Social Attitudes In Northern Ireland 1990 91:

Contemporary Northern Irish Society Colin Coulter, 1999-10-20 This is a critical overview of the various sources of social and political identity in Northern Ireland The book examines the key variables of sociology status class and gender and in this case ethno religion and explains why ethno religious sentiment has become the principle source of political identity A range of themes are covered the role and status of women the representations of the conflict and peace process in the media sport and the importance of popular music

British Social Attitudes Roger Jowell, 1992 Britain is on the whole a well documented nation We know or are able to find out a great deal about our characteristics as a society who we are and what we do But we know much less about our character what we think about our world and ourselves Very little systematic material is publicly available on the nation's values whether or how they have been changing and the extent to which different sections of the population vary in their attitudes and beliefs British Social Attitudes compiles describes and comments upon a wide range of current social attitudes The information is obtained from around 3000 interviews carried out by SCPR among a nationwide sample sample in an annual series of surveys The series seeks to chart changes in British social values during the 1980s and 1990s in relation to other changes in society and is core funded by the Sainsbury Family Charitable Trusts

Facets of the Conflict in Northern Ireland Seamus Dunn, 2016-07-27 an important volume for anyone anxious to understand the fundamentals of politics in Northern Ireland today Margaret O Callaghan Irish Times Facets of the Conflict in Northern Ireland is written by practising social science researchers all currently or recently working within Northern Ireland It provides an up to date background to the conflict and much of the material used arises from the wide range of funded researches carried out at the Centre for the Study of Conflict University of Ulster during the past sixteen years Each chapter focuses on a different facet of the problem and these include social legal political religious economic and cultural matters

Socio-ideological fantasy and the Northern Ireland conflict Adrian Millar, 2013-07-19 Conducting a Lacanian inspired psychoanalysis of some of the most candid interview materials ever gathered from former IRA members and loyalists the author demonstrates through a careful examination of their slips of the tongue jokes rationalisations and contradictions that it is the unconscious dynamics of socio ideological fantasy i e the unconscious pleasure people find in suffering domination submission ignorance failure and rivalry over jouissance that lead to the reproduction of antagonism between the Catholic and Protestant communities in Northern Ireland In the light of this he concludes that traditional approaches to conflict resolution which overlook the unconscious are doomed to failure and that a Lacanian psychoanalytic understanding of socio ideological fantasy has great potential for informing the way we understand and study all inter religious and ethnic conflicts Whether you find yourself agreeing with the arguments in this book or not you are sure to find it a welcome change from both the existing mainly conservative analyses of the Northern Ireland conflict and traditional approaches to conflict resolution

Culture and Identity Politics in Northern Ireland Máiréad Nic Craith, 2003-05-02 Civilization and culture

have traditionally been regarded as mutually exclusive concepts In this comparative case study of Northern Ireland M ir ad Nic Craith explores the commitment of unionists to a civic culture blind British state contrasting this with nationalist demands for official recognition of Irish culture The cultural turn in Northern Irish politics and the development of a bicultural infrastructure is examined here in the context of differing interpretations of equality and increasing demands for intercultural communication within as well as between communities **Religion and Politics** John T. Blade, 2002 Twenty four news networks a plethora of newspapers and magazines vibrant news talk radio and the ubiquitous Internet highlight our society as information driven With such a steady stream of hard facts mixed with publicised opinions the mainstream population has an opinion on everything Most anyone seems itching to argue their side of

an issue making once private beliefs fodder for general consumption A staple of any medium's content is a regular public opinion poll on whatever hot topic strikes the editor's fancy From the significant to the mundane public opinion permeates society Accordingly politicians have taken note of these opinions and adopted stands and values that put them in tune with public sentiment An understanding of the nature of public opinion therefore is paramount in today's world This book assembles and presents a carefully chosen bibliography on public opinion in its many forms The collection of references makes for a valuable resource in studying and researching the critical issue of public opinion Easy access to these pieces of literature are then provided with author title and subject indexes

Doing Qualitative Analysis In Psychology Nicky

Hayes, 2013-12-16 In recent years qualitative analysis has become accepted as part of modern psychology Concern about the limitations of conventional laboratory based research combine with a growing interest in real world issues to produce an awareness of the rich potential of qualitative analysis Virtually all psychology students undertake practical work as part of their courses More and more of them are seeking to conduct research which includes qualitative analysis Too often though students lack awareness of the range and diversity of qualitative approaches Qualitative analysis can take many different forms and can use any different sources of data At one end of the spectrum this diversity provides the eclectic psychologists with a rich analytical tool box For those at the other end qualitative analysis is an integral part of a full theoretical critique of positivistic methodologies in psychology This text provides examples of how different psychologists have used qualitative analysis in research Each chapter is based around a real piece of research and the researcher discusses exactly how they went about conducting the analysis The text covers a wide range of theoretical and methodological approaches to qualitative analysis and should be of interest to research psychologists as well as to students

Evangelicalism and National Identity in Ulster, 1921-1998 Patrick Mitchel, 2003-10-30 Evangelical Protestantism in Ulster is the most influential and historically significant sector of Christianity in Northern Ireland This innovative and controversial book explores different Evangelical responses to the declining fate of Ulster Unionism during the period from Partition in 1921 to the 1998 Good Friday Agreement Focusing on how religious belief has interacted with national identity in a context of political conflict it eschews a reductionist or purely historical approach to interpreting religion Rather using a combination of historical and theological material Patrick Mitchel offers a critical assessment of how Evangelical identities in Ulster have embodied the religious beliefs and values to which they subscribe Evangelical Protestantism is often associated only with the Orange Order and with the controversial figure of Ian Paisley This book's fresh analysis of a spectrum of Evangelical opinion including the frequently overlooked moderate Evangelicals provides a more rounded picture that shows why and how Evangelical Christians in Ulster are deeply divided over politics national identity and the current Peace Process Patrick Mitchel concludes with a critical assessment of the political and theological challenges facing different Evangelical identities in the context of identity conflict in Northern Ireland This is an invaluable guide to understanding both the past and contemporary mindset of Ulster

UK Environmental Policy in the 1990s Tim S. Gray, 2016-07-27 The central controversy running through this book is whether Mrs Thatcher s famous green speeches of 1988 marked a fundamental shift by the Conservative Government towards environmentalism or whether they were merely political rhetoric designed to rule out a temporary surge of popular support for the Green Party The conclusion arrived at is mixed in some policy areas a definite shift has occurred but in others

it is business as usual An overall change of gear is still awaited
