Tel Quel Reader:

The Tel Quel Reader Patrick Ffrench, Roland-François Lack, 1998 The work of the French literary review intellectual grouping and publishing team Tel Quel had a profound impact on literary and cultural debate in the 1960s and 70s THE TEL QUEL READER presents for the first time in English many of the key essays written by the Tel Quel group The collection filled a much needed gap in the literature available on the poststructuralist movement **The Tel Quel Reader** Patrick Ffrench, Roland-François Lack, 1998 The Tel Quel Reader presents for the first time in English many of the key essays that played an instrumental role in shaping the contours of literary and cultural debate in the 1960s and 1970s Tel Quel was a French journal and publishing team that printed some of the earliest work by Derrida Bataille Kristeva Barthes Foucault and Deleuze From its beginning in 1960 to its closure in 1982 TQ published some of the key essays of major poststructuralist thinkers The Reader includes essays available in English for the first time by Kristeva and Foucault and a fascinating interview with Barthes It provides a unique insight into the poststructuralist movement and presents some of the pioneering essays on literature and culture gender film semiotics and psychoanalysis Although articles included here cover diverse areas from the semiology of paragrams to the readability of Sade a common perspective runs through them the recognition of excess and the seduction of writing The Tel Quel Reader fills a crucial gap in the English literature on literary and cultural theory and presents a case for the enduring value of the journal's enterprise Robert Rauschenberg and Surrealism Gavin Parkinson, 2023-03-23 The art of Robert Rauschenberg 1925 2008 is usually viewed as quite distinct from Surrealism a movement which the artist himself displayed some hostility towards However Rauschenberg had a very positive reception among Surrealists particularly across the period 1959 69 In the face of Rauschenberg's avowals of his own literalism and insistence on his art as facts this book gathers generous evidence of the poetic metaphorical allusive associative and connotative dimensions of the artist's oeuvre as identified by Surrealists and thus extrapolates new readings from Rauschenberg's key works on that basis By viewing Rauschenberg's art against the expansion of the cultural influence of the United States in Europe in the period after the Second World War and the increasingly politicized activities of the Surrealists in the era of the Algerian War of Independence 1954 62 Robert Rauschenberg and Surrealism shows how poetic inference of the artist's work was turned towards political interpretation By analysing Rauschenberg's art in the context of Surrealism and drawing from it new interpretations and perspectives this volume simultaneously situates the Surrealist movement in 1960s American art criticism and history The Archaeology of Foucault Stuart Elden, 2022-12-01 On 20 May 1961 Foucault defended his two doctoral theses on 2 December 1970 he gave his inaugural lecture at the Collège de France Between these dates he published four books travelled widely and wrote extensively on literature the visual arts linguistics and philosophy He taught both psychology and philosophy beginning his explorations of the question of sexuality Weaving together analyses of published and unpublished material this is a comprehensive study of this crucial period As well as Foucault's major texts it

discusses his travels to Brazil Japan and the USA his time in Tunisia and his editorial work for Critique and the complete works of Nietzsche and Bataille It was in this period that Foucault developed the historical philosophical approach he called archaeology the elaboration of the archive which he understood as the rules that make possible specific claims In its detailed study of Foucault s archive the book is itself an archaeology of Foucault in another sense both excavation and reconstruction This book completes a four volume series of major intellectual histories of Foucault Foucault s Last Decade was published by Polity in 2016 Foucault The Birth of Power followed in 2017 and The Early Foucault in 2021 *The Avant-Postman* David Vichnar,2023-11-01 The Avant Postman explores a broad range of innovative postwar writing in France Britain and the United States Taking James Joyce s revolution of the word in Ulysses and Finnegans Wake as a joint starting point David Vichnar draws genealogical lines through the work of more than fifty writers up to the present including Alain Robbe Grillet B S Johnson William Burroughs Christine Brooke Rose Georges Perec Kathy Acker Iain Sinclair H l ne Cixous Alan Moore David Foster Wallace and many others Centering the exploration around five writing strategies employed by Joyce narrative parallax stylistic metempsychosis concrete writing forgery and neologising the logos the book reveals the striking continuities and developments from Joyce s day to our own Discipline and Practice Stefan Herbrechter,Ivan Callus,2004 Has theory become resistible Has it betrayed its promise and sold out on its practice Should theory after having become a discipline still lay claims on the radical or should it embrace its establishment within the university What future s could theory have if there is dis agreement about its present s and its past s and what and how should it from now proceed to read

