Television The American Medium In Crisis:

The Quarterly Journal of the Library of Congress Library of Congress,1980 **TV's American Dream** Barbara Selznick,2025-01-23 TV s American Dream examines how the U S television industry in the 2010s pursued audiences whose ideas about hope fairness work and economic class were shaped by the Great Recession While Americans navigated the trauma of the economic meltdown the television industry faced growing pressure stemming from new program distribution and viewing methods increasingly fragmented audiences shifts in methods of advertising and regulatory changes To cut through the clutter of television content to appeal to elusive viewers television programming reimagined some of the traditional representations of the American Dream and continued to bolster others Exploring shows on different platforms from legacy networks to Netflix Selznick takes a deep dive into representations of the American Dream on television Each chapter of this book focuses on a particular strategy mobilized in the second decade of the new century to speak to audiences about their expectations for and concerns about the Dream Bringing together research on industrial practices with an examination of sociocultural context TV s American Dream demonstrates how interconnected forces give rise to the television programs that reinforce and redefine audiences ideas about the world in which they live **Television** Lauren R.

Sass,Debbie Sontag,1979 **Appreciating the Art of Television** Ted Nannicelli,2016-09-13 Contemporary television has been marked by such exceptional programming that it is now common to hear claims that TV has finally become an art In Appreciating the Art of Television Nannicelli contends that televisual art is not a recent development but has in fact existed for a long time Yet despite the flourishing of two relevant academic subfields the philosophy of film and television aesthetics there is little scholarship on television in general as an art form This book aims to provide scholars active in television aesthetics with a critical overview of the relevant philosophical literature while also giving philosophers of film a particular account of the art of television that will hopefully spur further interest and debate It offers the first sustained theoretical examination of what is involved in appreciating television as an art and how this bears on the practical business of television scholars critics students and fans namely the comprehension interpretation and evaluation of specific televisual artworks

American Mass Incarceration and Post-Network Quality Television Lee Flamand, 2025-10-01 Far more than a building of brick and mortar the prison relies upon gruesome stories circulated as commercial media to legitimize its institutional reproduction Perhaps no medium has done more in recent years to both produce and intervene in such stories than television This unapologetically interdisciplinary work presents a series of investigations into some of the most influential and innovative treatments of American mass incarceration to hit our screens in recent decades Looking beyond celebratory accolades Lee A Flamand argues that we cannot understand the eagerness of influential programs such as OZ The Wire Orange Is the New Black 13th and Queen Sugar to integrate the sensibilities of prison ethnography urban sociology identity politics activism and even Black feminist theory into their narrative structures without understanding how such critical postures relate to the cultural aspirations and commercial goals of a quickly evolving TV industry and the most deeply ingrained continuities of American storytelling practices

While America Watches Jeffrey Shandler, 2000-09-21 The Holocaust holds a unique place in American public culture and as Jeffrey Shandler argues in While America Watches it is television more than any other medium that has brought the Holocaust into our homes our hearts and our minds Much has been written about Holocaust film and literature and yet the medium that brings the subject to most people television has been largely neglected Now Shandler provides the first account of how television has familiarized the American people with the Holocaust He starts with wartime newsreels of liberated concentration camps showing how they set the moral tone for viewing scenes of genocide and then moves to television to explain how the Holocaust and the Holocaust survivor have gained stature as moral symbols in American culture From early teleplays to coverage of the Eichmann trial and the Holocaust miniseries as well as documentaries popular series such as All in the Family and Star Trek and news reports of recent interethnic violence in Bosnia Shandler offers an enlightening tour of television history Shandler also examines the many controversies that televised presentations of the Holocaust have sparked demonstrating how their impact extends well beyond the broadcasts themselves While America Watches is sure to continue this discussion and possibly the controversies among many readers

We Keep America on Top of the World Daniel Hallin, 2005-10-25 We Keep America on Top of the World is a lucid exploration of contemporary American journalism with particular emphasis on its influential and controversial component television news Daniel Hallin's discussion encompasses the central and most controversial issues in the study of journalism the wars in Vietnam and Central America US Soviet summits the origin of the ten second soundbite the differences between print and television journalism and the tension between professionalism and populism We Keep America on Top of the World offers a distinctive approach to understanding an institution torn between the imperatives of the
