Owning it Donald R. Gallo,2008 Ten authors of young adult fiction contribute to this stellar collection of stories about teens with physical or psychological disabilities and the tenacity spirit and humor that drive them

Learning Disabilities Penny Hutchins Paquette,Cheryl Gerson Tuttle,2003-10-01 Exclusively written for teenagers and young adults dealing with a wide variety of learning disabilities including Attention Deficit Hyperactivity Disorder ADHD dyscalculia and dyslexia this accessible resource offers the tools for taking a proactive role in identifying understanding and overcoming the obstacles facing teens with learning disabilities Learning Disabilities provides a clear and informative overview of the most common disabilities Appealing to teenagers with its easy to read format and positive tips for success the book also teaches students how to advocate for themselves informing

them of their rights under law both during the school years and after high school graduation Assistive technology that can help students improve their learning abilities such as Optical Character Recognition OCR systems screen reading software books on tape electronic notebooks and other tools that aid student learning are covered The most recent research on brain structure and function and the role they play in learning disabilities is presented as well as a step by step guide to test reports so that teens can understand how their disabilities are diagnosed Gathering information from students high school guidance counselors and from medical and other professionals authors Paquette and Tuttle also show teens they are not alone in their struggles profiling famous people that also have learning disabilities Their Time Has Come Valerie Leiter, 2012-03-08 The lives of youth with disabilities have changed radically in the past fifty years Youth who are coming of age right now are the first generation to receive educational services throughout childhood and adolescence Disability policies have opened up opportunities to youth and they have responded by getting higher levels of education than ever before Yet many youth are being left behind compared to their peers without disabilities Youth with disabilities often still face major obstacles to independence In *Their Time Has Come* Valerie Leiter argues that there are crucial missing links between federal disability policies and the lives of young people Youth and their parents struggle to gather information about the resources that disability policies have created and youth are not typically prepared to use their disability rights effectively Her argument is based on thorough examination of federal disability policy and interviews with young people with disabilities their parents and rehabilitation professionals Attention is given to the diversity of expectations the resources available to them and the impact of federal policy and public and private attitudes on their transition to adulthood *Digital Youth with Disabilities* Meryl Alper, 2014-11-07 An examination of media and technology use by school aged youth with disabilities with an emphasis on media use at home Most research on media use by young people with disabilities focuses on the therapeutic and rehabilitative uses of technology less attention has been paid to their day to day encounters with media and technology the mundane sometimes pleasurable and sometimes frustrating experiences of hanging out messing around and geeking out In this report Meryl Alper attempts to repair this omission examining how school aged children with disabilities use media for social and recreational purposes with a focus on media use at home In doing so she reframes common assumptions about the relationship between young people with disabilities and technology and she points to areas for further study into the role of new media in the lives of these young people their parents and their caregivers Alper considers the notion of screen time and its inapplicability in certain cases when for example an iPad is a child's primary mode of communication She looks at how young people with various disabilities use media to socialize with caregivers siblings and friends looking more closely at the stereotype of the socially isolated young person with disabilities And she examines issues encountered by parents in selecting purchasing and managing media for youth with such specific disabilities as ADHD and autism She considers not only children's individual preferences and needs but also external factors including the limits of

existing platforms content and age standards
