The Family In Social Context:

The Family in Social Context Gerald R. Leslie, 1979 Fully updated this comprehensive and engaging introduction to the sociology of the family offers cross cultural and historical coverage of a timely topic For this new edition the authors have added a glossary expanded and revised many of the chapters and included a short outline at the beginning of each chapter to provide an overview of material covered An entirely new section on adoption has been added and the chapter on dual career families greatly expanded [The Family in Social Context](#) Gerald Ronnell Leslie, 1969 **The Family in Social Context,**

2. Ed Gerald R. Leslie, 1973 **Exploring Family Relationships With Other Social Contexts** Ross D. Parke, Sheppard G. Kellam, 2013-07-04 In the 1990s it is no longer news that families do not operate independently from other social organizations and institutions Instead it is generally recognized that families are embedded in a complex set of relationships with other institutions and contexts outside the family In spite of this recognition a great deal remains to be discovered about the ways in which families are influenced by these outside agencies or how families influence the functioning of children and adults in these extra familial settings school work day care or peer group contexts Moreover little is known about the nature of the processes that account for this mutual influence between families and other societal institutions and settings The goal of this volume is to present examples from a series of ongoing research programs that are beginning to provide some tentative answers to these questions The result of a summer workshop characterized by lively exchanges not only between speakers and the audience but among participants in small group discussions as well this volume attempts to communicate some of the dynamism and excitement that was evident at the conference In the final analysis this book should stimulate further theoretical and empirical advances in understanding how families relate to other contexts *The Social Context and Values* George F. McLean, Olinto Antonio Pegoraro, 1989 To find more information about Rowman and Littlefield titles please visit www.rowmanlittlefield.com [Adoptees' Ethnic Identity Within Family and Social Contexts](#) Ellen E. Pinderhughes, Rosa Rosnati, 2015-12-15 This special issue addresses the construction of ethnic identity among international transracial adoptees which typically involve the placement of Black Asian Hispanic or Multiracial children with White parents International transracial adoptees similar to immigrants navigate a cultural and ethnic context other than their birth culture However they are unique in that they navigate these experiences within families who don't share their cultural ethnic and racial background Critical questions emerge about the construction and development of their ethnic identity These questions include the role that transracial adoptive parents play in providing cultural socialization exposure to children's birth culture the impact of culture camps designed to provide cultural socialization in the context of peers the intersection of adoptive identity and ethnic identity and youth adjustment whether relations between ethnic identity and adjustment are linear or curvilinear the role of bicultural identity integration as a link between ethnic identity and psychosocial adjustment and ethnic identity processes among internationally transracially adopted young adults who mentor younger adoptees from similar

cultures These questions are addressed in this special issue in a collection of studies that examine ethnic identity among diverse international transracial adoptees at different ages adopted into two countries and using differing sample sizes and methodologies International transracial adoptive families represent a microcosm of the growing international transracial and transethnic social transactions taking place in this diverse world The collective findings in this special issue about the multidimensionality of ethnic identity and its intersectionality with other identities across developmental eras not only enhance knowledge about identity development among international transracial adoptees but also expand understanding about identity development in general This is the 150th volume in this Jossey Bass series New Directions for Child and Adolescent Development Its mission is to provide scientific and scholarly presentations on cutting edge issues and concepts in this subject area Each volume focuses on a specific new direction or research topic and is edited by experts from that field
