**Tell Me Something I Don't Know: Dialogues in Epistemology** Michael Veber, 2018-02-28 Tell Me Something I Don't Know is a collection of original dialogues in epistemology suitable for student readers but also of interest to experts. Familiar problems, theories, and arguments are explored; second-order knowledge, epistemic closure, the preface paradox, skepticism, pragmatic encroachment, the Gettier problem, and more. New ideas on each of these issues are also offered, defended, and critiqued, often in humorous and entertaining ways.

**Tell Me When You Feel Something** Vicki Grant, 2021-06-15 The perfect after-school job turns deadly for teens working as simulated patients at the local med school. Everyone has something to hide, and no one is safe in this contemporary YA thriller that exposes the dark reality of MeToo in the world of medicine for fans of Karen McManus and Holly Jackson. It seemed like a cool part-time program: being a simulated patient for med school students to practice on. But now vivacious, charismatic Viv lies in a very real coma. Cellphone footage just leads to more questions: What really happened? Other kids suspect it was not an intentional overdose, but each has a reason why they can't tell the truth. Through intertwining and conflicting narratives, a twisted story unfolds of trust betrayed as we sift through the seemingly innocent events leading up to the tragic night. Perhaps simulated patients aren't the only people pretending to be something they're not.
