THE WILLIAM HILL SPORTS BOOK OF THE YEAR PRIZE 2020 One of the funniest books I've read Arthur Mathews co-writer of *Father Ted* widely regarded as one of the best football books ever written *The Far Corner* was a vivid portrait of the sport in the north east and of the people who bring such passion to it Now a generation later Harry Pearson returns to the region to discover how much things have changed and how much they have remained the same In the mid 1990s Kevin Keegan brought sporting romance and expectation of trophies to Newcastle Sunderland moved the the Stadium of Light backed by a wealthy consortium Middlesbrough signed one of the best Brazilians of the era and won their first major trophy even little Darlington had a former safe cracker turned kitchen magnate in charge promising the world The region even provided England's two key players in Euro 96 in Alan Shearer and Paul Gascoigne the far corner seemed destined to become the centre of England's footballing world But it never happened Using travels to and from matches in the 2018/19 season *The Farther Corner* will explore the changes in north east football and society over the past twenty five years Visiting new places and some familiar ones catching the stories the sentiment and the sound of the supporters locating where football now sits in the life of a region that was once proud to be what John Arlott suggested was The Hotbed of Soccer it will be about love and loss and the happiness to be found eating KitKats and joking about Bobby Mimms on cold February days in coal scented northern air The region may have been left behind in the Champions League stakes but few would doubt the power of its beating heart [The Farthest Shore](#) Alex Roddie,2021-09-02 In February 2019 award winning writer Alex Roddie left his online life behind when he set out to walk 300 miles through the Scottish Highlands seeking solitude and answers In leaving the chaos of the internet behind for a month he hoped to learn how it was truly affecting him or if he should look elsewhere for the causes of his anxiety *The Farthest Shore* is the story of Alex's solo trek along the remote Cape Wrath Trail As he journeyed through a vanishing winter Alex found answers to his questions learnt the nature of true silence and discovered frightening evidence of the threats faced by Scotland's wild mountain landscape [A Far Corner](#) Scott Ezell,2015-02-01 In 2002 after living ten years in Asia American poet and musician Scott Ezell used his advance from a local record company to move to Dulan on Taiwan's remote Pacific coast He fell in with the Open Circle Tribe a loose confederation of aboriginal woodcarvers painters and musicians who lived on the beach and cultivated a living connection with their indigenous heritage Most members of the Open Circle Tribe belong to the Amis tribe which is descended from Austronesian peoples that migrated from China thousands of years ago As a nonstate people navigating the fraught politics of contemporary Taiwan the Amis of the Open Circle Tribe exhibit for Ezell the best characteristics of life at the margins striving to create art and to live autonomous unorthodox lives In Dulan Ezell joined song circles and was invited on an extended hunting expedition he weathered typhoons had love affairs and lost close friends In *A Far Corner* Ezell draws on these experiences to explore issues on a more global scale including the multiethnic nature of modern society the geopolitical relationship between the United States Taiwan and China and the impact of environmental degradation on indigenous

populations The result is a beautifully crafted and personal evocation of a sophisticated culture that is almost entirely unknown to Western readers *Farther than the Farthest Stars* Mikhail Akhmanov,2018-12-20 In the course of one long distance expedition the research ship of the Archives discovers a planet with unique people as if having no kinship with the rest of the humankind The attempt to contact them ends tragically nearly the whole crew dies but the ship with artificial intelligence manages to come back to the Archives port with the information about the discovery The strange race which can be a nation of monsters from another Universe is dying there are no children born in their world the population is decreasing cities are becoming empty Should they be helped or left to the mercy of fate Perhaps it will be better to eliminate these monsters send them into nothingness quickly and painlessly There are different opinions in the Great Galaxies as to what should be done The Archives and the Monasteries secretly send another well armed expedition its goal is to study the newly discovered world and take the decision The ship is taking researchers to the far off planet but they are not united each of the six crew members has his her preferences goals and secrets **Electron Scattering in Solid Matter** Jan Zabloudil,Robert Hammerling,Lászlo Szunyogh,Peter Weinberger,2005-12-12 Addressing graduate students and researchers this book gives a very detailed theoretical and computational description of multiple scattering in solid matter Particular emphasis is placed on solids with reduced dimensions on full potential approaches and on relativistic treatments For the first time approaches such as the screened Korringa Kohn Rostoker method are reviewed considering all formal steps such as single site scattering structure constants and screening transformations and also the numerical point of view Furthermore a very general approach is presented for solving the Poisson equation needed within density functional theory in order to achieve self consistency Special chapters are devoted to the Coherent Potential Approximation and to the Embedded Cluster Method used for example for describing nanostructured matter in real space In a final chapter physical properties related to the single particle Green s function such as magnetic anisotropies interlayer exchange coupling electric and magneto optical transport and spin waves serve to illustrate the usefulness of the methods described **Supreme Court** ,
