The Final Challenge:

The Final Gauntlet Lou Paduano, 2020-10-13 The Daughters of Salem have returned A doorway was opened and a threat from the earliest days of Portents has found its way home The Daughters have a clear mission to use the power of the doorkeeper and awaken a terrible darkness on the world Soriya stands alone to face the threat To do so she must protect the magic wielding doorkeeper a woman in a desperate search to find her past There is more at stake for Soriya though as Mentor levels one final test upon her Should she pass Soriya will at last earn the mantle of the Greystone If she fails however all of Portents may succumb to the darkness within their souls Her greatest challenge is only the beginning as the secrets of the city come to light in the epic final chapter of the Greystone in Training trilogy

Transdisciplinary Engineering Methods for Social Innovation of Industry 4.0 M. Peruzzini, M. Pellicciari, C. Bil, 2018-09-14 The concept of concurrent engineering CE was first developed in the 1980s Now often referred to as transdisciplinary engineering it is based on the idea that different phases of a product life cycle should be conducted concurrently and initiated as early as possible within the Product Creation Process PCP The main goal of CE is to increase the efficiency and effectiveness of the PCP and reduce errors in later phases as well as incorporating considerations including environmental implications for the full lifecycle of the product It has become a substantive methodology in many industries and has also been adopted in the development of new services and service support This book presents the proceedings of the 25th ISPE Inc International Conference on Transdisciplinary Engineering held in Modena Italy in July 2018 This international conference attracts researchers industry experts students and government representatives interested in recent transdisciplinary engineering research advancements and applications The book contains 120 peer reviewed papers selected from 259 submissions from all continents of the world ranging from the theoretical and conceptual to papers addressing industrial best practice and is divided into 11 sections reflecting the themes addressed in the conference program and addressing topics as diverse as industry 4 0 and smart manufacturing human centered design modeling simulation and virtual design and knowledge and data management among others With an overview of the latest research results product creation processes and related methodologies this book will be of interest to researchers design practitioners and educators alike
