Technocracy And The Politics Of Expertise Managerial And Policy Perspectives:

Handbook of Public Policy B Guy Peters, Jon Pierre, 2006-07-20 The new handbook by Peters and Pierre provides an invaluable addition to the literature. It offers new scholars and practitioners a means to navigate many of the complex theoretical and practical issues in contemporary policy analysis. Mark Considine, University of Melbourne. The public policies of governments affect the lives and livelihoods of citizens every day in every country around the world. This handbook provides a comprehensive review and guide to the study, theory and practice of public policy today. Section One, Making Policy, introduces the policy making process, the means by which public policies are formulated, adopted and implemented, and serves to review the many competing conceptualizations within the field. Section Two, Substantive Policy Areas, focuses on a number of substantive policy areas to consider both diversity and commonalities across different sectoral policy areas. Section Three, Evaluating Public Policy, addresses issues of policy analysis more directly and assesses successes and failures in public policy in an attempt to answer the question: what is good policy? The concluding chapter considers the different disciplinary contributions to the research and study of public policy, both retrospectively and prospectively. Drawing contributions from leading academics and policy analysts from around the world, the handbook illustrates the changing role of governments vis-à-vis the public and private sector and the different policy actors: national and international governmental and non-governmental actors involved in the policy making process. It will be an essential companion for all advanced undergraduates, graduates, academics and practitioners across public policy and public administration, public management, government and political science.

Technocracy and the Politics of Expertise Frank Fischer, 1990 This book describes the role of technological experts and expertise in a democratic society. It places decision making strategies studied in organization theory and policy studies into a political context. Fischer brings theory to bear on the practical technocratic concerns of these disciplines and hopes to facilitate the development of nontechnocratic discourse within these fields. The book adopts a critical perspective and addresses the restructuring of the policy sciences.

The Routledge Handbook of European Integrations Thomas Hoerber, Gabriel Weber, Ignazio Cabras, 2022-02-27 The Routledge Handbook of European Integrations fills a significant gap in the European studies literature by providing crucial and groundbreaking coverage of several key areas that are usually neglected or excluded in European integration collections. Whilst still examining the largest and most influential institutions, bodies and highly funded policy areas as acknowledged dominant topics in European studies, it crucially does so with much greater balance by devoting equal billing to areas such as culture in European integration or new technologies and their impact on the EU. Organised around three main sections: culture, technology and tangibles, the book offers an authoritative encyclopaedia to alternative areas in European integration from media, football, Erasmus and tourism to transport, space, AI and energy. It retains coverage of the dominant topics in European studies such as the Eurozone, the Common Internal Market or European law, but in balance with other areas of interest and provides an essential companion to

existing scholarship in European studies The Routledge Handbook of European Integrations is essential reading and an authoritative reference for scholars students researchers and practitioners involved in and actively concerned about research in the study of European integration studies The Open Access version of Chapter 14 in this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

e-Democracy David Rios Insua, Simon French, 2010-09-02 Internet is starting to permeate politics much as it has previously revolutionised education business or the arts Thus there is a growing interest in areas of e government and more recently e democracy However most attempts in this field have just envisioned standard political approaches facilitated by technology like e voting or e debating Alternatively we could devise a more transforming strategy based on deploying web based group decision support tools and promote their use for public policy decision making This book delineates how this approach could be implemented It addresses foundations basic methodologies potential implementation and applications together with a thorough discussion of the many challenging issues This innovative text will be of interest to students researchers and practitioners in the fields of e government e democracy and e participation and research in decision analysis negotiation analysis and group decision support

Basin Futures Daniel Connell, R. Quentin Grafton, 2011-05-01 This unique book brings together 27 chapters from some of the world's leading practitioners and experts on environmental water communities law economics and governance Its goal is to understand the many dimensions of water in the Murray Darling Basin and provide guidance about how to implement a water management plan that addresses the needs of communities the economy and the environment The comprehensiveness of topics covered the expertise of its authors and the absolute need to take a multidisciplinary approach to resolving the wicked problem of governing our scarce water resource makes this volume a must read for all who care about Australian communities and the environment
