Technological Change And The Transformation Of America:

Technological Change and the Transformation of America Steven E. Goldberg, Charles R. Strain, 1987 This collection of original essays examines modern technology in light of American intellectual and social history Goldberg and Strain have arranged the essays in four sections each treating a dimension of American culture consciousness work politics and community The book is distinguished not only by the breadth of its perspective but also by the quality of its contributors notably Christopher Lasch Leo Marx John Kasson Albert Borgmann Irving Bluestone and Senator Charles McC Mathias The essays address a series of hard choices mass production or flexible specialization computer surveillance as the protection or violation of human rights economic mobility or cohesive community progress as technological expansion or as the fulfillment of political ideals This volume shows how the choices made in the development of technology both historically and today spring from cultural traditions and beliefs

Law in an Era of Smart Technology Susan Brenner, 2007-12-31 Should law be technologically neutral or should it evolve as human relationships with technology become more advanced In *Law in an Era of Smart Technology* Susan Brenner analyzes the complex and evolving interactions between law and technology and provides a thorough and detailed account of the law in technology at the beginning of the 21st century Brenner draws upon recent technological advances evaluating how developing technologies may alter how humans interact with each other and with their environment She analyzes the development of technology as shifting from one of use to one of interaction and argues that this interchange needs us to reconceptualize our approach to legal rules which were originally designed to prevent the misuse of older technologies As technologies continue to develop over the next several decades Brenner argues that the laws directed between human and technological relationships should remain neutral She explains how older technologies rely on human implementation but new smart technology will be completely automated This will eventually lead to as she explains the ultimate progression in our relationship with technology the fusion of human physiology and technology *Law in an Era of Smart Technology* provides a detailed historically grounded explanation as to why our traditional relationship with technology is evolving and why a corresponding shift in the law is imminent and necessary

The Preservationist's Guide to Technological Change and the American Home, 1600-1900 Lee Perry, 2000 Book Description This work is an exploration of American building technologies as they evolved during the period between colonial times and nineteen hundred The manuscript consists of six chapters and an historical glossary of building construction related terms The chapters cover technological developments in house framing masonry materials and techniques plumbing heating lighting and architectural details and finishes The glossary of terms follows the meanings of building terminology as it developed over the course of three centuries The intent of this work is to create a detailed if not utterly comprehensive body of information tracing the way in which our homes changed as they mirrored the impact of technological change on all aspects of the American condition We are and have been from the start a nation of ardent techno junkies The technological

evolution of our homes offers a useful and clear metaphor through which to trace the evolution of our technological development and related national character through primary focus on the concrete and practical aspects of the technologies of residential architecture Author Bio Lee comes from a New England background and has both a lifetime of building experience with historic structures and a formal advanced education in the field of historic preservation For the past ten years he has worked as a project manager on a variety of high profile museum projects **Military Enterprise and Technological Change** Merritt Roe Smith,1985 In this book historians of technology bring their special expertise to probing the influence of the military on technological development over a broad range of history and in a variety of cases
