FIRELING

Deriving from the Elemental Plane of Fire, a fireling embodies controlled chaos. Although these wild spirits of fire manifest themselves in adorable forms, they contain the energy to cause unexpected mayhem. Firelings, however, find water to be their bane.

Elemental Tricksters. On its home plane, a fireling is similar to an elemental in that it is a bodiless life force and only manifests itself as a physical shape when focused by the power of magic. However, a fireling is unique in the way that it has a sense of being and desires, resulting in a wide array of personalities.

Conjured by Magic. Certain spells, magic items, and class abilities can conjure a fireling, summoning it from the Inner Planes to the Material Plane. Firelings are eager to be pulled from their native planes, and creatures that summon firelings commonly befriend the spirit to control it.

Elemental Nature. A fireling doesn't require air, food, drink, or sleep, but can be destroyed if submerged in water.
