The Family In Political Thought:

The Family in Political Thought Jean Bethke Elshtain, 1982 *The Family in Christian Social and Political Thought* Brent Waters, 2007-07-19 An alternative voice in the culture wars over family values Brent Waters proposes a normative account of the family's role in social and political ordering that draws upon a spectrum of theological and philosophical resources He contends that when families are properly ordered they are oriented toward broader spheres of human association Family Politics Scott Yenor, 2011 With crisp prose and intellectual fairness Family Politics traces the treatment of the family in the philosophies of leading political thinkers of the modern world What is family What is marriage In an effort to address contemporary society's disputes over the meanings of these human social institutions Scott Yenor carefully examines a roster of major and unexpected modern political philosophers from Locke and Rousseau to Hegel and Marx to Freud and Beauvoir He lucidly presents how these individuals developed an understanding of family in order to advance their goals of political and social reform Through this exploration Yenor unveils the effect of modern liberty on this foundational institution and argues that the quest to pursue individual autonomy has undermined the nature of marriage and jeopardizes its future **The Palgrave Macmillan Dictionary of Political Thought** Roger Scruton, 2007-02-07 This new edition takes stock of the revolutionary changes that have taken place since the dictionary was first published in 1982 1790 entries cover every aspect of political thought providing an indispensable guide to the thought the wisdom and the folly of modern politics by one of the most lucid philosophers of our time **Western Political Thought** Robert Eccleshall, Michael Kenny, 1995 This is a guide to the vast amount of literature on the history of political thought which has appeared in English since 1945 The editors provide an annotation of the content of many entries and where appropriate indicate their significance controversial nature and readability **An Introduction to Political Thought** Peri Roberts, Peter Sutch, 2004-12 An Introduction to Political Thought emphasizes a dual approach to political theory by providing a chronological overview of both major figures and texts as well as an understanding of the development of key concepts and themes In this way the authors provide a basic sense of the history and development of political thought and a critical grasp of the theoretical and philosophical issues at the heart of politics Beginning with the idea that laws and constitutions are only beneficial insofar as they give effective expression to our moral and political beliefs the authors argue that moral and political ideas are the foundations of politics Political philosophers covered in depth include Plato Aristotle Hobbes Locke Rousseau Marx Bentham Rawls and Burke Key concepts such as the moral order liberty human nature freedom the social contract distributive justice liberalism socialism feminism human rights and multiculturalism are also all covered In exploring these issues the authors offer a critical guide through key arguments in the history of political thought and contemporary political theory *Origin Stories in Political Thought* Joanne Harriet Wright, 2004-01-01 Origin stories are a recurring motif in the history of political thought Presented as narratives that describe the beginnings of politics and power these stories are

among the most provocative and politically contentious means by which Western society organizes and represents its experience. Indeed, as scripts of citizenship, origin stories seek to manufacture consent to a preconceived and hierarchical political vision. Joanne H. Wright's *Origin Stories in Political Thought* examines Plato's *Timaeus*, Hobbes's story of the state of nature and the social contract, and early Second Wave feminist stories about the beginnings of patriarchal social relations. Using a historically sensitive feminist methodology, Wright documents and deconstructs the tradition of telling origin stories in the larger history of political thought. Although individual tales have been assessed in current scholarship, the motif of the origin story itself has until now escaped systematic analysis. With meticulous research and convincing conclusions, *Origin Stories in Political Thought* makes a groundbreaking and valuable contribution to both feminist and political studies.

Political Thought Hunter Baker, 2012-07-31 Politics affect everyone everywhere. Yet most people do not know how to communicate or think methodically much less unemotionally about the issues at hand. What we need is for our thinking to be grounded in the basic framework of order, freedom, justice, and equality. Award-winning professor Hunter Baker helps political amateurs gain a foundational understanding of the subject and encourages seasoned political observers to find a fresh perspective in this book. Learn how to fruitfully consider and discuss politics and gain a greater capacity for evaluating political proposals and the claims that go with them.

Western Political Thought Urmila Sharma, S.K. Sharma, 2006 The Significance Of Political Thought Cannot Be Overemphasized. The Task Of Understanding The Deeper Implications Of The Present Situation And The Future Planning Can Be Assisted By A Careful Study Of Political Thought Of The Ages. The Study Of Political Thought In The Historical Perspective Leads To Mature Thinking And Enables The Political Leaders To Solve Contemporary Problems In A Better Way. The Political Thought Of Modern World Is Based On Western Political Thought. It Is Always Preferred To Begin The Study Of Political Thought With The Western Thinkers. Better Say Greeks Because Unlike Their Eastern Counterpart Their Speculations Are Exclusively Contained In Independent Treatises And Do Not Form Part Of Literature Which Was Predominantly Religious And Ethical. Accordingly The Present Volume Begins With Homer And Includes In Its Study The Prominent Thinkers Of The West Of All Ages: Plato, Aristotle, Aquinas, Machiavelli, Hobbes, Locke, Rousseau, Hume, Burke, to name but a few. Analytic in presentation, the present book is concise and easily comprehensible. Since its matter has been drawn from authentic originals and the books of eminent Western authors have been referred to, the book aptly caters with the academic needs of students of political science. It provides a bibliography and also a list of questions set at various university examinations aiming at facilitating the preparation for examination. While the teachers will find this book an ideal reference book, the general readers will find it highly informative.

Western Political Thought-2 Mr. Rohit Manglik, 2023-12-23 In this book we will study about modern political philosophers such as Hobbes, Locke, Rousseau, and Marx and their influence on contemporary politics.
