Social Constructionism Discourse And Realism:

Social Constructionism, Discourse and Realism Ian Parker, 1998-04-28 This book charts a clear and accessible path through some of the key debates in contemporary psychology Drawing upon the wider critical and discursive turn in the human sciences Social Constructionism Discourse and Realism explores comprehensively the many claims about what we can know of reality in social constructionist and discursive research in psychology Relativist versus realist tensions go to the heart of current theoretical and methodological issues not only within psychology but across the social and human sciences By mapping the connections between theory method and politics in social research and placing these within the context of the broader social constructionist and discursive debates the internationally renowned contributors offer the reader an invaluable survey of the debates Social Construction, Discourse and Realism Ian Parker, 1998 In this broad ranging

overview of the contemporary debates surrounding social constructionist perspectives in psychology the contributors map important connections between theory method and politics in social research Social Constructionism Vivien Burr, 2024-11-15 The fourth edition of this seminal work introduces students to social constructionism Using a variety of examples from everyday experience and from existing research in areas such as personality sexuality and health it clearly explains the basic theoretical assumptions of social constructionism Drawing on a range of empirical studies the book clearly defines the various approaches to social constructionist theory and research and explores the theoretical and practical issues they raise It presents and analyses key debates such as the nature and status of knowledge truth reality and the self in an accessible style The new edition has been updated with relevant and contemporary references to aid understanding of key theoretical and methodological issues The author additionally utilises new illustrative examples from research and contemporary life such as the MeToo movement BlackLivesMatter and Post Truth politics The updated work has also been expanded to include an extended discussion of affect and embodiment and a number of exercises to help illustrate important concepts Social Constructionism extends and updates the material covered in previous editions and will be an invaluable and informative resource for undergraduate and postgraduate students of Psychology Sociology Education and other related disciplines

Unfolding Social Constructionism Fiona J. Hibberd, 2006-11-24 For more than half of the 20 century psychologists sought to locate the causes of behaviour in individuals and tended to neglect the possibility of locating the psychological in the social In the late 1960s a reaction to that neglect brought about a crisis in social psychology This crisis did not affect all social psychologists some remained seemingly oblivious to its presence others dismissed its significance and continued much as before But in certain quarters the psychological was re conceptualised as the social and the social was taken to be sui generis Moreover the possibility of developing general laws and theories to describe and explain social interaction was rejected on the grounds that as social beings our actions vary from occasion to occasion and are for many reasons unrepeatable There is so it was thought an inherent instability in the phenomena of interest The nomothetic ideal

was said to rest on individualistic cause effect positivism of the kind which arguably characterised the natural sciences but social psychology so it was said is an historical inquiry and its conclusions are necessarily historically relative Gergen 1973 Events outside psychology converged to give impetus to the crisis within **What Is a Person?** Christian Smith,2010-09-15 What is a person This fundamental question is a perennial concern of philosophers and theologians But Christian Smith here argues it also lies at the center of the social scientist s quest to interpret and explain social life In this ambitious book Smith presents a new model for social theory that does justice to the best of our humanistic visions of people life and society Finding much current thinking on personhood to be confusing or misleading Smith finds inspiration in critical realism and personalism Drawing on these ideas he constructs a theory of personhood that forges a middle path between the extremes of positivist science and relativism Smith then builds on the work of Pierre Bourdieu Anthony Giddens and William Sewell to demonstrate the importance of personhood to our understanding of social structures From there he broadens his scope to consider how we can know what is good in personal and social life and what sociology can tell us about human rights and dignity Innovative critical and constructive What Is a Person offers an inspiring vision of a social science committed to pursuing causal explanations interpretive understanding and general knowledge in the service of truth and the moral good

