Technology Schools Pb 1997:

China's Deep Reform Lowell Dittmer, Guoli Liu, 2006-03-28 China's rapid and complex political and socioeconomic changes provide fertile ground for pioneering analysis but they also present daunting theoretical and practical challenges. This reader takes up the challenge offering the most comprehensive assessment of Chinese domestic politics available by bringing together the best recent scholarship in the field. The anthology focuses on the origin, content, and significance of the post 1989 phase of China's reform and opening to the world, commonly known in the PRC as deep reform. This period has been unfolding in interaction with globalization, marketization, privatization, political institutionalization, as well as with financial and legal changes. Deep reform includes new policy initiatives that have penetrated political, legal, economic, and social sectors untouched by previous initiatives as reformers have been forced to deal with the consequences, intended and unintended, of earlier reforms. These carefully selected essays by leading scholars have been revised and updated for this text. In addition, a substantive introduction and conclusion place the articles in their broader context for readers new to the subject. With the successful transition of the leadership of the party-state and military since 2002, the time is ripe for a comprehensive evaluation of China's deep reform as it enters a new stage. This timely reader will offer students, scholars, and policymakers invaluable insights into the dynamics of change in one of the world's emerging political and economic dynamos.

Baseline Assessment and Monitoring in Primary Schools Peter Tymms, 2013-12-19. First Published in 1999. This book offers the reader a detailed picture of attitudes and self-concepts of pupils and their growing achievements as they move through primary education. Acknowledging the complexity of schools and schooling, Peter Tymms shows with many charts, diagrams, and data displays how reliable measures can be used to track pupils' development. Systematic data collection and interpretation are based on the well-established Performance Indicators in Primary School (PIPS) project. Important policy and practical questions are addressed, and some surprising conclusions are reached. Gaps in knowledge are also identified, and ways to fill them are outlined. Teachers, headteachers, middle managers, policy makers, INSET providers in primary schools, and student teachers will welcome this text. **Peterson's Guide to Two-Year Colleges 1997** Peterson's Guides Staff, Peterson's Guides, Peterson's, 1996-08-18.
