Teilhard De Chardin An Analysis And Assessment:

Teilhard de Chardin David Gareth Jones,1970 Integrative Theology Gordon R. Lewis,Bruce A. Demarest,2010-09-21
Integrative Theology is designed to help graduate students in a pluralistic world utilize a standard method of fruitful research Each chapter on a major doctrine 1 states a classic issue of ultimate concern 2 surveys alternative past and present answers and 3 tests those proposals by their congruence with information on the subject progressively revealed from Genesis to Revelation Then the chapter 4 formulates a doctrinal conclusion that consistently fits the many lines of biblical data 5 defends that conviction respectfully and finally 6 explores the conclusion s relevance to a person s spiritual birth growth and service to others all for the glory of God Why the title Integrative Theology In each chapter steps 2 6 integrate the disciplines of historical biblical systematic apologetic and practical theology After the Monkey Trial Christopher M. Rios,2014-08-28
In the well known Scopes Monkey Trial of 1925 famously portrayed in the film and play Inherit the Wind William Jennings Bryan s fundamentalist fervor clashed with defense attorney Clarence Darrow s aggressive agnosticism illustrating what current scholars call the conflict thesis It appeared regardless of the actual legal question of the trial that Christianity and science were at war with each other Decades later a new generation of evangelical scientists struggled to restore peace After the Monkey Trial is the compelling history of those evangelical scientists in Britain and America who unlike their fundamentalist cousins supported mainstream scientific conclusions of the world and resisted the anti science impulses of the era This book focuses on two organizations the American Scientific Affiliation and the Research Scientists Christian Fellowship today Christians in Science who for more than six decades have worked to reshape the evangelical engagement with science and redefine what it means to be a creationist New Dictionary of Theology: Historical and Systematic (Second Edition) ,2016-04-21 Since its first publication in 1988 the New Dictionary of Theology has been widely appreciated by students and readers as a trustworthy and informative guide After almost thirty years however there are many new writers issues and themes on the agenda for theology does not stand still Hence this completely revised second edition includes over 400 new articles in the full set of over 800 Many of the original articles have been expanded and updated and almost all have additional bibliographical references Since material on biblical theology is now covered at length in IVP s New Dictionary of Biblical Theology this volume is therefore more specifically a dictionary of historical and systematic theology The New Dictionary of Theology Historical and Systematic has an international team of contributors and many are acknowledged experts in their fields The Dictionary combines excellence in scholarship with a high standard of clarity and insight into current theological issues yet it avoids being unduly technical Students teachers and ministers as well as scholars and everyone seeking a better understanding of theology will value it as an indispensable reference work The volume is enhanced by a spacious and clear design an extensive and easy to use cross reference system and bibliographies which feature the best and most readily available works in English **Catholicism and Science** Peter M.J Hess,Paul L.

Allen,2008-03-30 When most people think about Catholicism and science they will automatically think of one of the famous events in the history of science the condemnation of Galileo by the Roman Catholic Church But the interaction of Catholics with science has been and is far more complex and positive than that depicted in the legend of the Galileo affair Understanding the natural world has always been a strength of Catholic thought and research from the great theologians of the Middle Ages to the present day and science has been a hallmark of Catholic education for centuries Catholicism and Science a volume in the Greenwood Guides to Science and Religion series covers all aspects of the relationship of science and the Church How Catholics interacted with the profound changes in the physical sciences natural philosophy and biological sciences natural history during the Scientific Revolution how Catholic scientists reacted to the theory of evolution and their attempts to make evolution compatible with Catholic theology and the implications of Roman Catholic doctrinal and moral teachings for neuroscientific research and for investigation into genetics and cloning The volume includes primary source documents a glossary and timeline of important events and an annotated bibliography of the most useful works for further research

Necroculture Charles Thorpe,2016-06-24 In this book the author draws on Karl Marx s writings on alienation and Erich Fromm s conception of necrophilia in order to understand these aspects of contemporary culture as expressions of the domination of the living by the dead under capitalism Necroculture is the ideological reflection and material manifestation of this basic feature of capitalism the rule of dead capital over living labor The author argues that necroculture represents the subsumption of the world by vampire capital

John Warwick Montgomery's Legal Apologetic Ross Clifford,2016-01-22 Dr Montgomery is one of our leading Christian apologists His writings have influenced several generations of apologists from around the globe His debates are legendary This book purports to break new ground apologetically as it assesses Dr Montgomery s work It focuses on his legal historical apo logetic and in the process reframes it for both for the tough minded and the tender hearted It shows not only the rationality of Montgomery s work but also that his writings pave the way for an apologetic to New Age follo wers and to those who place experience before reason A special feature of this analysis concerns Montgomery s apologetic insights on the occult and paganism This book also breaks new ground as the legal apologetic model has not been previously assessed it illustrates that a juridical apologetic style has a rich history dating back to the Gospels themselves The present work should thus be of particular interest to apologists theologians philosophers of religion pastors and all who are concerned to share the legal historical fact of the Resurrection of Jesus together with its relevance in a secular age

Ascension And Ecclesia Douglas Farrow,2004-07-01 Recent theology offers few attempts to come to grips with the meaning and implications of the ascension of Jesus Professor Farrow begins with a discussion of the biblical treatment of the ascension and Eucharistic celebration from which emerges the unique ecclesial worldview There are chapters on the treatment of these ideas by Irenaeus Origen and Augustine and on developments up to the Reformation He explores the link between ideas of the ascension cosmology and ecclesiology Farrow

goes on to examine the difficulties faced by the doctrine of ascension in the modern scientific world In a final chapter he calls for an ecclesiology which does not marginalise the human Jesus *Holy People of the World* Phyllis G. Jestice, 2004-12-15 A cross cultural encyclopedia of the most significant holy people in history examining why people in a wide range of religious traditions throughout the world have been regarded as divinely inspired The first reference on the subject to span all the world s major religions *Holy People of the World A Cross Cultural Encyclopedia* examines the impact of individuals who through personal charisma and inspirational deeds served both as glorious examples of human potential and as envoys for the divine *Holy People of the World* contains nearly 1 100 biographical sketches of venerated men and women Written by religious studies experts and historians each article focuses on the basic question How did this person come to be regarded as holy In addition the encyclopedia features 20 survey articles on views of holy people in the major religious traditions such as Islam Buddhism and African religions as well as 64 comparative articles on aspects of holiness and veneration across cultures such as awakening and conversion experiences heredity gender asceticism and persecution Whether exploring by religion culture or historic period this extensively cross referenced resource offers a wealth of insights into one of the most revealing and least explored common denominators of spiritual traditions **Readings in Christian Ethics** David K.
