ABSTRACT

This paper presents a comprehensive comparative analysis of telecommunication regulation and policy frameworks in the United States (USA) and various African countries. Telecommunications play a pivotal role in socio-economic development, and the regulatory environment significantly influences the sector's performance. The study explores the historical evolution, regulatory bodies, and frameworks in both regions, aiming to identify commonalities, disparities, and the impact of regulatory approaches on market dynamics. The review begins by delineating the theoretical foundations of telecommunications regulation, emphasizing concepts such as market liberalization, competition, and regulatory governance. A historical overview traces the development of regulatory frameworks in the USA and Africa, shedding light on the contextual factors that shaped
