Prescriptivism Joan C. Beal, Carmela Nocera, Massimo Sturiale, 2008 The colloquium *Perspectives on Prescriptivism* 20 22 April 2006 was hosted by the University of Catania in Ragusa The organisers wished to encourage participants to look at linguistic prescriptivism from a wide range of perspectives Some of the questions raised are answered in this volume

Zionkowski, 2001-02-02 This book examines how the concept of the poet as a

male professional emerged during the Restoration and eighteenth century Analyzing works by writers from Rochester to Johnson Linda Zionkowski argues that the opportunities for publication created by the growth of a commercial market in texts profoundly challenged aristocratic conceptions of authorship and altered the status of professional poets on the hierarchies of class and gender The book proposes that during this period discourse about the poet's social role both revealed and produced a crucial shift in configurations of masculinity the belief that commodifying their mental labor undermined writers cultural authority gave way to a celebration of the market's function as the proving ground for both literary merit and bourgeois manhood **The Rhetoric of Literary Communication** Virginie Iché, Sandrine

Sorlin, 2022-01-31 Building on the notion of fiction as communicative act this collection brings together an interdisciplinary range of scholars to examine the evolving relationship between authors and readers in fictional works from 18th century English novels through to contemporary digital fiction The book showcases a diverse range of contributions from scholars in stylistics rhetoric pragmatics and literary studies to offer new ways of looking at the author reader channel drawing on work from Roger Sell Jean Jacques Lecercle and James Phelan The volume traces the evolution of its form across historical periods genres and media from its origins in the conversational mode of direct address in 18th century English novels to the use of second person narratives in the 20th century through to 21st century digital fiction with its implicit requirement for reader participation The book engages in questions of how the author reader channel is shaped by different forms and how this continues to evolve in emerging contemporary genres and of shifting ethics of author and reader involvement This book will be of particular interest to students and scholars interested in the intersection of pragmatics stylistics and literary studies

Romantic Poets and the Culture of Posterity Andrew Bennett, 1999-12-02 This 1999 book examines the way in which the Romantic period's culture of posterity inaugurates a tradition of writing which demands that the poet should write for an audience of the future the true poet a figure of neglected genius can be properly appreciated only after death Andrew Bennett argues that this involves a radical shift in the conceptualization of the poet and poetic reception with wide ranging implications for the poetry and poetics of the Romantic period He surveys the contexts for this transformation of the relationship between poet and audience engaging with issues such as the commercialization of poetry the gendering of the canon and the construction of poetic identity Bennett goes on to discuss the strangely compelling effects which this reception theory produces in the work of Wordsworth Coleridge Keats Shelley and Byron who have come to embody for posterity the figure of the Romantic poet *The Rise of the Novel* Nicholas Seager, 2017-09-16 Why have scholars located the emergence

of the novel in eighteenth century England What historical forces and stylistic developments helped to turn a disreputable type of writing into an eminent literary form This Reader's Guide explores the key critical debates and theories about the rising novel from eighteenth century assessments through to present day concerns Nicholas Seager Surveys major criticism on authors such as Aphra Behn Daniel Defoe Samuel Richardson Henry Fielding and Jane Austen Covers a range of critical

approaches and topics including feminism historicism postcolonialism and print culture Demonstrates how critical work is interrelated allowing readers to discern trends in the critical conversation Approachable and stimulating this is an invaluable introduction for anyone studying the origins of the novel and the surrounding body of scholarship **In Praise of Commercial Culture** Tyler Cowen, 2000-04-14 Cowen argues that the capitalist market economy is a vital but underappreciated institutional framework for supporting a variety of artistic visions His philosophy stands in opposition to the cultural pessimism of conservatives neoconservatives the Frankfurt School and some versions of the political correctness and multiculturalist movements
