The Fighting Commodores Convoy Commanders In The Second World War:

The Fighting Commodores Alan Burn, 1996-05-23 As Britain came terrifyingly close to running out of supplies during the Second World War a group of retired senior naval officers returned to the sea in the role of convoy commanders and thereby turned the tide

The Convoy Angus Konstam, 2023-10-26 The Convoy represents a fresh approach to the story of the Battle of the Atlantic It is also the first to deal with the more spectacular story of HG 76 a major turning point in the naval war HG 76 sailed from Gibraltar to Britain in December 1941 and was specially targeted by the Germans A wolfpack of U boats was sent against it and the Luftwaffe was heavily committed too in a rare example of German inter service cooperation German intelligence agents in Gibraltar and Spain also knew every detail of HG 76 before it had even sailed seemingly stacking the odds in favour of the Kriegsmarine Despite this the convoy fought its way through Improved radar and sonar gave the convoy s escorts a slight edge over their opponents while the escort group was led by Commander Walker an anti submarine expert who had developed new aggressive U boat hunting tactics Previous Gibraltar convoys had been mauled by Luftwaffe bombers operating from French airfields This time though HG 76 would be accompanied by HMS Audacity the Royal Navy s first escort carrier a new type of warship purpose built to defend convoys from enemy aircraft and U boats Following seven days and nights of relentless attack the horrors of which are brought home through a series of first hand accounts the convoy finally reached the safety of a British port for the loss of only two merchant ships Its arrival was seen as the first real convoy victory of the war Brought to life by expert naval historian Angus Konstam The Convoy combines the story of the technical and tactical developments that won the Battle of the Atlantic for the Allies along with a narrative that reveals both the terror and the stubborn determination that defined the experiences of those that served on convoy duties

Naval Eyewitnesses James Goulty, 2022-11-04 Goulty tells the story from the perspective of the ordinary sailor or officer who was there The Northern Mariner Although many books have been written about naval actions during the Second World War histories and memoirs in particular few books have attempted to encompass the extraordinary variety of the experience of the war at sea That is why James Goulty s vivid survey is of such value Sailors in the Royal Navy and the Merchant Navy experienced a war fought on a massive scale on every ocean of the world in a diverse range of vessels from battleships aircraft carriers and submarines to merchant ships and fishing boats Their recollections are as varied as the ships they served in and they take the reader through the entire maritime war as it was perceived at the time by those who had direct personal knowledge of it Throughout the book the emphasis is on the experience of individuals their recruitment and training their expectations and the reality they encountered on active service in many different offensive and defensive roles including convoy duty and coastal defence amphibious operations hunting U boats and surface raiders mine sweeping and manning landing and rescue craft A particularly graphic section describes in the words of the sailors themselves what action against the enemy felt like and the impact of casualties seamen who were wounded or killed on board or were lost when their ships sank A fascinating

inside view of the maritime warfare emerges which may be less heroic than the image created by some post war accounts but it gives readers today a much more realistic impression of the whole gamut of wartime life at sea

Coastal Convoys

1939-1945 Nick Hewitt, 2009-04-20 Using official records from the National Archives personal accounts from the Imperial War Museum and other sources *Coastal Convoys 1939 1945 The Indestructible Highway* describes Britain's dependence on coastal shipping and the introduction of the convoy system in coastal waters at the outset of the war. It brings to life the hazards of the German mining offensive of 1939 the desperate battles fought in coastal waters during 1940 and 1941 and the long struggle against German air and naval forces which lasted to the end of the Second World War. Reference is also made to the important role played by coasters during the Dunkirk evacuation in 1940 and the Normandy landings in 1944