Social Construction in Context Kenneth J Gergen,2001-05-23 This latest book by one the world s leading protagonists in the field will be welcomed not just by psychologists but by students academics and professionals interested in social constructionism across a wide range of subjects Social Construction in Context explores the potentials of social constructionist theory when placed in diverse intellectual and practical contexts It demonstrates the achievements of social constructionism and what it can now offer various fields of inquiry both academic professional and applied given the proliferation of the theory across the social sciences and humanities *Women in Academia Crossing North-South Borders* Zuleika Arashiro,Malba Barahona,2015-12-09 Drawing broadly on decolonial studies postcolonial feminist scholarship and studies on identity this interdisciplinary edited volume brings together personal accounts written by female scholars who migrated from Latin America and joined universities in the Global North Australia the United States and the Netherlands and female scholars who moved from the Global North to teach in Latin American universities The seven contributors examine how their lived experiences with gender race and place displacement have impacted their social identities and on their roles as researchers and teachers They describe how personal and intellectual negotiations in their new location have influenced their fight for plural forms of knowing and being This book expands the debate on geopolitics of knowledge and the position of female scholars from the Global South beyond the United States as a site of experiences *Doing Your Qualitative Psychology Project* Sarah Riley,Cath Sullivan,Stephen Gibson,2012-04-04 This book is for students who are about to embark on a qualitative research project as part of their psychology degree While there are a number of books on qualitative psychological research Doing Your Qualitative Psychology Project is unique as it leads you step by step through the process

of doing your project and writing your dissertation The focus throughout is on how to make your project excellent Editors Cath Sullivan Stephen Gibson and Sarah C E Riley focus on the steps involved in completing a qualitative dissertation and on the decisions that you ll need to make as you go along

Epistemology and Metaphysics for Qualitative Research

Tomas Pernecky, 2016-09-22 This clearly written and provocative text outlines the wide range of epistemological and metaphysical pillars of research In a clear easy to follow style the reader is guided through an array of concepts that are defined explained and made simple With the aid of helpful examples and case studies the book challenges the prevailing modes of thinking about qualitative inquiry by showcasing an immense variety of philosophical frameworks Armed with a strong understanding of this philosophical backbone students will be able to choose and defend a pick and mix of research methods that will uniquely complement their research Empiricism Rationalism Realism Skepticism Idealism Positivism Post positivism Idea ism Hermeneutics Phenomenology Social Ontology Quantum Mechanics Essential reading for new and experienced researchers this must for any social science bookshelf will help unlock a new level of research creativity

theoretical trajectories provides a new vantage point from which to explore questions of personal and political change In a world of deepening inequalities and increasing economic precarity the demand for free decolonised quality education as articulated by the South African Student Movement and in many other contexts around the world is disrupting established institutional practices and reinvigorating possibilities for change This context provokes new lines of hopeful thought and critical reflection on discontinuities across historical time theories of social and psychological developmental processes and the practices of intergenerational life particularly in the domain of education for the making of emancipatory futures This is essential reading for academics and students interested in Vygotskian and narrative theory and critical psychology as well as those interested in the politics and praxis of higher education Rethinking Basic Writing Laura Gray-Rosendale, 1999-12 This book surveys the history of basic writing scholarship suggesting that we cannot adequately theorize the situations of basic writers unless we examine how they construct their own conceptions of their identities their constructions of their relationships to social forces and their representations of their relationships to written work Using a cross disciplinary analytic model Gray Rosendale offers a detailed examination of the oral conversations that take place within one basic writing peer revision group She explains the ways in which the students own conversational structures impact and shape their written products Gray Rosendale then draws out the potentials of her work for basic writing administrators curricula builders and teachers **Challenges to Civil Society , Rethinking Welfare** Iain Ferguson, Michael Lavalette, Gerry Mooney, 2002-04-18 I would encourage undergraduates students to read it for it does summarise well a classical Marxist analysis of social policy and welfare Social Policy The anti capitalist movement is increasingly challenging the global hegemony of neo liberalism The arguments against the neo liberal agenda are clearly articulated in Rethinking Welfare The authors highlight the growing inequalities and decimation of state welfare and use Marxist approaches to contemporary social policy to provide a defence of the welfare state Divided into three main sections the first part of this volume looks at the growth of inequality and social and environmental degradation Part Two centres on the authors argument for the relevance of core Marxist concepts in aiding our understanding of social policy This section includes Marxist approaches to a range of welfare issues and their implications for studying welfare regimes and practices Issues covered include Class and class struggle Oppression Alienation and the family The last part of the book explores the question of globalization and the consequences of international neo liberalism on indebted countries as well as the neo liberal agenda of the Conservative and New Labour governments in Britain The authors conclude with the prospect of an alternative welfare future which may form part of the challenge against global neo liberalism
