Bureau of Naval Personnel, 1963 Fundamentals of sonar systems are presented in this book prepared for both regular navy and naval reserve personnel who are seeking advancement in rating An introductory description is first made of submarines and antisubmarine units Determination of underwater targets is analyzed from the background of true and relative bearings true and relative motion and computation of target angles Then applications of both active and passive sonars are explained in connection with bathythermographs fathometers tape recorders fire control techniques internal and external communications systems maintenance actions test methods and equipment and safety precautions Basic principles of sound and temperature effects on wave propagation are also discussed Illustrations for explanation use information on training films and the sonar technician rating structure are also provided Dictionary of American Naval Fighting Ships United States. Naval History Division, 1977 **The First Clash** James Lacey, 2011-03-29 NEW YORK TIMES BESTSELLER A

compelling and provocative read With a soldier's eye Jim Lacey re-creates the battle of Marathon in all its brutal simplicity Barry Strauss author of *Masters of Command* Marathon one of history's most pivotal battles Its name evokes images of almost superhuman courage endurance and fighting spirit In this eye-opening book military analyst James Lacey takes a fresh look at Marathon and reveals why the battle happened how it was fought and whether in fact it saved Western civilization Lacey brilliantly reconstructs the world of the fifth century B.C. leading up to the astonishing military defeat of the Persian Empire by the vastly undermanned Greek defenders With the kind of vivid detail that characterizes the best modern war reportage he shows how the heavily armed Persian army was shocked and demoralized by the relentless assault of the Athenian phalanx He reveals the fascinating aftermath of Marathon how its fighters became the equivalent of our Greatest Generation and challenges the legacy and lessons that have often been misunderstood perhaps now more than ever at our own peril Immediate visceral and full of new analyses that defy decades of conventional wisdom *The First Clash* is a superb interpretation of a conflict that indeed made the world safe for Aristotle Plato and our own modern democracy With a fresh eye to tactics strategy and military organization and with his text grounded in direct experience of the troops on the battlefield James Lacey gives us not only new understanding of how the Athenians managed to win but also a greater appreciation of the beginning of a long tradition of Western military dynamism that we take for granted today Victor Davis Hanson author of *Carnage and Culture* Lacey's swords and shields approach will absorb readers ever fascinated by the famous battles of antiquity Booklist A lively and rewarding read Charleston Post and Courier Exemplary Lacey a veteran of the 82nd and 101st Airborne divisions and a professor at the Marine War College brings to the tale of Marathon the practical experiences of the combat soldier and an intellectual sensibility *The New Criterion* **The First Arabic Annals** Edward Zychowicz-Coghill, 2021-03-22 The earliest development of Arabic historical writing remains shrouded in uncertainty until the 9th century CE when our first extant texts were composed This book demonstrates a new method termed *riw ya cum matn* which allows us to identify citation markers that securely indicate the quotation of earlier Arabic historical works proto books first circulated in the eighth century As a case study it reconstructs with an edition and translation around half of an annalistic history written by al-Layth b. Sa'd in the 740s In doing so it shows that annalistic history writing comparable to contemporary Syriac or Greek models was a part of the first development of Arabic historiography in the Marwanid period providing a chronological framework for more ambitious later Abbasid history writing Reconstructing the original production contexts and larger narrative frames of now atomised quotations not only lets us judge their likely accuracy but to consider the political and social relations underpinning the first production of authoritative historical knowledge in Islam It also enables us to assess how Abbasid compilers combined and augmented the base texts from which they constructed their histories *Oceanographic Ships, Fore and Aft* Stewart B. Nelson, 1971 **Notes of Lessons for Infant Classes & the First Standard** J. E. Singleton, 1881 *First Class Passengers on a Sinking Ship* Richard Lachmann, 2020-01-14 Why great

powers decline from Spain to the United States The extent and irreversibility of US decline is becoming ever more obvious as America loses war after war and as one industry after another loses its technological edge Lachmann explains why the United States will not be able to sustain its global dominance and contrasts America's relatively brief period of hegemony with the Netherlands similarly short primacy and Britain's far longer era of leadership Decline in all those cases was not inevitable and did not respond to global capitalist cycles Rather decline is the product of elites success in grabbing control over resources and governmental powers Not only are ordinary people harmed but also capitalists become increasingly unable to coordinate their interests and adopt policies and make investments necessary to counter economic and geopolitical competitors elsewhere in the world Conflicts among elites and challenges by non elites determine the timing and mold the contours of decline Lachmann traces the transformation of US politics from an era of elite consensus to present day paralysis combined with neoliberal plunder explains the paradox of an American military with an unprecedented technological edge unable to subdue even the weakest enemies and the consequences of finance's cannibalization of the US economy