The War for England's Shores G. H. Bennett, 2025-04-22 *The War for England's Shores* examines the Kriegsmarine's S Boat offensive along the English Channel and the North Sea from 1940 to 1945 together with British and later Allied responses to nullify that threat. Very fast and armed with torpedoes and mines S Boats posed a serious threat to the convoys that were forced to run close along the British coast on a daily basis. Despite the significance of this campaign and the real threat to the whole British war economy it has been until now strangely overlooked by historians. Indeed the book highlights issues around the maritime identity of those states and navies that see themselves in oceanic terms at the expense of engagement with and operations in coastal waters. Using an array of archival materials from Britain Germany and the USA *The War for England's Shores* examines why the Germans failed to make the most of this opportunity to disrupt British trade. G. H. Bennett analyzes how the British slowly countered the threat by embracing new technologies and developing a system of sea control that gradually forced the German S Boat arm from the offensive against Britain's coastal convoys and on to the defensive in the months leading up to the invasion of France. The author also looks at the S Boat campaign along these convoy routes in the context of present day interest in littoral warfare so that the work has a vital and current appeal and offers significant and surprising insights. The book offers an unparalleled exploration of a key moment in the development of coastal warfare and will appeal to historians and enthusiasts as well as defense analysts and naval personnel

Churchill's Arctic Convoys

William Smith, 2022-09-21 The threat of Operation Barbarossa Hitler's surprise invasion of Russia in June 1941 succeeding prompted Churchill to decide to send vital military supplies to Britain's new ally. The early sailings to Northern Russia via the Arctic Ocean between August 1941 and February 1942 were largely unopposed. But this changed dramatically during the course of 1942 when German naval and air operations inflicted heavy losses on both merchantmen and their escorts. Problems were exacerbated by the need to divert Royal Navy warships to support the North African landing. Strained Anglo-Soviet relations coupled with mounting losses and atrocious weather and sea conditions led to the near termination of the program in early 1943. Again competing operational priorities namely the invasion of Sicily and preparations for D Day affected the convoy schedules. In the event despite often crippling losses of lives ships and supplies the convoys continued

until shortly before VE Day This thoroughly researched and comprehensive account examines both the political maritime and logistic aspects of the Arctic convoy campaign Controversially it reveals that the losses of merchant vessels were significantly greater than hitherto understood While Churchill may not have described the convoys as the worst journey in the world for the brave men who undertook the mission often at the cost of their lives it most definitely was

Churchill's Greatest Fear Richard Doherty, 2015-11-30 The Battle of the Atlantic Churchill's term was arguably the pivotal campaign of the Second World War it was certainly the longest starting with the sinking of RMS Athenia on 3 September 1939 and ending with the torpedoing of SS Avon Dale on 7 May 1945 This superbly researched work covers all the major aspects of The Battle balancing the initial advantages of Admiral Doenitz's U Boat force the introduction of the convoy system the role of the opposing surface fleets and air forces relative strengths and the all important technical developments Intelligence particularly the Bletchley Park intercepts played an increasingly important part in the final outcome The author concludes that May 1943 was the moment when the Allies seized the initiative and despite desperate German efforts never lost their advantage Using official records personal accounts and a wealth of historical research this work gives the reader a splendidly concise yet broad account of the course of the campaign the men who fought it on both sides and the critical moments and analysis of the outcome

The Decoys Bernard Edwards, 2012-10-30 In November 1942 Britain and America launched Operation TORCH the ambitious invasion of French North Africa To convey 70 000 troops and their equipment required 600 merchant ships crossing the U boat infested North Atlantic The need for their protection meant withdrawing escorts from the routine convoys Amongst those left without adequate defence were RB 1 and SC 107 both eastbound from America and SL 125 northbound from Freetown All three were at sea at the same time as the TORCH convoys

Liberty's War Herman E. Melton, 2017-08-15 In the dark days of World War II merchant mariners made heroic contributions to the eventual Allied victory and suffered tremendous casualties in so

doing Among these were the engineers who toiled deep in the bowels of the ship and suffered appalling casualties After the war engineering personnel were unlikely to talk about their experiences let alone write them down These modest and self effacing men were more comfortable in a world of turbines and pistons so they seldom brought their stories forward Liberty s War sets out to explore the experiences of one such engineer Herman Melton from his time as a cadet at the U S Merchant Marine Academy through his experiences at sea as a third assistant engineer Melton s story is representative of the thousands of Merchant Marine engineers who served on board Liberty ships during the war Like many young Americans he sought to do his part and in 1942 he obtained an appointment to the newly created U S Merchant Marine Academy at Kings Point New York After graduating from the academy in 1944 he shipped out to the Pacific Theatre surviving the sinking of his Liberty ship the SS Antoine Saugrain and its top secret cargo
