The Family Life Of Old People Pelican:

Family Britain, 1951-1957 David Kynaston, 2010-12-01 As in his highly acclaimed *Austerity Britain* David Kynaston invokes an astonishing array of vivid intimate and unselfconscious voices to drive his narrative of 1950s Britain The keen eyed Nella Last shops assiduously at Barrow Market as austerity and rationing gradually give way to relative abundance housewife Judy Haines relishing the detail of suburban life brings up her children in Chingford the self absorbed civil servant Henry St John perfects the art of grumbling These and many other voices give a rich unsentimental picture of everyday life in the 1950s Well known figures are encountered on the way such as Doris Lessing joining and later leaving the Communist Party John Arlott sticking up on *Any Questions* for the rights of homosexuals and Tiger s Roy of the Rovers making his goal scoring debut for Melchester All this is part of a colourful unfolding tapestry in which the great national events the Tories returning to power the death of George VI the Coronation of Queen Elizabeth the Suez Crisis jostle alongside everything that gave Britain in the 1950s its distinctive flavour Butlin s holiday camps Kenwood food mixers Hancock s Half Hour Ekco television sets Davy Crockett skiffle and teddy boys Deeply researched David Kynaston s *Family Britain* offers an unrivalled take on a largely cohesive ordered still very hierarchical society gratefully starting to move away from the painful hardships of the 1940s towards domestic ease and affluence

Caring for Older People Linda Bauld, John Chesterman, Bledwyn Davies, Ken Judge, 2018-04-27 This title was first published in 2000 *Caring for Older People* provides a unique insight into the world of community care in the 1990 s It presents findings from a national study of social care from the perspectives of older service users their carers and care managers Descriptive findings from this longitudinal study conducted by the PSSRU from 1994 and funded by the Department of Health are set in the context of the history of community care and developments since the passage of the 1990 NHS and Community Care Act The study s findings highlight important challenges for policy and practice development in the new millennium

Planning Local Authority Services for the Elderly Greta Sumner, Randall Smith, 2024-05-10 In the 1960s planning the development of services for the elderly was a subject of considerable importance in Britain both because existing services were known to be inadequate and because the proportion of older people especially of those over seventy five was expected to increase during the next thirty years Originally published in 1969 this book describes how a sample of local authorities were planning their services for the elderly how they estimated the need for services and the availability of resources and how they linked their plans with those of other organisations By providing a deeper understanding of the difficulties faced by local authority officials when trying to plan and by suggesting a realistic approach to planning the report made a valuable contribution towards putting the planning of services for the elderly on to a sound basis It would have been helpful to all those concerned with the planning and administration of the social services at the time At the same time the historical background and the insight given into the operation of local authority services should still be of interest to readers today

Me, Me, Me Jon Lawrence, 2019-09-01

Many commentators tell us that in today's world everyday life has become selfish and atomised that individuals live only to consume But are they wrong In *Me Me Me* Jon Lawrence re tells the story of England since the Second World War through the eyes of ordinary people including his own parents to argue that in fact friendship family and place all remain central to our daily lives and whilst community has changed it is far from dead He shows how in the years after the Second World War people came increasingly to question custom and tradition as the pressure to conform to societal standards became intolerable And as soon as they could millions escaped the closed face to face communities of Victorian Britain where everyone knew your business But this was not a rejection of community per se but an attempt to find another new way of living which was better suited to the modern world Community has become personal and voluntary based on genuine affection rather than proximity or need We have never been better connected or able to sustain the relationships that matter to us *Me Me Me* makes that case that it's time we valued and nurtured these new groups rather than lamenting the loss of more real forms of community it is all too easy to hold on to a nostalgic view of the past **Divided Kingdom** Pat

The Rise and Fall of the British Welfare State Pat Thane, 2024-09-19 For the past decade at least 25% of the UK population and 30% of children have been in poverty by internationally accepted measures and the numbers keep rising In *The Rise and Fall of the British Welfare State* Pat Thane analyses the history of state welfare in Britain from 1900 and sheds light on its aims achievements and failings Beginning with the poverty surveys of Booth and Rowntree and the implementation of early welfare measures such as free school meals Thane offers a vivid snapshot of social welfare in Britain c1900 and the growing demands for improved welfare provisions Taking readers through the significant social reforms of the First and Second World Wars the making of the modern welfare state 1945 51 and its subsequent shifts due to rapidly evolving social policies Thane ends with austerity and the COVID 19 pandemic bringing the scholarship up to the present day

and drawing striking parallels with Britain c1900 By placing a major current issue within its historical context Thane explores the shifting administration of the welfare state and adjusts misconceptions about the implementation of social policy particularly during the 1970s and 1980s Thane offers readers a comprehensive study of British social measures during the 20th and 21st centuries highlighting how and why poverty rates are rising once more and examining how the future of social policy could enact greater change **Readings in the Political Economy of Aging** Meredith Minkler,Carroll

Estes,2019-03-19 Includes 16 essays which address many issues from a different perspective suggested by the experience of aging in America This study explores the political social and economic realities which have an impact on Americans as they grow older Delivering Benefits in Old Age Paul Dornan,2006 Although means testing for Social Security transfers is economical it hasn t proven to be very effective In this book Paul Dornan considers the problems of non take up of means tested benefits by pensioners As high take up would be an important step in combating poverty this book offers solutions and options to tackle these problems
