The Fantasist:

A Sleepwalker's Guide to Social Media Tony D. Sampson, 2020-07-09
Positing online users as sleepwalkers Tony Sampson offers an original and compelling approach for understanding how social media platforms produce subjectivities Drawing on a wide range of theorists including A N Whitehead and Gabriel Tarde he provides tools to track his sleepwalker through the dark refrain of social media a refrain that spreads through viral platform architectures with a staccato like repetition of shock events rumours conspiracy misinformation big lies search engine weaponization data voids populist strongmen immune system failures and far right hate speech Sampson's sleepwalker is not a pre programmed smartphone junkie but a conceptual personae intended to dodge capture by data doubles and lookalikes Sleepwalkers are neither asleep nor wide awake they are a liminal experimentation in collective mimicry and self other relationality Their purpose is to stir up a new kind of community that emerges from the potentialities of revolutionary contagion At a time in which social media is influencing more people than ever A Sleepwalker's Guide to Social Media is an important reference for students and scholars of media theory digital media and social media

Knowledge and Belief Frederick F. Schmitt, 2006-11-22
Knowledge from Plato onwards has been considered in relation to justified belief Current debate has centred around the nature of the justification and whether justified belief can be considered an internal or external matter Epistemological internalists argue that the subject must be able to reflect upon a belief to complete the process of justification The externalists on the other hand claim that it is only necessary to consider whether the belief is reliably formed and argue that the ability to know by reflection is not required for a justified belief In the historical section of this book the three most important epistemologists Plato Descartes and Hume as well as the ancient epistemologies of the stoics Academics and Pyrrhonians are considered In reconsidering the history of epistemology the author is led to argue against the view that internalism is historically dominant His critique of internalism is then developed into a sustained argument against many of its forms and he goes on to defend an externalist reliabilist epistemology

Imagination and Its Pathologies James Phillips, James Morley, 2003
Madness has been viewed as a faulty mix of ideas by a deranged and violent imagination This study shows that the relation of the imagination to pathological phenomena is as diverse and complex as the human condition The imagination has the power not only to react to the world but to recreate it

Civilization and Its Enemies Lee Harris, 2004-03-11
Forgetfulness occurs when those who have been long inured to civilized order can no longer remember a time in which they had to wonder whether their crops would grow to maturity without being stolen or their children sold into slavery by a victorious foe They forget that in time of danger in the face of the enemy they must trust and confide in each other or perish They forget in short that there has ever been a category of human experience called the enemy That before 9 11 was what had happened to us The very concept of the enemy had been banished from our moral and political vocabulary An enemy was just a friend we hadn't done enough for yet Or perhaps there had been a misunderstanding or an oversight on our part something that we

could correct Our first task is therefore to try to grasp what the concept of the enemy really means The enemy is someone who is willing to die in order to kill you And while it is true that the enemy always hates us for a reason it is his reason and not ours So begins *Civilization and Its Enemies* an extraordinary tour de force by America's reigning philosopher of 9/11 Lee Harris What Francis Fukuyama did for the end of the Cold War Lee Harris has now done for the next great conflict the war between the civilized world and the international terrorists who wish to destroy it Each major turning point in our history has produced one great thinker who has been able to step back from petty disagreements and see the bigger picture and Lee Harris has emerged as that man for our time He is the one who has helped make sense of the terrorists' fantasies and who forces us most strongly to confront the fact that our enemy for the first time in centuries refuses to play by any of our rules or to think in any of our categories We are all naturally reluctant to face a true enemy Most of us cannot give up the myth that tolerance is the greatest of virtues and that we can somehow convert the enemy to our beliefs Yet as Harris's brilliant tour through the stages of civilization demonstrates from Sparta to the French Revolution to the present civilization depends upon brute force properly wielded by a sovereign Today only America can play the role of sovereign on the world stage by the use of force when necessary Lee Harris's articles have been hailed by thinkers from across the spectrum His message is an enduring one that will change the way readers think about the war with Iraq about terrorism and about our future

Wilson David Mamet, 2023-05-23 A curiously compelling novel by the Pulitzer prize winning playwright in which the internet crashes and the past is reconstructed from memories Publishers Weekly When the Internet and the collective memory of the twenty first century crashes the past is reassembled from the downloaded memories of Ginger wife of ex President Wilson The transcripts take the reader on an intellectually breathtaking tour through David Mamet's baroque fragmented world where nothing is certain except the certainty bestowed by the academy As erudite as can be engagingly mischievous and occasionally a little chilling The Sunday Times Enticing Mamet targets with luscious savvy and deadpan irony the limitless pretense of academics Review of Contemporary Fiction fiction speculative novel satire pastiche academic life scholarship near future experimental Mars settlement colonization science fiction internet dependency social political historical impact futurist modernist literary criticism popular culture philosophical humorous FIC052000 FICTION Satire FIC064000 FICTION Absurdist FIC028120 FICTION Science Fiction Humorous 9781683358794 Seeing Central Park Miller Sara C *A Broken Comedian* J Shield, 2019-02-02 Decland Bunten a hopeless and lonely comedian who dreams of being as successful as his late idol Sal Turner finds himself trapped in a desperate situation when he is framed for murder Afraid that he himself has not got long to live he throws all his energy in to creating a legacy as a brilliant comedian before he is killed The tension in this story keeps building and the jokes get funnier and funnier till in the final chapter the jokes and the tension reach a riveting climax Apart from being an eye opening suspense through the protagonist this story pays homage through reference to some of the world's greatest stand up comedians as Decland Bunten learns about the different styles and

Social Dreaming Elaine Ostry,2013-11-05 Dickens was known for his incredible imagination and fiery social protest In Social Dreaming Elaine Ostry examines how these two qualities are linked through Dickens s use of the fairy tale a genre that infuses his work To many Victorians the fairy tale was not childish it promoted the imagination and fancy in a materialistic utilitarian world It was a way of criticizing society so that everyone could understand Like Charles Perrault and the Brothers Grimm Dickens used the fairy tale to promote his ideology In this first book length study of Dickens s use of the fairy tale as a social tool Elaine Ostry applies exciting new criticism by Jack Zipes and Maria Tatar among others that examines the fairy tale in a socio historical light to Dickens s
