movement and a critical look at the field in its historical context The audience for the Yearbook consists of media and technology professionals in schools higher education and business contexts including instructional technology faculty school library media specialists curriculum leaders business training professionals and instructional designers The Educational Media and Technology Yearbook has become a standard reference in many libraries and professional collections Pleasure With Products William S. Green, Patrick W. Jordan, 2002-04-18 The last five years have seen a major paradigm shift in the role of human factors in product design Previously this was seen as pertaining almost exclusively to product usability but new recognition is being given to pleasure based human factors This emphasizes the holistic nature of the experience of person product interaction While tradition **Atoms, Bytes and Genes** Martin W. Bauer, 2015-02-11 Atom byte and gene are metonymies for techno scientific developments of the 20th century nuclear power computing and genetic engineering Resistance continues to challenge these developments in public opinion This book traces historical debates over atoms bytes and genes which raised controversy with consequences and argues that public opinion is a factor of the development of modern techno science The level and scope of public controversy is an index of resistance examined here with a pain analogy which shows that just as pain impacts movement resistance impacts techno scientific mobilization it signals that something is wrong and this requires attention elaboration and a response to the challenge This analysis shows how different fields of enquiry deal with the resistance of social psychological mentalities in the face of industrial scientific and political activities inspired by projected futures Epistemics of the Virtual Johan F. Hoorn, 2012-01-01 Proposing a new theory of fiction this work reviews the confusion about perceived realism metaphor virtual worlds and the seemingly obvious distinction between what is true and what is false The rise of new media new technology and creative products and services requires a new examination of what real friends are to what extent scientific novelty is true and whether online content is merely figurative In this transdisciplinary theory the author evaluates cognitive theories philosophical discussion and topics in biology and physics and places these in the frameworks of computer science and literary theory The interest of the reader is continuously challenged on matters of truth fiction and the shakiness of their belief systems *The Handbook of Information and Computer Ethics* Kenneth E. Himma, Herman T. Tavani, 2008-06-23 This handbook provides an accessible overview of the most important issues in information and computer ethics It covers foundational issues and methodological frameworks theoretical issues affecting property privacy anonymity and security professional issues and the information related professions responsibility issues and risk assessment regulatory issues and challenges access and equity issues Each chapter explains and evaluates the central positions and arguments on the respective issues and ends with a bibliography that identifies the most important supplements available on the topic **ESG investment and its societal impacts** Shigeyuki Hamori, Xiao-Guang Yue, Lu Yang, James Crabbe, 2023-02-09