Posthuman Worlds Adolfo Cacheiro,2022-03-03 Posthuman Worlds Roberto Bola o s Narrative and Virtual Reality presents interpretations of several novels and one short story by Roberto Bola o As befits the global setting of most of these narratives they are analyzed from the perspective of global culture and politics Particular attention is paid to transnational European politics as this topic is central to an understanding of the intertwined themes of politics and the law in Bola o s work In Distant Star and Labyrinth these themes exist within the context of a preoccupation with personal identity and ideology Adolfo Cacheiro utilizes psychoanalytic interpretation and philosophical exegesis to clarify the subjective component of this preoccupation in the aforementioned texts The law is also a prominent theme of The Savage Detectives which Cacheiro interprets in relation to mythology One of the most innovative aspects of this book is the discussion of the role of virtual reality in Amulet and 2666 These novels are read as representations of a posthuman world that manifest an intertextual relationship with science fiction In 2666 virtual reality unifies the diverse components of a world system in time and space A phenomenological investigation of this reality supports the conclusion that the principle subject matter of 2666 is a naturalistic theology based on technology **The Strategy of Maoism in the West** Jones, David M.,Smith, M. L.R.,2022-06-16 Investigating 20th century Chinese ideology through the two main elements of passionate belief and cultivation of rage this timely book examines how Maoist thinking has influenced Western politics **Foucault 2.0** Eric

Paras,2020-01-14 A dramatically new interpretation of the development of the thought of Michel Foucault one of the 20th century's most influential thinkers In this lucid and groundbreaking work Eric Paras reveals that our understanding of the philosophy of Michel Foucault must be radically revised Foucault's critical axes of power and knowledge which purposefully eradicated the concept of free will reappear as targets in his later work Paras demonstrates the logic that led Foucault to move from a microphysics of power to an aesthetics of individual experience He is the first to show a transformation that not only placed Foucault in opposition to the archaeological and genealogical positions for which he is renowned but aligned him with some of his fiercest antagonists Foucault 2.0 draws on the full range of the philosopher's writing and of the work of contemporaries who influenced and sometimes vehemently opposed his ideas To fill the gaps in Foucault's published writings that have so far limited our conception of the arc of his thought Paras analyzes the largely untapped trove of lectures Foucault delivered to teeming Paris audiences as Professor of the College de France for more than a decade At the same time Foucault 2.0 highlights the background against which Foucault carried out his most foundational work the unrest of 1968 the prison reform movement of the early 1970s and the Iranian Revolution of 1979 Carefully assembling the fragments of a thinker who remains but half understood Eric Paras has composed a seminal book essential reading for novices and initiates alike

Occasional Deconstructions Julian Wolfreys,2012-02-01 In *Occasional Deconstructions* Julian Wolfreys challenges the notion that deconstruction is a critical methodology offering instead a number of reintroductions or reorientations to the texts of Jacques Derrida and the idea or possibility of deconstructions Proceeding from specific readings of various texts both film and literary as well as mobilizing a number of issues from Derrida's recent work surrounding questions of ethics politics and identity Wolfreys considers the role of deconstruction in broader academic and institutional contexts and questions whether in fact deconstruction can be called upon to function as theory at all In this book Wolfreys suggests that the patient necessary work of reading in which response and responsibility to the other has a chance to manifest itself is necessary to the always political and ethical tracing of the material and the historical He also contends that reading should be an encounter that gives place to an acknowledgment of the other and that this singular act by which one is introduced to the other can never be programmed
