Television and the Self Kathleen M. Ryan, Deborah A. Macey, 2013-04-05 Sitting prominently at the hearth of our homes television serves as a voice of our modern time Given our media saturated society and television's prominent voice and place in the home it is likely we learn about our society and selves through these stories These narratives are not simply entertainment but powerful socializing agents that shape and reflect the world and our role in it Television and the Self Knowledge Identity and Media Representation brings together a diverse group of scholars to investigate the role television plays in shaping our understanding of self and family This edited collection's rich and diverse research demonstrates how television plays an important role in negotiating self and goes far beyond the treacly very special episodes found in family sitcoms in the 1980s Instead the authors show how television reflects our reality and helps us to sort out what it means to be a twenty first century man or woman

Performing Television Elizabeth Klaver, 2000 Klaver applies post structuralist theories of subjectivity to drama while ranging through Beckett's plays National Hockey League games The Tonight Show gay and lesbian drama minority drama avant garde performance and the topics of theatrical paranoia the mediatized Imaginary and the spectatorial gaze By navigating the political minefield of television sex and violence Klaver shows how drama can subvert those ideologies that would discipline the performance arts

Quality TV Janet

McCabe, Kim Akass, 2007-09-26 In his seminal book *Television's Second Golden Age* Robert Thompson described quality TV as best defined by what it is not it is not regular TV Audacious maybe but his statement renewed debate on the meaning of this highly contentious term Dealing primarily with the post 1996 era shaped by digital technologies and defined by consumer choice and brand marketing this book brings together leading scholars established journalists and experienced broadcasters working in the field of contemporary television to debate what we currently mean by quality TV They go deep into contemporary American television fictions from *The Sopranos* and *The West Wing* to *CSI* and *Lost* innovative sometimes controversial always compelling dramas which one scholar has described as now better than the movies But how do we understand the emergence of these kinds of fiction Are they genuinely new What does quality TV have to tell us about the state of today's television market And is this a new Golden Age of quality TV Original often polemic each chapter proposes new ways of thinking about and defining quality TV There is a foreword from Robert Thompson and heated dialogue between British and US television critics Also included and a great coup are interviews with *W* Snuffy Walden scored *The West Wing* among others and with David Chase *The Sopranos* creator Quality TV provides throughout groundbreaking and innovative theoretical and critical approaches to studying television and for understanding the current and future TV landscape

Halliwell's Television Companion Leslie Halliwell, 1986 **Television Violence** P. T. Kelly, 1999 If one culprit is suspected above all others for encouraging society to become more violent and unfeeling it is television This medium which has become so pervasive in the last 50 years seems to play an enormous role in the lives of the vast majority of people But who controls the content which exerts such an enormous influence and to an extent controls the people What are they doing now and what will they be doing tomorrow Is violence essential to sell toothpaste and hamburgers What are our children becoming and what will their children be like Will every child carry a gun or other weapon just waiting for someone to trigger their violent nature and ignite their preprogrammed anger **Reality TV** June Deery, 2015-02-11 Reality TV has changed television and changed reality even if we are not among the millions who watch Written for a broad audience this accessible overview addresses questions such as How real is reality TV How do its programs represent gender sex class and race How does reality TV relate to politics to consumer society to surveillance What kind of ethics are on display Drawing on current media research and the author's own analysis this study encompasses the history and evolution of reality television its production of reflexive selves and ordinary celebrity its advertising and commercialization and its spearheading of new relations between television and social media To dismiss this programming as trivial is easy Deery demonstrates that reality television merits serious attention and her incisive analysis will interest students in media studies cultural studies politics sociology and anyone who is simply curious about this global phenomenon **American Remakes of British Television** Carlen Lavigne, Heather Marcovitch, 2011-03-31 Ever since Norman Lear remade the BBC series *Till Death Us Do Part* into *All in the Family* American remakes of British television shows have become part of the American cultural fabric Indeed some

of the programs currently said to exemplify American tastes and attitudes from reality programs like American Idol and What Not to Wear to the mock documentary approach of The Office are adaptations of successful British shows. Carlen Lavigne and Heather Marcovitch's *American Remakes of British Television Transformations and Mistranslations* is a multidisciplinary collection of essays that focuses on questions raised when a foreign show is adapted for the American market. What does it mean to remake a television program? What does the process of Americanization entail? What might the success or failure of a remade series tell us about the differences between American and British producers and audiences? This volume examines British to American television remakes from 1971 to the present. The American remakes in this volume do not share a common genre format or even level of critical or popular acclaim. What these programs do have in common, however, is the sense that something in the original has been significantly changed in order to make the program appealing or accessible to American audiences. The contributors display a multitude of perspectives in their essays. British to American television remakes as a whole are explained in terms of the market forces and international trade that make these productions financially desirable. *Sanford and Son* is examined in terms of race and class issues. Essays on *Life on Mars* and *Doctor Who* stress television's role in shaping collective cultural memories. An essay on *Queer as Folk* explores the romance genre and also talks about differences in national sexual politics. An examination of *The Office* discusses how the American remake actually endorses the bureaucracy that the British original satirized.
