this new edition addresses profound changes in Syria's domestic and regional circumstances. The domestic political scene witnessed a major transition with the passing of Syria's ruler for 30 years, Hafiz al Asad, and the unexpectedly smooth succession of his son Bashar as new president in 2000. The regional situation has changed even more since the first edition came out in 1996. Peace talks with Israel collapsed in 2000 and three years later the United States invaded Iraq, beginning an occupation of Syria's neighbor for an indeterminate period with incalculable consequences. In addition to the A to Z dictionary, the second edition contains a chronology that presents fairly general information on early centuries and becomes quite detailed for the most recent years. The bibliography also reflects significant changes in research on Syria. Not only does the bibliographical essay highlight important new monographs, it introduces the reader to credible Internet resources for guides to travel and popular culture as well as news and statistical data at major international organizations.

T&T Clark Handbook of Food in the Hebrew Bible and Ancient Israel Janling Fu, Cynthia Shafer-Elliott, Carol Meyers, 2021-11-04

Food and feasting are key themes in the Hebrew Bible and the culture it represents. The contributors to this handbook draw on a multitude of disciplines to offer an overview of food in the Hebrew Bible and ancient Israel. Archaeological materials from biblical lands along with the recent interest in ethnographic data, a new focus in anthropology, and emerging technologies provide valuable information about ancient foodways. The contributors examine not only the textual materials of the Hebrew Bible and related epigraphic works but also engage in a wider archaeological, environmental, and historical understanding of ancient Israel as it pertains to food. Divided into five parts, this handbook examines and considers environmental and socio-economic issues such as climate and trade, the production of raw materials, and the technology of harvesting and food processing. The cultural role of food and meals in festivals, holidays, and biblical regulations is also discussed, as is the way food and drink are treated in biblical texts, in related epigraphic materials, and in iconography.
