The First Principles Of Natural Magic:

The First Principles of Natural Magic Francis Barrett, 2005-12-01 This scarce antiquarian book is a facsimile reprint of the original. Due to its age, it may contain imperfections such as marks, notations, marginalia, and flawed pages. Because we believe this work is culturally important, we have made it available as part of our commitment for protecting, preserving, and promoting the world's literature in affordable, high-quality modern editions that are true to the original work. **The Magus** Francis Barrett, 1999-07 Has proved to be the most sought-after set of books on magic and alchemy ever published. Powerful work and considered so dangerous that for many years rare copies could only be found in certain libraries locked away from the general public and from those who would use or misuse its power. Original set first published in 1801 by author who spent many years of study before releasing them. Includes rare illustrations from original sources. Covers natural magic, amulets, and charms, potions, precious stones, candles, alchemy, the philosophers' stone, transmutation, the four elements, numbers, and the planets. Book Two covers magnetic powers, Cabalistic magic, the names of angels and spirits, the performing of invocations, conjuring spirits, magic circles, receiving oracles in dreams, good and evil spirits, and concludes with a major biographical section on the great magicians of history. *The Magus, a Complete System of Occult Philosophy* Francis Barrett, 2009-06-01 Its author is as mysterious as its subject matter. The one appearance of English occultist FRANCIS BARRETT b. circa 1770 upon the literary scene is this mammoth 1801 work, a complete study of ritual magic in practice and in its theoretical underpinnings. Drawing on numerous works of the arcane and the occult, this one-of-a-kind book ignited a fervor for magic in all its forms in Europe in the early 19th century and may have even influenced Joseph Smith, founder of the Mormon Church. Subtitled his tome *Celestial Intelligencer*, Barrett promises here to present a complete system of occult philosophy containing the ancient and modern practice of the Cabalistic art and showing the wonderful effects that may be performed by a knowledge of the celestial influences, the occult properties of metals, herbs, and stones. Alchemy, talismanic magic, magnetism, ceremonial magic, the conjuration of spirits: Barrett reveals the secrets of all these disciplines and more. Featuring all the original charts, diagrams, and illustrations and including Barrett's biographies of famous occultists from Agrippa to Zoroaster, this is a fascinating work of occult and cultural history.
