its adherents for their politically problematic racial appropriation practices Karyln Crowley looks honestly at the political shortcomings of New Age beliefs and practices while simultaneously reckoning with the affective political and cultural motivations which have prompted New Age women's individual and collective spiritualities New Age spirituality is in fact the dynamic outgrowth of a long standing tradition of women's social and political power expressed through religious writings art and public discourse and is key to understanding contemporary women's history and religion's role in modern American culture alike Crowley offers a new and provocative assessment of the significance of the New Age movement seen through a feminist and critical race studies lens

Toward More Family-Centered Family Sciences Howard M. Bahr, Kathleen S. Bahr, 2009-03-16 Much academic writing on families reflects the ideal of non involvement and distanced subject matter Toward More Family Centered Family Sciences suggests that the family sciences in their effort to be scientific have perpetuated this distance between researcher and subject to the

detriment of both The authors argue that family and kinship ties are transcendent ties boundary crossing in numerous ways They place an emphasis on family love in contrast and in addition to romantic love and criticize current approaches for neglecting the importance of transcendent concepts such as love commitment respect and sacrifice in the development and well being of family structures Drawing from insights both inside and outside of academia the authors seek to reincorporate transcendent concepts into the study of the family as a unit of society They argue for a more collaborative family centered family science and offer recommendations for how family researchers might work to change the scientific monologue about families to a systemic dialogue with families

Being Spiritual but Not Religious William B. Parsons, 2018-05-30 In its most general sense the term Spiritual but Not Religious denotes those who on the one hand are disillusioned with traditional institutional religion and on the other hand feel that those same traditions contain deep wisdom about the human condition This edited collection speaks to what national surveys agree is a growing social phenomenon referred to as the Spiritual but Not Religious Movement SBNRM Each essay of the

Increasingly North Americans and Western Europeans identify as spiritual but not religious But what does spirituality actually mean And what does this recent spiritual turn reveal about the nature of twenty first century liberal democracies Secularization theorists argue that spirituality lacks institutional support and a shared tradition thereby evincing religious decline Meanwhile critical commentators contend that the spiritual turn embodies all of the ills of post 1960s liberal democracies This book challenges these popular misconceptions Combining cultural sociology with intellectual history and political philosophy and drawing from first hand interview and fieldwork data along with discourse analysis of best selling books it shows that rather than reflecting religious decline the spiritual turn marks the rise of an enduring cultural structure in Western modernity the religion of the heart Tracing the religion of the heart to the 1960s The Spiritual Turn illuminates its elective affinities with the romantic liberal social imaginary that crystallized in popular consciousness during this era and transformed the institutional spheres of Western liberal democracies eventually giving birth to a new social order romantic liberal modernity Then inspired by the Durkheimian tradition it presents case studies of three sites where the religion of the heart is institutionalized in a specific discursive form a Twelve Step group a neo Pentecostal church and a Toastmasters public speaking club The book concludes that while critics may have reason to disparage both spirituality and romantic liberal modernity more generally the reality is far more complex than their criticisms suggest and more importantly far less hopeless Spirituality: A Life Force Christine A. Adams,2019-07-05 Spirituality A Life Force details a journey from the material world of the ego to the world of the spiritual It shows how the new awareness of oneself as a child of God can produce profound change in your life Relationships can change from being dominated by self interest and ego to relationships with spiritual purpose and function Spiritual healing happens as spiritual solutions are sought Spirituality A Life Force opens up the possibility of a new view of life a new view of yourself living not as a child of this world but with the life force of spirituality living as a child of God **The New Spirituality** Gordon Lynch,2007-04-27 Much attention has been given in recent writings about religion to fundamentalism and the religious right But less attention has been given to their opposite the emergence of a new generation of progressive religious thinkers and organisations on the religious left The New Spirituality is one of the first books to give a comprehensive and authoritative account of this burgeoning progressive religious movement It offers a clear and engaging analysis of the cultural roots key ideas and organisational structures of this new faith assessing its significance in the changing moral and religious landscape of contemporary western society Gordon

Lynch argues that we are witnessing the rise of a new religious ideology which reveres the natural world connects religious faith with novel scientific theories and has a forward looking agenda for society's transformation The New Spirituality will be essential reading for students attempting to understand the shape of religious belief in the twenty first century **The Encyclopedias of Christianity, Vol. 5** Erwin Fahlbusch, Geoffrey William Bromiley, 1999 Written by leading scholars from around the world the articles in this volume range from sin Sufism and terrorism to theology in the 19th and 20th centuries Vatican I and II and the virgin birth *The Handbook of Religion and Communication* Yoel Cohen, Paul A. instead in rich empirical detail how modernity relocates the sacred to the deeper layers of the self and the domain of digital technology Rather than destroying the sacred tout court then the cultural logic of modernization spawns its own religious meanings unacknowledged spiritualities and magical enchantments The classical theoretical accounts of modernity by Max Weber Emile Durkheim and others it is argued in the introductory chapter already hinted that there s a future for such religions of modernity Contributors Stef Aupers Kelly Besecke Kirsten Marie Bovbjerg Siobhan Chandler Olav Hammer Dick Houtman Murray Lee Carly Machado Karen P rna Adam Possamai Linda Woodhead and Dorien Zandbergen
