Interpretive Social Science Paul Rabinow, William M. Sullivan, 1987 This is a new edition of the well received Interpretive Social Science California 1979 in which Paul Rabinow and William M Sullivan predicted the increasing use of an interpretive approach in the social sciences one that would replace a model based on the natural sciences In this volume Rabinow and Sullivan provide a synthetic discussion of the new scholarship in this area and offer twelve essays eight of them new embodying the very best work on interpretive approaches to the study of human society Publisher description *Air University Review*, 1985-07 **GAO Review**, 1985 **Air university review, 1981**, 1981 [The Future of the Artificial Mind](#) Alessio Plebe, Pietro Perconti, 2022-06-08 The Future of the Artificial Mind is about the social and technological challenges posed by the new wave of artificial intelligence both from a technical and a cognitive perspective Deep neural networks have brought about tremendous technological improvements This renaissance in artificial intelligence after decades of stagnation has enabled new technologies capable of surpassing human performance as in the case of visual recognition The book reviews the key ideas that have enabled these goals to be achieved and their historical origins The book also considers some of the ethical and social challenges that the future development of artificial intelligence will face Will humans fall in love with future android dolls What will artificial sex be like And what will it be like to travel in cars that will treat us as passengers instead of drivers But predicting the future appears more magic than science But when it comes to artificial intelligence it is a constant temptation Since it is well known that the only way to get rid of a temptation is to enjoy it the hypothesis considered in the last chapter is that emerging trends point to a near future in which intelligence will be ubiquitous but it will be difficult to identify its bearer We may be heading towards an era of widespread intelligence but an intelligence without accountability *Technology-Based Training* M Labinger, P J Finch, 2014-06-28 Technology Based Training provides information pertinent to the importance and influence of technology in the field of training This book emphasizes the commercial and industrial setting at the expense of public and state provided educational system Organized into two parts encompassing eight chapters this book begins with an overview of off the shelf courseware and looks at the relationship between industry and its marketplace This text then discusses the major advances in technology based training and provides a balanced analysis of the development in technology based training Other chapters consider that the best way to assess the potential of computer based training is to develop some courses utilize them in the field and evaluate their effectiveness This book discusses as well the project management aspects of running a courseware development program The final chapter deals with the surface activity in the dissemination of information regarding what to use how to use it and

what to use it for This book is a valuable resource for trainers and managers *Area Bibliography of Japan* Ria
Koopmans-de Bruijn, 1998 Provides a general overview of literature relating to Japan and covers a broad range of subject
matter from art feminism and linguistics to corporate culture history and medicine Includes books published since 1980 that
are related to the geographical area of Japan and to Japanese culture within that area
