**The Films of the Fifties** Andrew Dowdy, 1975      Imitations of Life Marcia Landy, 1991 On melodrama      *Fictional Presidential Films* Sarah Miles Bolam & Thomas J. Bolam, 2011-07-01 Fictional Presidential Films Hollywood's manner of making films its conventions applies especially to fictional presidential films allowing filmmakers to express their ideas that could not be done in traditional historical films Fictional Presidential Films offers a complete filmography of these two hundred plus films decade by decade since 1930 The main body of the work provides a brief summary of each decade along with a summary on the overall nature of films in which a fictional President appeared Each relevant film is then discussed with credits plot summary description of the presidential appearance and when possible an assessment of the presidential portrayal included      Remembered Prisoners of a Forgotten War Lewis H. Carlson, 2025-06-25 Remembered Prisoners of a Forgotten War presents a devastating oral history of Korean War POWs The Korean War POW remains the most maligned victim of all American wars For nearly half a century the media general public and even scholars have described hundreds of these prisoners as brainwashed victims who uncharacteristically caved in to their Communist captors or even worse as turncoats who betrayed their fellow soldiers In either case these boys apparently lacked the right stuff required of our brave sons Here at long last is a chance to hear the true story of these courageous men in their own words a story that until now has gone largely untold Dr Carlson debunks many of the popular myths of Korean War POWs in this devastating oral history that's as compelling and moving as it is informative From the Tiger Death March to the paranoia here at home Korean POWs suffered injustices on a scale few can comprehend More than 40 percent of the 7 140 Americans taken prisoner died in captivity and as haunting tales of the survivors unfold it becomes clear that the goal of these men was simply to survive under the most terrible conditions Each survivor's story is a unique and personal experience from missionary teacher Larry Zeller's imprisonment in the death cells of Pyongyang and his first encounter with the infamous killer known as The Tiger to Rubin Townsend's daring escape from a death march by jumping off a bridge in a blinding snowstorm From capture to forced marches isolation permanent camps and torture Remembered Prisoners of a Forgotten War is one of the most fascinating and disturbing books on the Korean War in years and a brutally honest account of the Korean POW experience in the survivors own words      *Heroes of the New Hollywood* Dan Lalande, 2024-11-19 In instant classics spanning the 1970s audiences watched Dustin Hoffman Gene Hackman Jack Nicholson Al Pacino Robert Duvall and Robert De Niro come of artistic age Together this dynamic group advanced the craft of screen acting and redefined what it meant to be a man in the age of post 60s disillusionment burgeoning feminism and the narcissistic machoism of disco culture The book featuring 35 photographs is a critical and historical look at the films performances and career arcs of six of the biggest male stars of the 1970s Studying them in the context of the times it also touches on several of their contemporaries including Marlon Brando Laurence Olivier George C Scott Charlton Heston Paul Newman Steve McQueen Robert Redford Warren Beatty James Caan

Donald Sutherland Charles Bronson Clint Eastwood Burt Reynolds Richard Dreyfuss and Bruce Lee      *The Other Space Race* Nicholas Michael Sambaluk, 2015-12-15 The Other Space Race is a unique look at the early U S space program and how it both shaped and was shaped by politics during the Cold War Eisenhower s New Look expanded the role of the Air Force in national security and ultimately allowed ambitious aerospace projects namely the Dyna Soar a bomber equipped with nuclear weapons that would operate in space Eisenhower s space policy was purely practical creating a strong deterrent against the use of nuclear arms against the United States With the Soviet launch of Sputnik in 1957 the political climate changed and space travel became part of the United States national discourse Sambaluk explores what followed including the scuttling of the Dyna Soar program and the transition from Eisenhower s space policy to John Kennedy s This well argued well researched book gives much needed perspective on the Cold War s influence on space travel and it s relation to the formation of public policy      **Women Labor Activists in the Movies** Jennifer L. Borda, 2010-11-18 Some of the most indelible images of women in recent American film have been of working women fighting for labor reform or to expose corporate corruption This critical text explores films with female labor activists as main protagonists illuminating issues of gender and class while depicting the challenges of working class women Films covered include Salt of the Earth Pajama Game Union Maids With Babies and Banners Norma Rae Silkwood and Live Nude Girls Unite Through comparative analysis the text examines the responses of these films to the labor and feminist movements of the last half century and how American cinema has articulated notions of disempowerment ambivalence and at times the resistance of both women and the working class at large      **Invasion of the Body Snatchers** Barry Keith Grant, 2019-07-25 Upon its release in 1956 Don Siegel s Invasion of the Body Snatchers was widely perceived as another B movie thriller in the cycle of science fiction and horror films that proliferated in the 1950s Yet the film addresses numerous issues brewing in post war US society including the Cold War McCarthyism and the changing dynamics of gender relations In the fifty years since the film s release its reputation has grown from cult status to become an acknowledged classic of American cinema With its narrative of emotionless alien duplicates replacing average folk Invasion of the Body Snatchers was the first post war horror film to locate the monstrous in the everyday thus marking it as a pivotal moment in American horror film history four years before Psycho In this first comprehensive critical study of the film Barry Keith Grant traces Invasion s historical and generic contexts to explore the importance of Communism and conformity post war modernity and gender politics in order to understand the film s cultural significance and metaphorical weight He also provides an account of the film s fraught production history and offers an extended discussion of the distinctive contributions of the production personnel Concluding with a consideration of the three remakes it has inspired Grant illustrates how Invasion of the Body Snatchers enduring popularity derives from its central metaphor for the monstrous which has proven as flexible as that of the vampire and the zombie      Detours and Lost Highways Foster Hirsch, 1999 Detours and Lost Highways begins with the Orson Welles film Touch of Evil 1958 which

featured Welles both behind and in front of the camera That movie is often cited as the end of the line noir's rococo tombstone the film after which noir could no longer be made or at least could no longer be made in the same way It is my belief Hirsch writes that neo noir does exist and that noir is entitled to full generic status Over the past forty years since noir's often claimed expiration it has flourished under various labels Among the movies he discusses as evidence Chinatown 1974 Body Heat 1981 John Woo's Hong Kong blood ballets e g The Killer 1989 and the pulpy oeuvre of Quentin Tarantino

Washington Post Book World      Nuclear Fear Spencer R. WEART, Spencer R Weart, 2009-06-30 Our thinking is inhabited by images images of sometimes curious and overwhelming power The mushroom cloud weird rays that can transform the flesh the twilight world following a nuclear war the white city of the future the brilliant but mad scientist who plots to destroy the world all these images and more relate to nuclear energy but that is not their only common bond Decades before the first atom bomb exploded a web of symbols with surprising linkages was fully formed in the public mind The strange kinship of these symbols can be traced back not only to medieval symbolism but still deeper into experiences common to all of us This is a disturbing book it shows that much of what we believe about nuclear energy is not based on facts but on a complex tangle of imagery suffused with emotions and rooted in the distant past Nuclear Fear is the first work to explore all the symbolism attached to nuclear bombs and to civilian nuclear energy as well employing the powerful tools of history as well as findings from psychology sociology and even anthropology The story runs from the turn of the century to the present day following the scientists and journalists the filmmakers and novelists the officials and politicians of many nations who shaped the way people think about nuclear devices The author a historian who also holds a Ph D in physics has been able to separate genuine scientific knowledge about nuclear energy and radiation from the luxuriant mythology that obscures them In revealing the history of nuclear imagery Weart conveys the hopeful message that once we understand how this imagery has secretly influenced history and our own thinking we can move on to a clearer view of the choices that confront our civilization
