutions such as the European parliament The book is particularly suited for undergraduate and graduate students in the fields of European Politics European Union Studies and International Relations

European Social Problems Stuart Isaacs, 2017-06-26 European Social Problems is the first book to examine social issues in Europe from the perspective of the social sciences It considers many of these social problems following the UK's leave vote Key topics examined here include immigration multiculturalism and religion health inequalities education riots and protest drugs and crime sexuality These core issues run as a thread through Europe and are experienced by Europeans themselves as social problems As such this text facilitates students direct engagement with some of the problematic constituents in their own lives This text is suitable for those studying social policy sociology politics international relations criminology and education studies In this way it functions as an accessible reader for final year undergraduates as well as postgraduate students

The European Social Dialogue Under Articles 138 and 139 of the EC Treaty Christian Welz, 2008-01-01 Describes analyses and assesses the European social dialogue from a combined theoretical and normative perspective and applies theoretical strands stemming from industrial relations EC law and political theory to an understanding and assessment of the genesis actors processes and

outcomes of the European social dialogue through 2007 *The Political and Social Construction of Poverty* Romano, Serena, 2014-01-29 Poverty is not a neutral phenomenon nor are social inclusion programmes neutrally conceived designed and implemented Their ultimate nature is built upon ideas values actors politics and economic constraints This topical book is one of the first to examine the social and political construction of anti poverty programmes in Central Eastern Europe and their transformation from communist rule to the current economic crisis It covers the approach towards the parasite poor through to Guaranteed Minimum Income Schemes and illustrates how the distinction between different categories of deserving and undeserving poor has evolved over the years as the result of changing paradigms combined with the pressure exerted by domestic and international actors the European Union and the World Bank among others This text breaks new ground for social policy students and scholars interested in understanding how differently post communist welfare states have represented legitimised and dealt with poverty need and social justice in accordance with divergent normative frameworks constructed at national level **The Discursive Construction of European Identities** Michał Krzyżanowski, 2010 This book looks at the discursive construction of European identities in a variety of institutional and non institutional contexts and through a variety of social and political actors Its multilevel and interdisciplinary approach rooted in the Discourse Historical tradition of Critical Discourse Analysis allows for a comparison of identity constructions at different levels of Europe s social and political organisation and in different modes of communication The book analyses discourses as diverse as those of the EU politicians of Europe s national media as well as of migrants living in Europe It offers a set of integrated models and analytical procedures which bring to the fore the inherent dynamism and complexity of both bottom up and top down European identity constructions *Economic and Social Integration* Dagmar Schiek, 2012-01-01 Dagmar Schiek has written a timely and vital book Following financial and sovereign debt crises the European Union is in crisis As responses to crisis for example fiscal union appear to be couched in wholly technocratic terms a European public is entitled to ask whether the European Union has any respect for established national traditions of social constitutionalism and social welfare Dagmar Schiek addresses these questions both in a historical and contemporary context of social constitutionalism arguing forcefully for the need to establish social legitimacy within Europe I recommend this book to all researchers and students of European Union Michelle Everson Birkbeck College University of London UK Is there a European social space What is the place of social integration alongside economic integration in the EU Has a socially embedded constitutionalism been developed in parallel with the internal market case law of the CJEU Dagmar Schiek in her comprehensive and interdisciplinary study gives refreshing new answers under the recent Lisbon Treaty Norbert Reich Universität Bremen Germany At a time of crisis and therefore a crucial juncture in European politics Dagmar Schiek offers us an inspiring vision of the potential of the European Union In her brilliant study she exposes the obstacles that economic integration has posed for achievement of social justice and provides a bold solution Rejecting more limited models of

constitutionalism she presents a convincing alternative which is socially embedded allowing space for action by manifold actors at multiple levels of governance Tonia Novitz University of Bristol UK This well researched book analyses the positioning of EU constitutional law towards economic and social integration by contrasting liberal and socially embedded constitutionalism The book draws on a unique content and discourse analysis of all Grand Chamber decisions on substantive EU law since May 2004 It finds the EU's judicial constitution to be more nuanced and more uniform than expected While the Court of Justice enforces the constitution of integration it favours economic freedoms under mainly liberal paradigms but socially embeds constitutionalism in citizenship cases The judicial constitution contrasts with EU Treaties after the Treaty of Lisbon in that their new value base enhances European social integration However the Treaties too seem contradictory in that they do not expand the EU's competence regime accordingly In the light of these contradictions Dagmar Schiek proposes a constitution of social governance the Court and EU institutions should encourage steps towards social integration at EU level to be taken by transnational societal actors rather than condemn their relevant activity Economic and Social Integration will appeal to academics and postgraduate students in EU law EU politics European sociology international relations international law labour law and welfare state theory Undergraduate students in labour law policy advisors on EU social policy and welfare state government departments and EU Commission departments will also find much to interest them in this book

Social Constructionism in Housing Research Jim Kemeny, 2017-05-15 By stressing the importance of subjectivity and interpretation social constructionism offers a different conception of reality from the traditional approach to housing policy analysis This book provides an up to date review of the social constructionist perspective and considers its philosophical basis It discusses how social problems are constructed and in turn how this informs policy making It is divided into two parts The first section is theoretical and discusses the variety of conceptual approaches utilised within the constructionist paradigm The second part provides a number of empirically based case studies from the UK and Australia to illustrate the different methodologies that form the social constructionist corpus The book also evaluates both the criticisms that have been made against the social constructionist perspective and the strengths and weaknesses of constructionist methods It therefore contributes to the development of a future research agenda for social constructionist research in housing and urban policy
