The Fighting Temeraire:

The Fighting Temeraire Sam Willis, 2010-11-15 Tells the story of the vessel behind J M W Turner's famous painting *The Fighting Temeraire* Sam Willis, 2010-11-15 A Simon Schuster eBook Simon Schuster has a great book for every reader

Turner Judy Egerton, 1995-01-01 The Temeraire a 98 gun ship of the line had fought gallantly beside Nelson's Victory at the Battle of Trafalgar in 1805 After Trafalgar there were no more major naval battles the Napoleonic wars ended in 1815 and like many other warships the Temeraire was relegated to harbour duties By 1838 40 years old she was decaying she was stripped of reusable materials and sold for the value of her timbers to a Rotherhithe ship breaker J M W Turner's *The Fighting Temeraire* tugged to her last berth to be broken up 1838 one of the best loved pictures in the National Gallery depicts the passing of the Temeraire to her doom From her inglorious final journey a huge but powerless vessel without masts rigging sails or flags towed by two steam tugs Turner made a magnificent and deeply symbolic painting

Angel in the Sun Gerald Finley, 1999-03-10 Turner was deeply affected by the world in which he lived the sciences that explained it and the conflicts and accomplishments of his society He wove these strands into the dense fabric of the historical pictures he created pictures that were extremely varied complex original and controversial In *Angel in the Sun* Gerald Finley untangles the various thematic strands running through Turner's art including the intersection of private and public histories classical and biblical history and contemporary events and science and religion and shows how Turner's use of light and colour played an important role in conveying these ideas *Angel in the Sun* includes over 130 illustrations in colour and black and white that reveal Turner's remarkable achievement as a painter of historical subjects Because of its interdisciplinary nature the book will appeal not only to art historians and landscape theorists but also to historians of science and literature

The Fighting Temeraire Sam Willis, 2016-07-26 J M W Turner's *The Fighting Temeraire Tugged to her Last Berth to be Broken Up* 1838 was his masterpiece Sam Willis tells the real life story behind this remarkable painting The 98 gun Temeraire warship broke through the French and Spanish line directly astern of Nelson's flagship Victory during the Battle of Trafalgar 1805 saving Nelson at a crucial moment in the battle and in the words of John Ruskin fought until her sides ran wet with the long runlets of English blood those pale masts that stayed themselves up against the war ruin shaking out their ensigns through the thunder till sail and ensign dropped It is a story that unites the art of war as practised by Nelson with the art of war as depicted by Turner and as such it ranges across an extensive period of Britain's cultural and military history in ways that other stories do not The result is a detailed picture of British maritime power at two of its most significant peaks in the age of sail the climaxes of both the Seven Years War 1756-63 and the Napoleonic Wars 1798-1815 It covers every aspect of life in the sailing navy with particular emphasis on amphibious warfare disease victualling blockade mutiny and of course fleet battle for it was at Trafalgar that the Temeraire really won her fame An evocative and magnificent narrative history by a master historian
