Burton L. White, 1991-02 Recognized internationally as one of the most important guides to childhood development ever written this classic provides the information parents need to maximize a child s social and intellectual potential Illustrated

[Fathers and Their Children in the First Three Years of Life](#) Frank L'Engle Williams, 2020-01-27 How ancient is father care of human infants and young children and why did it emerge Is it possible that father care arose among the ancestors of modern humans and became essential for survival Or is it a recent though variable development Is father care an evolved trait of Homo sapiens or is it a learned cultural behavior transmitted across generations in some societies but not others In this important study Frank L Engle Williams examines the anthropological record for evidence of the social behaviors associated with paternity suggesting that ample evidence exists for the importance of such behaviors for infant survival Focusing on the first three postnatal years he considers the implications of father care both in the fossil record and in more recent cross cultural research for the development of such distinctively human traits as bipedalism extensive brain growth language and socialization He also reviews the rituals by which many human societies construct and reinforce the meanings of socially recognized fatherhood Father care was adaptive within the context of the parental pair bond and shaped how infants developed socially and biologically The initial imprinting of socially recognized fathers during the first few postnatal years may have sustained culturally sanctioned indirect care such as provisioning and protection of dependents for nearly two decades thereafter In modern humans this three year window is critical to father child bonding By increasing the survival of children in the past present and quite possibly the future father care may be a driving force in the biological and cultural evolution of Homo sapiens [The First Three Years of Life](#) Nina R. Lief, 1997 Written by the eminent child psychologist Dr Nina R Lief with her colleagues at the Early Childhood Development Center Mary Ellen Fahs and Rebecca Thomas The First Three Years of Life is a comprehensive guidebook for parenting a young child The reader learns what to expect as the child develops as well as coping skills that every parent needs Emotional and social aspects of child

development and the importance of the parent child relationship are stressed The book is organized in a question and answer format covering each stage in the child s life from birth to age three The questions are from real parents and are answered in down to earth language that will make this a basic reference for every young family Topics covered include Babies Individual Differences Separation Anxiety Teething Crying Toilet Training Sleep Patterns Parent s Time for Themselves Nursery School Socializing Discipline and more Illustrated with numerous black and white diagrams sketches and photos **Positive**

Discipline: The First Three Years, Revised and Updated Edition Jane Nelsen, Cheryl Erwin, MA, Roslyn Ann

Duffy, 2015-02-24 The celebrated Positive Discipline brand of parenting books presents the revised and updated third edition of their readable and practical guide to communicating boundaries to very young children and solving early discipline problems to set children up for success Over the years millions of parents have used the amazingly effective strategies of Positive Discipline to raise happy well behaved and successful children Research has shown that the first three years in a child s life are a critical moment in their development and that behavior patterns instilled during that time can have profound implications for the rest of a child s life Hundreds of thousands of parents have already used the advice in Positive Discipline The First Three Years to help set effective boundaries forge strong foundations for healthy communication and lay the groundwork for happy and respectful relationships with their young children Now this classic title has been revised and updated to reflect the latest neuroscientific research and developments in positive discipline parenting techniques

Human Development and Faith (Second Edition) Felicity Kelcourse, 2015-07-28 Updated with the latest research this second edition approaches human development from a multidisciplinary perspective Uniquely inclusive of the moral and faith dimensions of the life cycle Human Development and Faith examines the interplay of mind body family community and soul at every stage of development Back cover Word Knowledge and Word Usage Vito Pirrelli, Ingo Plag, Wolfgang U.
