diversity of team role views can be assessed Furthermore the same method can be used to capture the diversity of views on business models among individual employees especially at managerial and executive level In a turbulent business environment an organization's flexibility may be improved by internal diversity of the ways its business model is implemented Finally several topics may be used in the educational context with very low barriers to entry for the student users Reciprocity as a mechanism promoting cooperation and building trust Chapters 2 and 3 is in my view a fundamental concept when teaching about organizational behavior Game theory is useful in strategic management The heuristic methods mentioned above are key to implementing a very effective approach in creative thinking and innovation management courses
